U.S. ENVIRONMENTAL PROTECTION
AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510-P)
1200 Pennsylvania Avenue N.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

A Reg. Number:

81974-1

Date of

Issuance:

June 27, 2011

Term of Issuance:

Conditional

Name of Pesticide Product: Gasco
Sanitizing Solution

Name and Address of Registrant (include ZIP Code):

Gasco Industrial Corporation
P.O. Box 1360
Gurabo, P.R. 00778

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 442607) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 81974-R to EPA Registration Number 81974-1.
3. Add INDUSTRIAL USE under the brand name. Residential use requires your product to be packaged, sold and distributed in packaging 5 gallons or greater since you did not submit acceptable Child Resistant Packaging certification in support of the smaller sizes.
4. Change Active Ingredients to Active Ingredient and Inert Ingredients to Other Ingredients.
5. Move the PRECAUTIONARY STATEMENTS section under the First Aid statements and revise the following precautionary statement to read: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
6. Put the First Aid treatments in the following order: Eyes, Skin, Inhaled, Swallowed.
7. Add the following heading and precautions "ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA." Any product less than 5 gallons may use only the first sentence rather than the entire statement.

Wanda Y. Henson
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510-P)

Date:

June 27, 2011

8. Within the Pesticide Disposal instructions delete "at the nearest EPA Regional Office" as marked.
9. Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency. If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

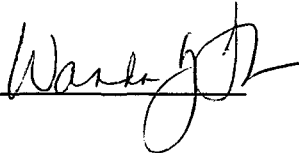

Submit one copy of the finished final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the conditionally approved label is enclosed for your records.

Wanda Y. Henson
Acting Product Manager 32

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Note: This product degrades with time. Use a chlorine test and increase dosage as needed to obtain the required level of available chlorine.

MECHANICAL WASHERS

Wash-Dump or Sanitizing Rinse Section Types - After cleaning and rinsing equipment and containers, apply a sanitizing spray rinse containing 100 ppm of available chlorine by adjusting the machine feeding mechanism to meter 1.0 oz. of this product per 10 gallons of water. Test sanitizing solution regularly during operation with a chlorine test strip to ensure that the solution is not below 50 ppm available chlorine. Remove the sanitized items. Sanitizer used in automatic systems may be used in the general cleaning process but must NOT be reused for sanitizing purposes.

If the available chlorine has dropped below 50 ppm or no testing is available, either discard the sanitizing solution or add sufficient product to establish 200 ppm available chlorine sanitizer strength. Resanitize all equipment. Do not rinse equipment after sanitizing nor soak equipment overnight in sanitizing solution.

CHEMICAL SANITIZING

Manual Warewashing in Institutions and Food Serving Establishments

1. Scrape and pre-wash utensils and glasses whenever possible.
2. Wash with recommended Gasco detergent.
3. Rinse with potable water.
4. Make a solution of 2 oz. of this product and 10 gallons of potable water (200 ppm available chlorine). Immerse all utensils for at least 2 minutes.
5. Place sanitized utensils on rack to air dry. Do not rinse.

FRUIT AND VEGETABLE WASHING

Thoroughly clean all fruits and vegetables in a wash tank. Make a solution of 5 oz. of this product and 200 gallons of potable water (25 ppm available chlorine). Submerge fruits and vegetables in the sanitizing solution for 2 minutes. Spray rinse vegetables in sanitizing solution prior to packaging. Rinse fruit with potable water only prior to packaging.

SANITIZING SOLUTION

INDUSTRIAL USE

ACTIVE INGREDIENTS	
Sodium Hypochlorite.....	12.5%
INERT INGREDIENTS.....	87.5%
Total.....	100.0%

OTHER

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Wear chemical splash-proof goggles or face shield, rubber gloves and protective clothing when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of potable water for 15-20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water, if able to swallow. Do not induce vomiting unless being told to do so by a Poison Control center or doctor. DO NOT give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PELIGRO

Si no puede leer inglés, pregunte a su supervisor sobre las instrucciones de uso apropiadas antes de trabajar con este producto.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with other chemicals or organic matter will release irritating chlorine gases which are harmful to eyes, lungs and mucous membranes.

NOTE: This product degrades with time. Use a chlorine test strip and increase dosage, as necessary to obtain the required level of available chlorine.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE: Store this product in a cool, dry area away from sunlight and heat to avoid degradation.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control agency, or the Hazardous Waste representative at the nearest EPA Regional Office at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse the empty container, then offer for recycling or puncture and dispose of as allowed by state and local authorities.

Net Contents: 1 US Gallon (128 fl. oz.)
