Subject: AquaStat-HU  
EPA Registration Number 79630-1  
Your Amendment Dated May 15<sup>th</sup>, 2007  
EPA Received Date June 6<sup>th</sup>, 2007

The amendment referred to above, submitted in connection with under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, FIFRA, as amended, to allow a graphical representation of efficacy against non-public health organisms, is acceptable.

**EFFICACY:**

The submitted study, MRID # 471480-01, supports the use of the bar graph for showing efficacy of a non-public claim for the product, AquaStat-HU, as an antimicrobial capsule that appears to be effective in helping to control bacterial contamination or growth algae and/or mold within common evaporative humidifiers.

**LABELING:**

Please remove the phrases, "continually inhibits" from the proposed label language, and "kills bacteria".....that cause unpleasant odors. Instead, the language should state that the product "helps to control the bacteria that causes unpleasant odors."
