ORNAMENTAL APPLICATIONS	
<p>LADA 2.5G Ornamental Insecticide is for use on ornamental shrubs and small trees in outdoor landscapes and interior plantscapes. LADA 2.5G Ornamental is a systemic product and will be taken up by the roots and translocated upward within the plant system. Therefore watering after application makes the product more available for uptake.</p> <p>Systemic activity using this soil application treatment method can be delayed until the active ingredient is translocated throughout the plant. For this reason, applications work best when made prior to pest infestation or before pest populations become severe.</p>	
PESTS CONTROLLED	
<p>Aldegids Aphids Black vine weevil (larvae in soil) Japanese beetle (adults) Lace bugs</p>	<p>Leaf beetles (including Elm leaf and Viburnum leaf beetles) Leafhoppers Psyllids Whiteflies</p>

HOW TO APPLY	<ul style="list-style-type: none"> • Spread appropriate rate evenly around the base of plant under foliage.
WHEN TO APPLY	<ul style="list-style-type: none"> • When pests are seen or found. • Re-apply as needed based on pest re-infestation or at 4 – 8 week intervals.
