

U.S. ENVIRONMENTAL PROTECTION
AGENCY

Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

81038-1

Date of Issuance:

DEC 14 2007

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance: conditional

Name of Pesticide Product:

Skeet-Daddle Fogging Insecticide

Name and Address of Registrant (include ZIP Code):

TT&G Enterprises
c/o Robin Todd, Agent
ICR
1330 Dillon Heights Ave
Baltimore, MD 21228

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) and (B) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. You make the following label changes:
Change the EPA Reg. No. to: 81038-1.

On the front panel delete "controlling" claims. You may substitute "reduction in annoyance" in accordance with the directions for use.

Delete "fruit flies" from the label as this may lead to misuse on food and food crops.

Since the net contents are 18 fluid ounces, below the ingredient statement insert the following:
One fluid ounce of Skeet-Daddle Fogging Insecticide contains .002 oz. resmethrin.

Revise the Physical and Chemical Hazards statements as follows:
Combustible. Do not use or store near heat or open flame.

Signature of Approving Official:

Ann Sebold for

Richard Gebken
Product Manager 10
Insecticide Branch
Registration Division (7505P)

Date:

DEC 14 2007

Revise the Precautionary Statements as follows:

Harmful if swallowed or absorbed through skin. Do not get on skin, in eyes or on clothing. Do not breathe spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Revise the Environmental Hazards statements as follows:

This product is extremely toxic to fish, aquatic invertebrates and oysters/shrimp. Do not apply direct to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwater or rinsate. See Directions for Use for additional precautions and requirements.

Move the following statements to a subsection of the Directions for Use entitled General Precautions and Restrictions and revise them as follows:

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Do not use in indoor metered spray systems.

Do not use in automatic misting systems.

Cover or remove all exposed food and food contact surfaces.

Do not leave the fogging machine unattended with the engine running.

Extinguish all open flame before fogging.

Revise the Outdoor sites maximum application to read:

Outdoor sites (backyards, patios): Maximum application rate is 0.25 lbs of active ingredient resmethrin (19.2 gallons of Skeet-Daddle Fogging Insecticide) per acre per year.

Since this product is packaged in 18 fluid ounce containers, provide application directions in terms of fluid ounces per acre or per 1000 sq. ft.

Revise the storage instructions in accordance with the Physical and Chemical Hazards statements. Revise the second sentence of the storage instructions to state that the canister must be removed from the fogger machine and the child resistant cap must be placed on the canister for storage.

Revise the disposal instructions in accordance with PR Notice 2007-1, if appropriate.

The confidential statement of formula dated 2/20/07 is acceptable and a copy has been placed in the file jacket for this registration.

Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. If you have questions, please call Ann Sibold at 703 305-6502.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing mist. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Remove pets and cover fish aquariums before spraying. Do not allow dogs or cats to re-enter treated areas until spray deposits have dried.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish, aquatic invertebrates, and oysters/shrimp. Do not apply directly to or near water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment, washwater or rinsate. See Directions for Use for additional precautions and requirements.

PHYSICAL OR CHEMICAL HAZARDS

This product is combustible. DO NOT use or store near heat or open flame. Extinguish open flame before space spraying.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

Read label thoroughly BEFORE applying this product.

Do not use in indoor metered spray systems.

Do not use in automatic misting systems.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not enter or allow other people (or pets) to enter the treated area until fog has dissipated and is no longer visible.

For use outdoors in residential yards, patios, and around swimming pools.

Outdoor sites (backyards, patios, and ornamentals): Maximum application rate is 0.25 lb per acre.

OUTDOORS

Thermal Applications: This product can only be used the Skeet-Daddle™ Fogging Machine, which is sold separately. Skeet-Daddle fogging Insecticide is to be used undiluted.

Do not apply directly to or near water, storm drains, or drainage ditches. Do not apply when windy. To prevent run-off, do not over water the treated area(s) or apply when heavy rain is expected.

For reduction in annoyance from **Mosquitoes, Houseflies, Gnats, Fruit Flies, Wasps, Hornets and Yellow Jackets** in residential/homeowners' yards and on patios, as well as around swimming pools. Hold thermal applicator at least five (5) feet from any object, especially plants and shrubbery. Avoid wetting any plant foliage. Apply undiluted at the rate of 3 gallons per acre. Fog only when there is no breeze, or when the wind velocity is less than 3 miles per hour. If windy, use with wind directed towards the applicator's back. The ideal time is generally at dusk when the wind dies down and the air and ground temperatures are approximately the same. Under these conditions the fog will linger in the treated area for a longer time. Apply fog while moving away from the treated area. Avoid inhalation of the fog. Do not enter the treated area until the fog has dissipated. Repeat application if the insects return.

Do NOT leave the fogging machine unattended with the engine running.

The maximum treatment allowed per year is 42 gallons/acre of the undiluted product.

STORAGE & DISPOSAL

Storage: Store product in original container in locked storage area at room temperature above 32°F. Unscrew the canister from fogger machine if it will not be used for an extended period of time and snap the CRP cap back onto the cannister.

Container Disposal: If empty, do NOT reuse this container. Place in trash or offer for recycling if available. If partly filled, call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
