Subject: Label Amendment - Registration Review Mitigation for Permethrin
Product Name: Traveler's Supply Inc. Permethrin Clothing & Gear Insect
Repellent
EPA Registration Number: 81402-1
Case Number: 00678057
Application Dates: 1/26/2021

Dear Sharon Johnston:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Permethrin Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. You must

submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Christian Bongard by phone at 202-566-2248, or via email at Bongard.Christian@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Jaclyn Pyne". The signature is written in a cursive style and is centered within a light gray rectangular box.

Jaclyn Pyne, Team Leader
Risk Management and Implementation Branch 3

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency treatment information.

PRECAUTIONARY STATEMENTS

{ Note To Reviewer: This product is in category IV for all routes of exposure and the following Hazards To Humans & Domestic Animals section may be omitted from the final container label}

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Caution: Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Do not use on humans.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Precautions and Use Restrictions:

Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to clothing, do not allow adults or pets to enter until sprays have dried.

Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to clothing, do not apply this product in a way that will contact adults or pests, either directly or through drift.

Do not make applications during rain.

GENERAL CLOTHING INSTRUCTIONS

Shake well before using.

This product must not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not treat underwear, hats, caps or inner clothing. Make all applications outdoors.

For protection against ticks (including those which may carry Lyme disease), chiggers and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to skin and applied to uncovered exposed areas and utilize the following primary preventive measures. Avoid walking in areas where the pests are found, wear appropriate protective clothing (light-colored, long sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

INITIAL SPRAYING TREATMENT INSTRUCTIONS:

[Affix trigger pump or the pump sprayer to container for application.]

A test application should be made to fabric in an inconspicuous place [area] before use.

1. Select a well-ventilated outdoor area protected from wind and lay out [hang] the clothing to be treated (a complete outfit is shirt, pants [trousers] and socks).
2. [Affix trigger sprayer or turn nozzle to unlock for application.] Hold container about 6-8 inches from surface of the clothing and spray to lightly moisten the entire surface of the fabric.
3. Continue spraying over entire outfit, until the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant [trouser] cuffs and shirt cuffs.
4. Turn the clothing over and treat the other side as described in Steps 2 & 3.
5. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing.
6. Six ounces will treat one complete [an average] outfit.

{for 6 ounce containers} (directions may be modified for larger containers as long as treatment rate remains the same.)

INITIAL SOAKING INSTRUCTIONS:

Pour entire contents of bottle into the treatment bag provided. Fill bottle twice with water and pour into bag. Seal bag and shake thoroughly. Roll garments (shirt, trousers and/or bed net) tightly. Place rolled up garments (shirt, trousers and/or bed net) into the bag and seal the closure. Shake bag to provide uniform coverage. Let stand 2 hours or more. Wearing water-proof gloves, open bag and remove garments. Hang outdoors until dry (approximately 2-3 hours). When dry, garment is ready to wear. Follow standard laundering procedures. Clothing should be retreated after six weeks or after the 6th laundering to maintain adequate protection.

INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only.

Select a well-ventilated outdoor area protected from wind and lay out [or hang] article to be treated. Hold container upright about 6-8 inches from surface of the article and spray to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surface of the article is moist enough to cause a light color change or darkening. Turn the article over and treat the other side as described above. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using.

RETREATMENT INSTRUCTIONS:

This product contains an active ingredient which actually binds to the fabric being treated, providing residual protection which lasts for six weeks, and holds up through several machine washings. DO NOT RETREAT CLOTHING (OR ARTICLES) MORE THAN ONCE EVERY TWO WEEKS. LAUNDRER CLOTHING AT LEAST ONCE BEFORE RETREATING. For re-treatment, follow instructions for initial treatment.

STORAGE & DISPOSAL

Do not contaminate water or food by storage or disposal.

Pesticide Storage: Store in a cool dry area away from children and pets.

Pesticide Disposal: Do not pour or dispose down-the-drain or sewer. Call your local solid waste Agency for local disposal options.

Container Handling: If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

To the extent consistent with applicable law, buyer assumes all responsibilities for safety and use, not in strict accordance with
