	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) Ariel Rios Building 1200 Pennsylvania Ave., NW Washington, D.C. 20460	EPA Reg. Number: 83103-4	Date of Issuance: MAR 6 2008
		Term of Issuance: Conditional	
		Name of Pesticide Product: HDH SOPP 435	
Name and Address of Registrant (include ZIP Code): Attention: Helen Sanders HDH Agri Products, LLC 27536 CR 561 Tavares, FL 32778			
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.			
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA Section 4. 2. Before releasing the product for shipment, revise your label's EPA Registration Number to read "EPA Reg. No. 83103-4," and submit, to the Agency, a revised final printed label, observing all corrections contained herein. 3. Registrant must submit, to the Agency, a GLP one-year storage stability study (830.6317) and corrosion characteristics study (830.6320) on or by April 1, 2009. 			
Signature of Approving Official:  Tony Kish Product Manager, Team 22 Fungicide Branch Registration Division (7505P)		Date: MAR 6 2008	

- 3a. The label's 'First Aid' table must be rearranged, swapping the location of "If in eyes" for "If on skin or clothing".
- 3b. To the section, listing bulleted notes, beneath the heading 'Product Use', add:
"Do not allow this alkaline liquid to come in contact with an acid, because volatile splattering and heat can result."
- 3c. In the section beneath 'Product Use', to the final note, replace 'good' with 'frequent' or an equivalent term.
- 3d. Delete "citrus canker" from the list of applicable citrus pests, on page 3.
- 3e. Following 'Citrus', on pages 3 and 4, indent 'Wax, Tank, and Foam application instructions', as observed as such for 'Pears', to minimize product guidance ambiguities.
- 3f. Under 'Citrus', the final sentence for 'Wax Application' guidance, must be revised to read as follows or a variation thereof: "1.4 gallons of HDH SOPP 435 is equal to 1% SOPP Tetrahydrate in 55 gallons of wax." Similarly, on page 4, change the final sentence in the section 'Foam Application' to read: "Use 5.1 gallons of HDH SOPP 435 per 100 gallons of prepared cleaning solution for 2% SOPP Tetrahydrate." Similarly, change 'Mix Well', to read 'Mix thoroughly' or an equivalent term as such.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release of the shipment of your product constitutes acceptance of these conditions.

A copy of the label stamped "Accepted with Comments" is enclosed for your records.

Enclosures

HDH SOPP 435

Postharvest Fungicide

ACTIVE INGREDIENT:

Sodium o-phenylphenate*	25.0 %
OTHER INGREDIENTS:	75.0 %
TOTAL	100.0 %

* Equivalent to 33.8 % Sodium o-Phenylphenate tetrahydrate.

KEEP OUT OF REACH OF CHILDREN
DANGER

First Aid	
If in eyes:	<ol style="list-style-type: none"> 1. Hold eye open and rinse gently with water for 15-20 minutes 2. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. 3. Call a poison control center or doctor for treatment advice.
If on skin or clothing:	<ol style="list-style-type: none"> 1. Take off contaminated clothing. 2. Rinse skin immediately with plenty of water for 15-20 minutes. 3. Call a poison control center or doctor for treatment advice.
If inhaled:	<ol style="list-style-type: none"> 1. Move person to fresh air. 2. If person is not breathing, Call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. 3. Call a poison control center or doctor for further treatment advice.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
KEEP OUT OF REACH OF CHILDREN
DANGER

Corrosive. Causes irreversible eye damage. Causes skin irritation. Harmful if inhaled. Do not get in eyes or on clothing. Wear protective eyewear such as goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified in a National Pollutant Discharge Elimination System (NPDES) permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Personal Protective Equipment (PPE)

Handlers must wear: Long-sleeves shirt and long pants; Socks and shoes; Protective eyewear such as goggles and face shield; Chemical-resistant gloves such as rubber, plastic or neoprene.

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE, if no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

User must wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users must remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Keep from freezing. If frozen, mix well upon thawing. Do not store on side. Avoid creasing or impacting of container sidewall. Do not store in the presence of acids. Avoid contact with skin at all times. Do not use this product without adequate ventilation.

Product Disposal: Pesticide wastes are acutely hazardous. Improper disposal is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers may be disposed of by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRODUCT USE

NOTE:

- The use of a test kit to monitor the concentration of dilute HDH SOPP 435 is strongly recommended. Consult your supplier for a list of currently available suitable test kits.
- Monitor pH, temperatures and treating times and correct immediately when needed.
- Avoid prolonged exposure during shut downs.
- Excessive alkali may cause injury.
- Use only fresh (potable) water for treatment solutions and rinses
- When adding HDH SOPP 435 to wax emulsions, add slowly and with good agitation.

Citrus: (Blue Mold, Green Mold, Stem-end Rots, Sour Rot, and citrus canker).

Wax Application:

To each 55 gallon drum of postharvest wax add 1.4 to 2.8 gallons of HDH SOPP 435. Mix Well. For each 1% SOPP Tetrahydrate, use 1.4 gallons of HDH SOPP 435. Apply to 10,000 lbs. fresh, clean citrus. Do not rinse. Do not combine with a tank or foam application.

Tank application:

To each 1000 gallons of treating tank solution add 12.6 gallons of HDH SOPP 435. Adjust pH to 11.6 – 11.9. Treat for 2 to 4 minutes at 90° to 115° F. Follow by a fresh (potable)

water rinse. Do not combine with a foam or wax application. The use of a surfactant is acceptable.

Foam Application:

To each 100 gallons of prepared cleaning solution add 2.8 to 5.7 gallons of HDH SOPP 435. Adjust ph to 11.6-11.9. Apply by foaming or dripping onto fruit, brush for 20 to 60 seconds. Do not exceed one minute. Follow by fresh (potable) water rinse. Do not combine with a tank or wax application.

For 2% Sodium orthophenylphenate (SOPP) Tetrahydrate equivalent use 5.1 gallons per 100 gallons of prepared cleaning solution.

In Citrus Bin Drenchers (California Only):

When filling the drencher add 1.5 gallons of HDH SOPP 435 to 700 to 1000 gallons of water to give a treating concentration of 350-500 ppm Sodium o-Phenylphenate, anhydrous. During operation of bin drencher, add 1.5 gallons HDH SOPP 435 to each 700-1000 gallons of make up water to maintain concentration.

Pears: (Blue mold and Grey mold rot)

Tank Application:

To each 100 gallons of treating tank solution add 1.3 gallons of HDH SOPP 435. Adjust pH to 11 – 12. Treat for 30 seconds to 4 minutes at 40° to 80° F. Follow by fresh (potable) water rinse. The use of a surfactant is acceptable.

Foam Application:

To each 100 gallons of prepared cleaning solution add 2.8 to 5.7 gallons of HDH SOPP 435. Adjust ph to 11.6-11.9. Apply by foaming or dripping onto fruit, brush for 20 to 60 seconds. Do not exceed one minute. Follow by fresh (potable) water rinse.

APPLY THIS PRODUCT ONLY AS SPECIFIED ON THE LABEL.
