SUBJECT: Application for Pesticide Notification (PRN 98-10)
Request General Label Changes, Marketing Claims and Other Minor Label
Changes
EPA Reg. No. 82052-4
Application January 8, 2009

Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 01/08/09 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Subject: Notification of Minor Label Changes
GreenMatch Burndown Herbicide
EPA Registration No. 82052 - 4

Dear Mr. Tompkins:

Attached is EPA form 8570-1 for a Notification to add distributor information including company logo, company name and contact information under optional marketing claims on Page 1. One copy of the label with the changes highlighted is included. Also included are five (5) copies of labeling.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions, please don't hesitate to contact me.

Sincerely,

Olav Messerschmidt
OMC Ag Consulting

Handwritten notes and markings on the right side of the page, including several sets of small circles and lines.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing.

FIRST AID	
If on Skin or Clothing:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
If in Eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes. Then continue rinsing eye.• Call a poison control center or doctor for treatment advice
Have the product container or label with you when calling a poison control center or doctor or going for treatment.	

Personal Protective Equipment (PPE): Applicators and other handlers must wear:

- Long sleeved shirt and pants
- Shoes plus socks
- Protective eyewear
- Chemical resistant gloves such as nitrile rubber, polyvinyl chloride (PVC) and viton.

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

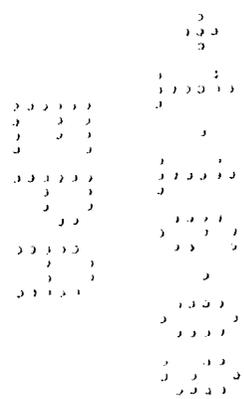

User Safety Recommendations
User should: <ul style="list-style-type: none">• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.• Remove clothing immediately if product gets inside. Then wash thoroughly and put on clean clothing.

PHYSICAL AND CHEMICAL HAZARDS

Combustible: Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Agricultural use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.

PPE required for early entry to treated areas (that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water), is:

- Long sleeved shirt and pants
- Shoes plus socks
- Protective eyewear
- Chemical resistant gloves such as nitrile rubber, polyvinyl chloride (PVC) and viton.

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

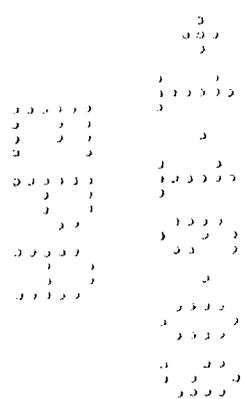

Keep children and pets out of the treated area until sprays have dried.

General information: GreenMatch is a broad spectrum weed killer that contains a citrus extract. It is non-selective and controls most annual and perennial weeds, both grasses and broadleaves. **For best performance, complete coverage of target weeds is necessary.** The product does not translocate. It will affect only those portions of plants that are coated with the spray solution. **Spray until thoroughly wet.**

Environmental Conditions: GreenMatch is effective over a wide range of environmental conditions. Cool weather may slow the activity of GreenMatch. For best results, spray when ambient high temperatures are expected above 50°F and lows above freezing. On cooler days, spray during the warm part of the day.

Allow heavy dew to evaporate prior to GreenMatch applications. Do not apply if windy conditions exist or rain is expected within 2 hours.

Spray drift management: Do not allow the herbicide solution to contact desirable vegetation as small amounts can cause severe damage to crops and other desirable plants.

Deleted: j
Deleted: Dec, 2008

Mixing of GreenMatch: Fill the spray tank ½ full with clean water. Add GreenMatch while agitating. Then fill remainder with water.

Tank Mixing of GreenMatch: Fill the spray tank ½ full with clean water. Add any dry formulations and then liquid formulations to the tank. Add GreenMatch while agitating. Then fill remainder with water.

Tank Mix Combinations: When GreenMatch is used in combination with any other products, refer to the respective product labels for rates and methods of application, proper timing, restrictions and precautions.

Compatibility testing: If the compatibility with another product is not known, a jar test or physical compatibility study should be conducted before tank mixtures are made.

Application Instructions and Rates

Mix this product in clean water and apply to the foliage of vegetation to be controlled. Spray until weeds are thoroughly wet. A minimum spray volume of 60 gallons per acre is recommended. Because the underside of the weed leaf may be more susceptible, side sprays are recommended.

Do not apply this product through any type of irrigation system or by aerial application.

Broadcast Applications

Apply GreenMatch at a ratio of 1 part GreenMatch into 6 parts of water (see Table 1).

Table 1 - Broadcast Application: Mixing Rates for 1:6 Dilution	
Final Spray Volume	Amount of GreenMatch 1:6 ratio (14% dilution rate)*
1 Gal	20 fl. oz.
60	8½ gal
100 Gal	14 gal
<i>*Percent GreenMatch Burndown Herbicide in water. (Equivalent to 8% d-limonene active ingredient in water.)</i>	

A minimum spray volume of 60 gallons per acre is recommended. Spray until thoroughly wet. Do not exceed 8½ gallons of GreenMatch per acre per application.

Spot Applications (Spot Treatments)

In cool situations or for tough to kill weeds, a more concentrated spray may be needed. In such situations, spot treatments with a 20% dilution rate of GreenMatch, a ratio of 1 part GreenMatch into 4 parts of water may be used in spot treatments up to one (1) week before harvest (see Table 2). Do not exceed 8½ gallons of GreenMatch per acre per application.
