ACCEPTED
 MAY 23 2007

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act
 as amended, for the pesticide
 registered under EPA Reg. No.

83189-1

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID	
IF SWALLOWED	-Call a poison control center or doctor immediately for treatment advice. -Have a person sip a glass of water if able to swallow. -Do not induce vomiting unless told to by a poison control center or doctor. -Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING	-Take off contaminated clothing. -Rinse skin immediately with plenty of water for 15-20 minutes. -Call a poison control center or doctor for treatment advice.
IF IN EYES	-Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
IF INHALED	-Move person to fresh air.

	<p>-If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. -Call a poison control center or doctor for further treatment advice.</p>
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.</p>	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment (PPE): Applicators and other handlers must wear:

- Long-sleeved shirt and long pants.
- Chemical-resistant gloves, such as rubber or waterproof gloves.
- Shoes and socks.

Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should:

- Wash thoroughly with soap and water immediately after handling or installing, and before eating, drinking, chewing gum or using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water except as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product by any method not specified on this label.

Read the entire label before replacing the [filter] [cartridge].

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

Exception: If the product is soil injected or soil incorporated as in the case of Techfilter, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Coveralls
- Chemical resistant gloves such as Nitrile, Butyl, Neoprene, or Barrier Laminate
- Shoes plus socks

NON AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standards for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not enter or allow others to enter the treated area until the surface of application area is dry.

Proper Use: Techfilters are treated with Triflurex and the only proper and lawful use of Techfilter is to protect system components of Netafim integral drip irrigation systems.

Purchaser is responsible to explain these instructions to persons installing the Techfilter. Purchaser can contact us for further explanation.

Replacement Instructions

1. Introduction

Netafim's Techfilter serves the purpose of protecting the drip irrigation system components.

2. Triflurex is the EPA registered pesticide used in the Techfilter. The active ingredient is Trifluralin. When water passes through the Techfilter, Trifluralin is released into the drip irrigation system to protect it's components. The operation of this technology provides very precise and even distribution of Trifluralin. **IMPORTANT:** No other uses or claims are made for the use of this product beyond protecting drip irrigation system components.

[insert picture of cover, filter cartridge]

[insert diagram of water flow]

3. Replacing -the Techfilter cartridge

The [filter] [cartridge] must be mounted:

- So the cover can be easily disassembled
- Dirt or particle contaminants will not drop back into the filter body when removing the ring set
- Use the provided protective gloves when handling the Techfilter cartridge

IMPORTANT: Do not install the [filter] [cartridge] in direct sunlight.

4. Effective Use and Replacement Guideline

The Techfilter can effectively protect the drip irrigation components for 200 hours of use, but no longer than 2 years of service. Replaceable Techfilter disc cartridges come in conveniently sealed packages, which have two benefits:

- Extended shelf-life
- Allows replacement of the complete [filter] [cartridge] without having to touch the rings

[insert picture of Techfilter]

5. Limited Lifetime Extended Warranty

Every Netafim Techfilter carries a 2-year to lifetime warranty. Proper use and timely replacement of the cartridge will keep the Lifetime Extended Warranty.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original packaging in a cool, dry place out of direct sunlight. Do not store near heat or open flame.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Do not reuse container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
