**Re: Label Notification per PR Notice 2007-4
Update of Storage and Disposal container language**
Company: Flochem Ltd.
Product: Sani-Cleen
EPA Reg. No.: 82138-1

Dear Marshall:

On behalf of Flochem, I am submitting a label notification per PR Notice 2007-4 to update container language in the Storage and Disposal section of the label for the product, Sani-Cleen, EPA Reg. No. 82138-1. This product is a sanitizer. As the direction to pour rinsate into application equipment is not applicable to this product, we have used wording EPA Antimicrobials Division has approved for another product with a similar profile, TX-8848, EPA Reg. No. 1677-159 and have enclosed that stamped label. The changes to the label are highlighted and no other changes have been made to the label.

Enclosures

- EPA form 8570-1
- 1 copy of the label with revisions highlighted
- EPA Stamped Label for TX-8848

If you have any questions regarding this submission, please contact me at 301-680-7971 or jjones@delta-ac.com.

Sincerely,

Jeff Jones, Agent
Flochem Ltd.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Do not breathe vapors or spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles and/or face shield and rubber gloves when handling. Do not enter an enclosed area without proper respiratory protection. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Corrosive. Mix only with water. Product must be diluted in accordance with label directions prior to use. Sani-Cleen is not combustible; however, at temperatures exceeding 156°C, decomposition occurs releasing oxygen. The oxygen released could initiate combustion.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to birds, fish, and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the US Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

General: When diluting Sani-Cleen, add the appropriate volume of Sani-Cleen to the required volume of clean water and mix thoroughly. Refer to "Precautions" section on this label for appropriate personal protective equipment to be used when handling or applying Sani-Cleen. Sani-Cleen should only be mixed as required

Application Rate and Method

1. Remove all food products from the surface to be sanitized.
2. Pre-clean all surfaces with detergent solution and rinse with potable water to remove gross food particles.
3. Prepare sanitizing solution by diluting Sani-Cleen at the rate of 0.6 oz. per gallon (5 oz./5 gal.) of Sani-Cleen per volume of water. Apply the diluted solution using a knapsack sprayer or any conventional spray equipment, or by mop or brush to all surfaces to the point of run-off. Minimum contact time is 60 seconds.
4. Drain thoroughly and let air-dry.

Directions for use (continued)

Sani-Cleen is a peroxide based sanitizer for use in food processing and handling establishments. Sani-Cleen is odorless and non-staining in use. Sani-Cleen may be used on a wide range of hard non-porous surfaces such as floors, walls, plastic, stainless steel, enameled surfaces, glass, tile, and glazed porcelain that are not harmed by water.

Note: This product in its use dilutions is compatible with most surface types, however, it is recommended that you apply the product to a small test area to determine compatibility before proceeding with its use.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Never return Sani-Cleen to the original container after it has been removed. Avoid all contaminants, especially dirt, caustic reducing agents and metals. Contamination and impurities will reduce shelf life and can induce decomposition. In case of decomposition, isolate container, douse container with cool water and dilute Sani-Cleen with large volumes of water. Avoid damage to containers. Keep container closed at all times when not in use. Keep container out of direct sunlight. To maintain product quality, store at temperatures below 86°F. Do not store on wooden pallets.

Procedures for Leak or Spill: Stop leak if this can be done without risk. Shut off ignition sources; no flames, smoking, flares or spark-producing tools. Keep combustible and organic materials away. Flush spilled material with large quantities of water. Undiluted material should not enter confined spaces.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest US EPA Regional Office for guidance. If material has been spilled, an acceptable method of disposal is to dilute with at least 20 volumes of water followed by discharge in suitable treatment system in accordance with all local, state, and Federal environmental laws, rules, regulations, standards, and other requirements. Because acceptable methods of disposal may vary by location, regulatory agencies should be contacted prior to disposal. Sani-Cleen, which is to be discarded, should be disposed of as hazardous waste after contacting the appropriate local, state, or Federal agency to determine proper procedures.

Container Disposal: [≤ 55 gallons rigid] Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling, if available, or reconditioning, or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

[Product must bear a batch code on label or container]
