MAR - 2 2011

SUBJECT: SportsAide 1000
EPA Registration Number: 83135-1
Application Date: Jan. 14, 2011
Receipt Date: January 31, 2011

Dear Ms. Szatkowski:

This letter acknowledges receipt of the notification identified above submitted under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIRRA), as amended and PR Notice 98-10 and 2007-4.

Notification to add following information to the Master Label:

- Revise Pesticide Disposal Language

Based on a review of the submitted information this notification is acceptable. This notification will be made part of the record for this file.

Your label identifies a website. Please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency. If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims

substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.

General Comments

Should you have any questions concerning this letter, please contact Tracy Lantz at (703) 308-6415.

Sincerely,

Velma Noble.
Product Manager (31).
Regulatory management Branch I.
Antimicrobials Division (7510P)

KEEP OUT OF REACH OF CHILDREN FIRST AID

Have product container or label with you when calling Poison Control Center or doctor, or going for treatment.

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing.
- Call a Poison Control Center or doctor for treatment advice.

IF INHALED

- Move person to fresh air.
- If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a Poison Control Center or doctor for treatment advice.

IF IN SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water.

IF SWALLOWED

- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

Sold by Coating Specialists, LLC. Made in the USA. 1030 Doris Road, Auburn Hills, Michigan 48326
FabricAide & Coating Specialists, LLC Logos are a Trademark of the Coating Specialists, LLC.

NET CONTENTS: 5 Gallon

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, and clothing. Wear goggles or face shield, and rubber gloves. Remove contaminated clothing and wash before reuse. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

De-activation may be required during clean up if a spill occurs. De-activation of FABRICAIDE, Antimicrobial can be achieved by the addition of an anionic surfactant or detergent in quantity equivalent to that of the active ingredient.

PRODUCT FEATURES AND BENEFITS

- **FABRICAIDE, Antimicrobial imparts durable biostatic activity to the surface of a wide variety of substrates.**
- **FABRICAIDE, Antimicrobial is effective against mold, mildew, and algae as a static agent.**
- **Increased efficiency – through proper application, durable bacteriostatic, fungistatic and algistatic surfaces can be attained with a minimum amount of FABRICAIDE, Antimicrobial.**
- **Provides freshness and combats deterioration and discoloration caused by bacteria, fungi and algae.**

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO
USE THIS PRODUCT IN A MANNER INCONSISTENT
WITH ITS LABELING.

FOR COMMERCIAL / INDUSTRIAL INSTITUTIONAL / RESIDENTIAL USE

APPROVED USES: FABRICAIDE, Antimicrobial is effective against odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent. FABRICAIDE, Antimicrobial can be used as a final bacteriostatic finish on the following items to impact bacteriostatic/fungistatic (mold and mildew) activity:

- Carpet, Draperies, Upholstery, Natural and Synthetic Fabrics.

HOW TO USE:

MSDS INFORMATION: BEFORE HANDLING, READ PRODUCT AND MATERIAL SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE MATERIAL SAFETY DATA SHEET CAN BE OBTAINED BY WRITING TO COATING SPECIALISTS, LLC OR BY CALLING (877) 211-4533.

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

FABRICAIDE, Antimicrobial is to be applied to organic and inorganic surfaces as supplied by dipping, padding, soaking until adequately wet. After applying treatment, the surface must be allowed to dry at temperatures from ambient to a maximum of 180°C (320°F) to effect complete condensation of silanol groups and to remove water, solvents and/or traces of methanol from hydrolysis. If necessary, reapply FABRICAIDE, Antimicrobial every three months or when odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

For Dipping/Soaking Application: Use appropriate sized washbasin or tub for dipping/soaking the item you are treating. Use enough FABRICAIDE, Antimicrobial solution to completely submerge item. Completely submerge item in solution for 3 minutes. Remove item and dry. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperatures or at temperatures to a maximum of 180°C (320°F).

For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply FABRICAIDE, Antimicrobial if odor, staining and discoloration due to bacteria, mold or mildew occur.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with its use. Keep tightly closed until ready to use. Reclose tightly after each use. When stored in original, unopened containers at or below 25°C (77°F), FABRICAIDE-Antimicrobial has a minimum shelf life of 12 months from date of shipment.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of in trash. This container will have product residues when emptied. All hazard precautions on label must be observed when handling emptied container.

NOTICE: Coating Specialists, LLC warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated in the labeling when used in accordance with directions under normal conditions of use, but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to written instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

COATING SPECIALISTS, LLC SPECIFICALLY DISCLAIMS ANY OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING THE WARRANTY OF MERCHANTABILITY.

De-activation may be required during clean up if a spill occurs. De-activation of SURFACEAIDE^{XL} Antimicrobial can be achieved by the addition of an anionic surfactant or detergent in quantity equivalent to that of the active ingredient.

PRODUCT FEATURES AND BENEFITS

- SURFACEAIDE^{XL} Antimicrobial imparts durable biostatic activity to the surface of a wide variety of substrates.
- SURFACEAIDE^{XL} Antimicrobial is effective against mold, mildew, and algae as a static agent.
- Increased efficiency – through proper application, durable bacteriostatic, fungistatic and algistatic surfaces can be attained with a minimum amount of SURFACEAIDE^{XL} Antimicrobial.
- Provides freshness, combats deterioration and discoloration caused by bacteria, fungi and algae.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO
USE THIS PRODUCT IN A MANNER INCONSISTENT
WITH ITS LABELING.

FOR COMMERCIAL / INDUSTRIAL INSTITUTIONAL / RESIDENTIAL USE

APPROVED USES: SURFACEAIDE^{XL} Antimicrobial is effective against odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent. SURFACEAIDE^{XL} Antimicrobial can be used as a final bacteriostatic finish on the following items to impact bacteriostatic/fungistatic (mold and mildew) activity:

- Carpet, Silica Sand, Draperies, Upholstery, Furniture, Natural and Synthetic Fabrics, Book Covers, and Pictures.
- Interior Non-Food Contact Hard Surfaces Including: Floors and Floor Coverings, Walls and Wall Coverings, Ceilings, Ceramic Tile, Concrete, Chrome, Stainless Steel, Fiberglass, Vinyl, Porcelain, Wood, Plastic Surfaces & Composites, Glass Fixtures, Granite, Marble, and Aluminum.

COATING SPECIALISTS, LLC SPECIFICALLY DISCLAIMS ANY OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING THE WARRANTY OF MERCHANTABILITY.

HOW TO USE:

MSDS INFORMATION: BEFORE HANDLING, READ PRODUCT AND MATERIAL SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE MATERIAL SAFETY DATA SHEET CAN BE OBTAINED BY WRITING TO COATING SPECIALISTS, LLC OR BY CALLING (877) 211-4533.

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

SURFACEAIDE^{XL} Antimicrobial is to be applied to organic and inorganic surfaces as supplied by brushing, dipping, padding, soaking, spraying until adequately wet. After applying treatment, the surface must be allowed to dry at temperatures from ambient to a maximum of 160°C (320°F) to effect complete condensation of silanol groups and to remove water, solvents and/or traces of methanol from hydrolysis. If necessary, reapply SURFACEAIDE^{XL} Antimicrobial every three months or when odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

For Pump Safety Spray Application: Using pump sprayer, spray entire area 4-6 inches from the surface making sure the surface is completely covered. Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SURFACEAIDE^{XL} Antimicrobial may be required due to absorption.

For Spray Application: Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SURFACEAIDE^{XL} Antimicrobial may be required due to absorption. Dry carpet areas and surfaces before re-entry and dry articles before use.

For Dipping/Soaking Application: Use appropriate sized washbasin or tub for dipping/soaking the item you are treating. Use enough SURFACEAIDE^{XL} Antimicrobial solution to completely submerge item. Completely submerge item in solution for 3 minutes. Remove item and dry. Test for staining and colorfastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperatures or at temperatures to a maximum of 160°C (320°F).

For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply SURFACEAIDE^{XL} Antimicrobial if odor, staining and discoloration due to bacteria, mold or mildew occur.

If necessary, reapply SURFACEAIDE, 1000 Antimicrobial every three months or when odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

For Pump Safety Spray Application: Using pump sprayer, spray entire area 4-8 inches from the surface making sure the surface is completely covered. Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SURFACEAIDE- 1000 Antimicrobial may be required due to absorption.

For Spray Application: Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SURFACEAIDE- 1000 Antimicrobial may be required due to absorption. Dry carpet areas and surfaces before re-entry and dry articles before use.

For Dipping/Soaking Application: Use appropriate sized washbasin or tub for dipping/soaking the item you are treating. Use enough SURFACEAIDE- 1000 Antimicrobial solution to completely submerge item. Completely submerge item in solution for 3 minutes. Remove item and dry. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperatures or at temperatures to a maximum of 160°C (320°F).

For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply SURFACEAIDE- 1000 Antimicrobial if odor, staining and discoloration due to bacteria, mold or mildew occur.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with its use. Keep tightly closed until ready to use. Reclose tightly after each use. When stored in original, unopened containers at or below 25°C (77°F), SURFACEAIDE- 1000 Antimicrobial has a minimum shelf life of 12 months from date of shipment.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of in trash. This container will have product residues when emptied. All hazard precautions on label must be observed when handling emptied container.

NOTICE: Coating Specialists, LLC warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated in the labeling when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to written instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

A SILANE QUATERNARY AMMONIUM SALT

EPA REG. NO. 83135-1
EPA EST. NO. 85984-MI-001

ACTIVE INGREDIENT	
3 (trihydroxysilyl) propyldimethyl octadecyl ammonium chloride	1.44%
INERT INGREDIENTS	98.56%
Total	100.00%

KEEP OUT OF REACH OF CHILDREN FIRST AID

Have product container or label with you when calling Poison Control Center or doctor, or going for treatment.

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing.
- Call a Poison Control Center or doctor for treatment advice.

IF INHALED

- Move person to fresh air.
- If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a Poison Control Center or doctor for treatment advice.

IF IN SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water.

IF SWALLOWED

- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, and clothing. Wear goggles or face shield, and rubber gloves. Remove contaminated clothing and wash before reuse. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

De-activation may be required during clean up if a spill occurs. De-activation of SPORTSAIDE® 1000 Antimicrobial can be achieved by the addition of an anionic surfactant or detergent in quantity equivalent to that of the active ingredient.

PRODUCT FEATURES AND BENEFITS

- **SPORTSAIDE® 1000 Antimicrobial imparts durable biostatic activity to the surface of a wide variety of substrates.**
- **SPORTSAIDE® 1000 Antimicrobial is effective against mold, mildew, and algae as a static agent.**
- **Increased efficiency – through proper application, durable bacteriostatic, fungistatic and algistatic surfaces can be attained with a minimum amount of SPORTSAIDE® 1000 Antimicrobial.**
- **Provides freshness and combats deterioration and discoloration caused by bacteria, fungi and algae.**

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO
USE THIS PRODUCT IN A MANNER INCONSISTENT
WITH ITS LABELING.

FOR COMMERCIAL / INDUSTRIAL INSTITUTIONAL / RESIDENTIAL USE

APPROVED USES: SPORTSAIDE® 1000 Antimicrobial is effective against odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent. SPORTSAIDE® 1000 Antimicrobial can be used as a final bacteriostatic finish on the following items to impact bacteriostatic/fungistatic (mold and mildew) activity:

- Carpet, Silica Sand, Draperies, Upholstery, Furniture, Natural and Synthetic Fabrics, Book Covers, and Pictures.
- Interior Non-Food Contact Hard Surfaces Including: Floors and Floor Coverings, Walls and Wall Coverings, Ceilings, Ceramic Tile, Concrete, Chrome, Stainless Steel, Fiberglass, Vinyl, Porcelain, Wood, Plastic Surfaces & Composites, Glass Fixtures, Granite, Marble, and Aluminum.

COATING SPECIALISTS, LLC SPECIFICALLY DISCLAIMS ANY OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING THE WARRANTY OF MERCHANTABILITY.

HOW TO USE:

MSDS INFORMATION: BEFORE HANDLING, READ PRODUCT AND MATERIAL SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE MATERIAL SAFETY DATA SHEET CAN BE OBTAINED BY WRITING TO COATING SPECIALISTS, LLC OR BY CALLING (877) 211-4533.

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

SPORTSAIDE® 1000 Antimicrobial is to be applied to organic and inorganic surfaces as supplied by brushing, dipping, padding, soaking, spraying until adequately wet. After applying treatment, the surface must be allowed to dry at temperatures from ambient to a maximum of 160°C (320°F) to effect complete condensation of silanol groups and to remove water, solvents and/or traces of methanol from hydrolysis. If necessary, reapply SPORTSAIDE® 1000 Antimicrobial every three months or when odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

For Pump Safety Spray Application: Using pump sprayer, spray entire area 4-6 inches from the surface making sure the surface is completely covered. Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SPORTSAIDE® 1000 Antimicrobial may be required due to absorption.

For Spray Application: Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabrics and carpets by treating and drying a small, concealed area prior to application. When treating coarser substrates, more SPORTSAIDE® 1000 Antimicrobial may be required due to absorption. Dry carpet areas and surfaces before re-entry and dry articles before use.

For Dipping/Soaking Application: Use appropriate sized washbasin or tub for dipping/soaking the item you are treating. Use enough SPORTSAIDE® 1000 Antimicrobial solution to completely submerge item. Completely submerge item in solution for 3 minutes. Remove item and dry. Test for staining and colorfastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperatures or at temperatures to a maximum of 160°C (320°F).

For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply SPORTSAIDE® 1000 Antimicrobial if odor, staining and discoloration due to bacteria, mold or mildew occur.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.
