**TERM-A-RID 613®
BORATE TREATED WOOD CHIPS**

The purpose of Term-A-Rid 613® Borate Infused Wood Chips is to reduce the population of worker termites (termites without wings), by feeding on the mulch next to a structure. Feeding on the mulch may kill worker termites and this may reduce the termite population in the area covered with the mulch. Use of this product does not substitute for mechanical alteration soil treatment or foundation treatment, but is merely a supplement to a termite monitoring and control program.
