U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg.

Number:

82012-7

Date of

Issuance:

SEP -7 2010

Term of Issuance:

Unconditional

Name of Pesticide Product:

HVAC Antimicrobial
Copper Alloy Surface
Materials

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Cooper Development Association
260 Madison Ave.
New York, New York 10016

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:

1. Submit and/or cite all the data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit required by registration review under FIFRA Section 3(g).
2. Make the following labeling changes:
 - a. Revise the EPA Registration Number to read, EPA Reg. No. 82012-7.
 - b. Place the appropriate EPA Establishment Number on the product labeling.

Signature of Approving Official:

Marshall Swindell, Product Manager, Team 33
Regulatory Management Branch I, Antimicrobials Division

Date:

SEP -7 2010

EPA Reg. No. 82012-7

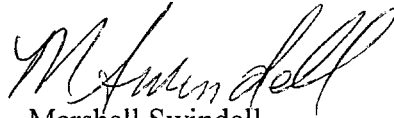

3. Submit three copies of the final printed label prior to releasing this product for sale.

The Confidential Statement of Formula dated December 15th, 2009, is acceptable.

A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

Marshall Swindell
Product Manager 33
Regulatory Management Branch I
Antimicrobial Division(7509C)

[DRAFT Proposed Master Label – December 15, 2009]

HVAC ANTIMICROBIAL COPPER ALLOY SURFACE MATERIALS

HVAC Antimicrobial Copper Alloy Surface Materials suppress the growth of bacteria, mold and mildew that may cause odors or compromise the efficient function of heating, ventilation, and air conditioning (HVAC) system components (see attached list). These materials are intended to impart antimicrobial activity to protect the treated article only.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Products manufactured with HVAC Antimicrobial Copper Alloy Surface Materials may not make claims of antimicrobial activity other than protection of the article itself against the growth of bacteria, mold, and mildew that may cause odors or compromise the efficiency of the equipment. No public health claims may be made for this product or the equipment into which it is incorporated.

HVAC Antimicrobial Copper Alloy Surface Materials should be cleaned to remove dust and other accumulated matter at a frequency and in a manner consistent with good maintenance practices, as recommended by the equipment manufacturer. Cleaning the equipment to remove dust or other matter that may accumulate is necessary both to maintain the efficient performance of the equipment and the performance of the antimicrobial copper alloy surface material. Cleaning agents recommended by the equipment manufacturer should be used. [Normal tarnishing or wear of the Copper Alloy surfaces will not impair the antimicrobial effect of the product.]

This product must not be waxed, painted, lacquered, varnished, or otherwise coated.

HVAC Antimicrobial Copper Alloy Surface Materials are intended for use in HVAC and other air handling systems, including but not limited to those utilized in residential and non-residential buildings, vehicles (such as automobiles, airplanes, trains, trucks, and buses), and schools and other community or public facilities. HVAC Antimicrobial Copper Alloy Surface Materials may be incorporated into the HVAC and Other components listed below.
