Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Primary Brand Name Change and Minor Labeling Revisions per 98-10  
Product Name: PURGO N  
Admin Number: 82859-2  
EPA Receipt Date: 07/31/2024  
Action Case Number: 00624183

Dear Brian Hogan:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

The primary brand name of this product has been changed from PELS 422 to Purgo N, and our records have been updated accordingly.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Terria Northern via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

Sincerely,

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use [this product] to clean, deodorize, sanitize, and disinfect hard, non-porous surfaces in one step. Approved Use Sites are listed [below] [above] [under label]. For heavily soiled surfaces, pre-clean by spraying soiled area and wiping clean. Apply solution to visibly clean, hard, non-porous surfaces by spraying 6-8 inches from the surface. Reapply as necessary to ensure that surface remains wet for required contact time. Allow to air dry.

### STORAGE AND DISPOSAL

Do not contaminate food or feed by storage or disposal

**STORAGE:** Store away from children. Reclose cap tightly after use. Store this product upright in a cool dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

OR

To avoid waste, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

**CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill container.

Clean container promptly after emptying. Offer for recycling if available or reconditioning if appropriate or place in trash.
