OCT 24 2006

Term of Issuance:
Conditional

Name of Pesticide Product:
Traveler's Supply Inc. Permethrin
Clothing & Gear Insect Repellent

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration

(Under FIFRA as amended)

Name and Address of Registrant (include ZIP Code):

Traveler's Supply Inc.
2024R Westover Road
Chicopee, MA 01022

Note: Changes in labeling differing in substance from that permitted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label. In accordance with any correspondence on this product, always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) subject to the following provisions:

1. You will submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. You will make the following label changes before you release the product for shipment:
 - a) Revise the EPA Registration Number to read "EPA Reg. No. 81402-1."
 - b) The supported application rate for this product is 6 oz. for 3 articles of clothing (1 complete outfit); 12 oz. for 2 outfits. Therefore, revise the bullets on the front panel and treatment instructions accordingly: 6 oz will treat one outfit, 12 oz for 2 outfits, 3 oz will treat a single article of clothing (1 shirt, 1 trousers or 1 bed net).
 - c) Under initial treatment instructions for nets, tents, sleeping bags, etc, indicate which size container should be used for treatment.
 - d) Directly under the heading Precautionary Statements add: "Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Do not use on humans."

- e) Add the heading First Aid and the following statements under the heading: If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice."
- f) Immediately below the First Aid statement and clearly distinguished from it, add "Have the product container or label with you when calling a poison control center or doctor or going for treatment."

Refer to PR Notice 2001-1 (http://www.epa.gov/opppmsd1/PR_Notices/pr2001-1.pdf) for details concerning the First Aid statements.

- g) Revise the Environmental Hazards statements to read: "This pesticide is toxic to fish and other aquatic organisms. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate."
- h) Under General Clothing Instructions:
- Revise the 2nd sentence to read "This product must not be applied..."
 - Revise the statement "Do not treat inner clothing (underwear)" to read "Do not treat underwear, hats, caps, or inner clothing..."
 - Revise the statement "For further protection use in conjunction..." to read "For further protection use in conjunction with an insect repellent registered for direct application to skin and applied to uncovered exposed areas and utilize the following..."
- i) Under the instructions for nets, tents, sleeping bags, delete "Turn the article over and treat the other side as described above." This statement conflicts with the statement to treat exterior surfaces only.
- j) Add a referral statement to the front panel, i.e., "See back/side panels for additional precautions."
3. Please note that a notice of availability of EPA's reregistration eligibility document (RED) for products containing permethrin was published in the FR on June 28, 2006 (Vol 71 no. 124 pg. 36788). Additional data and/or labeling changes may be required for products containing permethrin.

4. Please submit three (3) copies of your final printed labeling before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Product Chemistry data requirements for the 830 Series Subgroup A and Subgroup B guidelines are satisfied.

The Confidential Statement of Formula (CSF) for the basic formulation dated 07-MAY-2006 is acceptable. A copy of the CSF has been placed in the file for the subject product.

If you have any questions regarding this action, please contact Olga Odiott of my team at (703)308-9369.

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS

This product is highly toxic to fish. Do not apply to water.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL CLOTHING INSTRUCTIONS

Shake well before using.

This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not treat inner clothing (underwear). Make all applications outdoors.

For protection against ticks (including those which may carry Lyme disease), chiggers and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin and utilize the following primary preventive measures. Avoid walking in areas where the pests are found, wear appropriate protective clothing (light-colored, long sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

INITIAL TREATMENT INSTRUCTIONS:

Affix trigger pump or the pump sprayer to container for application.

A test application should be made to fabric in an inconspicuous place [area] before use.

1. Select a well-ventilated outdoor area protected from wind and lay out [hang] the clothing to be treated (a complete outfit is shirt, pants [trousers] and socks).
2. Hold container about 6-8 inches from surface of the clothing and spray to lightly moisten the entire surface of the fabric.
3. Continue spraying over entire outfit, until the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant [trouser] cuffs and shirt cuffs.
4. Turn the clothing over and treat the other side as described in Steps 2 & 3.
5. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing.
6. Three ounces will treat one complete [an average] outfit.

OR

(for 6 ounce containers) (directions may be modified for larger containers as long as treatment rate remains the same.)

Pour entire contents of bottle into the treatment bag provided. Fill bottle twice with water and pour into bag. Place rolled up garments (shirt, trousers and/or bed net) into the bag and seal the closure. Shake bag to provide uniform coverage. Let stand 2 hours or more. Wearing water-proof gloves, open bag and remove garments. Hang outdoors until dry (approximately 2-3 hours). When dry, garment is ready to wear. Follow standard laundering procedures. Clothing should be retreated after six weeks or after the 6th laundering to maintain adequate protection.

INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only.

Select a well-ventilated outdoor area protected from wind and lay out [or hang] article to be treated. Hold container upright about 6-8 inches from surface of the article and spray to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surface of the article is moist enough to cause a light color change or darkening. Turn the article over and treat the other side as described above. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using.

RETREATMENT INSTRUCTIONS:

This product contains an active ingredient which actually binds to the fabric being treated, providing residual protection which lasts for six weeks, and holds up through several machine washings. DO NOT RETREAT CLOTHING (OR ARTICLES) MORE THAN ONCE EVERY TWO WEEKS. LAUNDRER CLOTHING AT LEAST ONCE BEFORE RETREATING. For re-treatment, follow instructions for initial treatment.

STORAGE & DISPOSAL

Storage: Store in a cool dry area away from children and pets.

Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Buyer assumes all responsibilities for safety and use, not in strict accordance with directions.
