NOTICE OF PESTICIDE:

x Registration

____ Reregistration

Name of Pesticide Product:

Root Trim

Name and Address of Registrant (include ZIP Code):

Cantox U.S., Inc.

1011Route 22 West, Suite 200

Bridgewater, NJ 08807

(under FIFRA, as amended)

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency.

In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a posticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(B) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for registration of your product under FIFRA Section 4.
- 2. Make the following label change before you release the product for shipment; Revise the EPA Registration Number to read, "EPA Reg. No. 81293-2."
- 3. Submit a storage and stability study (830.6317) and corrosion characteristics study (830.6320) by August 30, 2006.

If these conditions enumerated above are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release of the product for shipment constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENTS

Hazards to humans and animals.

Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID

If on skin:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Root Trim inhibits the growth of roots. Copper, the active ingredient in Root Trim, prevents or slows down cell division in the root tips when they come into contact with the treated interior wall of tree seedling containers. Root Trim prevents root spiraling of container grown root stock and aids in the development of a more natural root system.

- 1. Once a batch of coating has been mixed and approved for use, the cavities of the block (i.e., tray seedling container) are coated.
- 2. Excess coating is wiped from edges of the block (i.e., tray seedling container).
- 3. The coated block is then dried to ensure the coating is securely attached to the cavities.
- 4. Once finished the drying stage the block is then packaged and ready to be shipped.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store Root Trim in original containers in a secure, dry and well ventilated facility. Do not contaminate water, food or feed by storage or disposal.

Treated tree seedling containers must be stored away from exposure to rain and snow. Store containers under sheltered conditions such as in a warehouse or waterproof covering.

4/4

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Disposal of Container: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of container in a sanitary landfill, or by other procedures approved by state and local authorities.
