U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511C)
1200 Pennsylvania Avenue NW
Washington, DC 20460

EPA Reg. Number: 80286-21
Date of Issuance: JAN 13 2014

Term of Issuance: Unconditional

Name of Pesticide Product: DCept CLM™

NOTICE OF PESTICIDE:
 Registration
 Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

ISCA Technologies, Inc.
1230 W. Spring St.
Riverside, CA 92507

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If the EPA determines at any time that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product is unconditionally registered in accordance with FIFRA Sec. 3(c)(5) and is subject to the following terms:

1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants of similar products to submit such data.
2. Revise the EPA Registration Number to read, "EPA Reg. No. 80286-21."
3. A one year study is required to satisfy the Storage and Stability and Corrosion Characteristics requirements (Guidelines: OCSPP 830.6317 and 830.6320). You have 18 months from the date of registration to provide these data.
4. Submit three (3) copies of the revised final printed labeling before you release the product for shipment.

A stamped copy of the label and an A-79 Enclosure are enclosed for your records.

Signature of Approving Official: *J. E. Seely Jr.*

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes or clothing.
PERSONAL PROTECTIVE EQUIPMENT (PPE): Applicators and handlers must wear long-sleeved shirts and long pants, socks, shoes and waterproof gloves. Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions are available for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.
USER SAFETY RECOMMENDATIONS: Users should remove clothing and PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing and as soon as possible, wash thoroughly and change into clean clothing.
ENVIRONMENTAL HAZARDS: For terrestrial uses: Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Wash skin immediately with soap and water, then rinse with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything to an unconscious person.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center, doctor or going for treatment. For emergency information concerning this product, call the National Pesticide Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific Time, seven days a week. During other times, call the poison control center 1-800-222-1222.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INSTRUCTIONS

MODE OF ACTION
TARGET PEST & SITES
AREA-WIDE CONTROL & IPM

Dcept CLM uses the pheromone of the citrus leafminer (*Phyllocnistis citrella*) to disrupt adult moth mating, which reduces larval damage to crops.
 Dcept CLM is for use on all agricultural crops and non-agricultural plants and trees where the citrus leafminer is detected.

The mating disruption strategy for pest control works best with large acreages where the ratio of exposed borders to overall area treated is relatively small and in area-wide control programs. Monitor for pests on a regular basis so that timely intervention with another application of Dcept CLM, insecticides or other control measures is possible. Fortifying control area borders with either 20% more Dcept CLM or the periodic reapplication of product along exposed borders, especially around suspected moth entry points will minimize the influx of mated females from surrounding areas.

MONITORING & TIMING OF APPLICATION
 Monitor the target pest with pheromone-baited traps, such as the ISCA lure Citrella pheromone lure and ISCA delta trap monitoring system. Place monitoring traps in the treated area before applying Dcept CLM to determine the infestation level. Continue monitoring throughout the season to evaluate the efficacy and longevity of the application. Consult a qualified pest control advisor or ISCA Technologies to determine the proper timing for application. Supplementary control measures are advised if the pest population densities are above threshold levels. For best results, apply Dcept CLM as early in the season as possible.

FORMULATION & PREPARATION FOR USE
 Dcept CLM is a hand-applied dispenser that is supplied ready for immediate use.

APPLICATION METHOD
 Dcept CLM is applied manually. Always consult a qualified pest control advisor or ISCA Technologies to ensure optimum application of product is achieved.

PLACEMENT
 Dcept CLM should be attached securely to lateral branches within the tree canopy. For best results, apply in the upper third of the canopy. Do not let Dcept CLM contact fruit.

APPLICATION RATE
 The application rate for Dcept CLM is 50-500 dispensers per acre. Do not exceed 150 grams active ingredient (60,000 dispensers) per acre per year. Consult a qualified pest control advisor or ISCA Technologies for the precise rate of application, as it will vary depending on the pest population and field conditions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE
 Store Dcept CLM in an air-tight container and keep refrigerated. If refrigeration is not available, store product in a cool dry place, out of direct sunlight. For longer shelf life, store Dcept CLM in a freezer. Do not store Dcept CLM in a refrigerator or freezer used for food.

PESTICIDE DISPOSAL
 To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

CONTAINER HANDLING
 Nonrefillable container. Do not reuse or refill this container. Completely empty container, then offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn unless allowed by state and local ordinances.

WARRANTY, DISCLAIMER AND LIMITATION OF LIABILITY

IMPORTANT: READ BEFORE USE. Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability. **CONDITIONS:** The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of ISCA Technologies. All such risks shall be assumed by the user or buyer. **DISCLAIMER OF WARRANTIES:** To the extent consistent with applicable law, ISCA Technologies makes no other warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of ISCA Technologies is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, ISCA Technologies disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product. **LIMITATIONS OF LIABILITY:** To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at ISCA Technologies' election, the replacement of product.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INSTRUCTIONS

MODE OF ACTION
Dcept CLM uses the pheromone of the citrus leafminer (*Phyllocnistis citrella*) to disrupt adult moth mating, which reduces larval damage to crops.

TARGET PEST & SITES
Dcept CLM is for use on all agricultural crops and non-agricultural plants and trees where the citrus leafminer is detected.

AREA-WIDE CONTROL & IPM
 The mating disruption strategy for pest control works best when all crops affected by citrus leafminer in the nearby area are treated.

MONITORING & TIMING OF APPLICATION
 For best results, monitor the target pest with pheromone-baited traps, such as the ISCA lure[®] Citrella pheromone lure and ISCA[®] delta trap monitoring system. Place monitoring traps in the treated area before applying **Dcept CLM** to determine the infestation level. Continue monitoring throughout the season to evaluate the efficacy and longevity of the application. Consult a qualified pest control advisor or ISCA Technologies to determine the proper timing for application. Supplementary control measures are advised if the pest population densities are above threshold levels. For best results, apply **Dcept CLM** as early in the season as possible.

FORMULATION & PREPARATION FOR USE
Dcept CLM is a hand-applied dispenser that is supplied ready for immediate use.

APPLICATION METHOD
Dcept CLM is applied manually. Always consult a qualified pest control advisor or ISCA Technologies to ensure optimum application of product is achieved.

PLACEMENT
Dcept CLM should be attached securely to lateral branches within the tree canopy. For best results, apply in the upper third of the canopy. Do not let **Dcept CLM** contact fruit.

APPLICATION RATE
 The application rate of **Dcept CLM** is 1-5 dispensers per tree. Do not exceed 150 grams active ingredient (60,000 dispensers) per acre per year. Consult a qualified pest control advisor or ISCA Technologies for the precise rate of application, as it will vary depending on the pest population and field conditions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE
 Store **Dcept CLM** in an air-tight container and keep refrigerated. If refrigeration is not available, store product in a cool dry place, out of direct sunlight. For longer shelf life, store **Dcept CLM** in a freezer. Do not store **Dcept CLM** in a refrigerator or freezer used for food.

PESTICIDE DISPOSAL & CONTAINER HANDLING
 Nonrefillable container. Do not reuse or refill this container. **IF EMPTY:** Place in trash or offer for recycling, if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY, DISCLAIMER AND LIMITATION OF LIABILITY
