

83362-3

51812009

1/10

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

EPA Reg. Number: 83362-3

ISSUANCE DATE MAY 8 2009

Term of Issuance: Conditional Time-Limited

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511P)
1200 Pennsylvania Avenue NW
Washington, DC 20460

Name of Pesticide Product: FourStar Briquets

NOTICE OF PESTICIDE REGISTRATION

X Registration
Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

B2E Microbials dba FourStar Microbials LLC
3330 Noyac Road, Bldg. D-2
Sag Harbor, NY 11963

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act.

The registration application referred to above, submitted in connection with registration under FIFRA § 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you do the following terms and conditions.

- 1. This registration will automatically expire on midnight March 15, 2010.
2. Submit/cite all data required for registration of your product under FIFRA § 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
3. Submit two (2) copies of the revised final printed labeling before you release the product for shipment. Refer to attached Type Size Requirements for final printed labeling.
4. Submit a revised Confidential Statement of Formula (CSF) which in addition to potency indicates the viability each of the active ingredients of the microbial pesticide in CFU/gram.
5. Change the EPA Reg. No. from "(Pending as File Symbol 83362-G)" to read, "EPA Reg. No.: 83362-3."

EPA will reevaluate this registration before March 15, 2010 to determine whether to convert the registration to a non-expiring registration. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

FourStar Briquets

[Alternate Brand Name: FourStar Microbial Briquets]

Sublabel A:	Commercial Use – small/large briquet
Sublabel B:	Residential Use – small/large briquet
Optional Label Claims	

ACTIVE INGREDIENT:

**Bacillus sphaericus* Serotype H5a5b, strain 2362..... 6.00%
fermentation solids, spores and insecticidal toxins

***Bacillus thuringiensis* subspecies *israelensis*, strain BMP 144 1.00%
fermentation solids, spores and insecticidal toxins

OTHER INGREDIENTS:..... 93.00%

TOTAL:..... 100.00%

Equivalent to *60 Bs ITU/mg and **70 ITU/mg respectively. The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

EPA Reg. No.: (Pending as File Symbol 83362-G)

EPA Establishment No.: XXXXX-XX-XX

Manufactured for:

FourStar Microbials
3330 Noyac Road
Sag Harbor, NY 11963

ACCEPTED
MAY - 8 2009

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for
the pesticide registered under
EPA Reg. No. 83362-3

Sublabel A: Commercial Use – small/large briquet

FourStar Briquets

[Alternate Brand Name: FourStar Microbial Briquets]

ACTIVE INGREDIENT:

**Bacillus sphaericus* Serotype H5a5b, strain 2362..... 6.00%
 fermentation solids, spores and insecticidal toxins

***Bacillus thuringiensis* subspecies *israelensis*, strain BMP 144..... 1.00%
 fermentation solids, spores and insecticidal toxins

OTHER INGREDIENTS:..... 93.00%

TOTAL:..... 100.00%

Equivalent to *60 Bs ITU/mg and ** 70 ITU/mg respectively. The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

FIRST AID	
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible. • Call poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing eyes. • Call poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.</p>	

EPA Reg. No.: (Pending as File Symbol 83362-G)

EPA Establishment No.: XXXXX-XX-XX

Manufactured for:

FourStar Microbials
3330 Noyac Road
Sag Harbor, NY 11963

Net Contents: (15 g = small briquet) (30 g = large briquet) (weight varies with hydration +/- 15%)

Lot No.: XXXXX

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION: Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS: Do not apply to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

DIRECTIONS FOR USE

It is a violation of Federal law to apply this product in a manner inconsistent with its labeling.

APPLICATION DIRECTIONS

FourStar Briquets are a highly selective microbial insecticide effective against mosquitoes in a variety of habitats for up to [90 days (for small briquet)] [180 days (for large briquet)] or more. **FourStar Briquets** release effective levels of *Bacillus sphaericus* and *Bacillus thuringiensis* subspecies *israelensis* to the water surface over time as the briquet dissolves.

APPLICATION SITES

FourStar Briquets can be applied to areas that contain aquatic life, fish and plants as well as areas used by or in contact with humans, animals, horses, livestock, pets, birds or wildlife. Examples of application sites include, but are not limited to: storm drains, catch basins, underground drainage systems, storm water retention areas, retention ponds, abandoned swimming pools, ornamental fountains and ponds, fish ponds, water gardens, animal drinking troughs, standing water, water holding receptacles, man-made and natural sites where mosquitoes may develop.

APPLICATION RATES

For control of mosquito larvae, place one (1) briquet in sites up to 100 square feet of surface area. For large sites, apply 1 additional briquet for each additional 100 square feet of water surface, regardless of water depth. When mosquito populations are high, water is heavily polluted, and/or algae is abundant, double the above application rate.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place.

Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill empty carton or packaging material. Offer for recycling, if available or crush and discard carton in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE TO USER

Seller makes no warranty express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on the label. User assumes all risks of use, storage or handling not in strict accordance with label instructions.

INTRODUCTION

FourStar Briquets are an easy and effective way to kill developing mosquitoes in standing water before they become biting adults. With just one bite, adult mosquitoes may transmit West Nile virus and other viruses that can cause encephalitis in both people and animals. They may also transmit heartworms to dogs and cats. **FourStar Briquets** slowly release bacteria into the water to prevent adult mosquito development for up to [90 days (for small briquet)] [180 days (for large briquet)]. Mosquito larvae exposed to treated water will die before they reach adulthood.

GENERAL DIRECTIONS

FourStar Briquets are a highly selective biological larvicide effective against mosquitoes in a variety of habitats. Apply **FourStar Briquets** to containerized standing water or any private water sites except treated, finished drinking water reservoirs, drinking water receptacles or state waters. **FourStar Briquets** can be applied to areas that contain aquatic life, fish and plants as well as areas used by or in contact with humans, animals, horses, livestock, pets, birds or wildlife.

Examples of application sites include, but are not limited to:

- | | | |
|-----------------------|-------------------------|----------------------|
| Bird baths | Plastic covers | Rain barrels |
| Fountains | Flower pots | Garbage cans |
| Water gardens | Planters | Buckets |
| Fish ponds | Urns | Wheelbarrows |
| Ornamental Ponds | Roof gutters | Standing water |
| Unused swimming pools | Old tires | Flood water |
| Unused spas | Stock tanks | Natural depressions |
| Pool covers | Animal watering troughs | Man-made depressions |

How to Apply:

Simply place **FourStar Briquets** in standing water where mosquitoes may develop. Use one (1) briquet in sites up to 100 square feet (10 ft X 10 ft) of water surface area. For larger sites, apply 1 additional briquet for each additional 100 square feet of surface area, regardless of water depth. Repeat treatments as needed to prevent adult mosquito emergence.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in a cool, dry place.
If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash and offer for recycling if available.
If partially filled: Call your local solid waste agency or (800) 858-7378 (National Pesticide Information Center) for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE TO USER:

Seller makes no warranty express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on the label. User assumes all risks of use, storage or handling not in strict accordance with label instructions.

OPTIONAL LABEL CLAIMS

- Biolarvicide.
- Biological Mosquito Control.
- (A) Biological Larvicide Briquet(s).
- Mosquito Biolarvicide Briquet.
- Made with microbial active ingredients.
- Highly selective microbial larvicide.
- A (highly selective) microbial insecticide effective against mosquitoes in a variety of habitats.
- Easy to use.
- Easy to apply briquets.
- Quick, clean and simple to use.
- Nothing to mix or spray.
- Prevents the development of adult mosquitoes.
- Prevents immature mosquitoes from developing into adults.
- Prevents emergence of biting adult mosquitoes.
- Kills developing mosquito larvae.
- (Use) (Apply) in standing water (where mosquitoes may breed); see label for specific use sites.
- (Use) (Apply) in containerized or private standing water (where mosquitoes may breed); see label for specific use sites.
- Kills mosquito larvae in (stagnant) standing water (before they are able to bite) (where they breed). Apply to standing (stagnant) water in your yard.
- For use in all water-holding receptacles (containers) where mosquitoes may breed including water gardens (and animal (horse) watering troughs); see label for specific use sites.
- Effective year-round when mosquito larvae are present.
- Sustained release biological larvicide for long term control of mosquito larvae.

- Controlled (Sustained) Release (90 day (for small briquet)) (180 day (for large briquet)) Microbial (Biological) Briquets
- Biological Mosquito Larvicide provides (90 day (for small briquet)) (180 day (for large briquet)) control.
- (90 day (for small briquet)) (180 day (for large briquet)) control.
- Effective [controls] for up to (90 days (for small briquet)) (180 days (for large briquet)).
- A Sustained Release (90-Day (for small briquet)) (180-Day (for large briquet)) Mosquito Larvicide Briquet.
- Each briquet treats up to 100 square feet.
- Controls mosquitoes.
- Controls mosquito larvae (in standing water).
- One application controls all season. (for large briquet)
- Season Long Control.
- For use in fish habitats.
- When bacteria release by (product name) are ingested by mosquito larvae, mosquitoes are prevented from developing into biting adults.
- When ingested by mosquito larvae, (product name) prevents mosquitoes from becoming (developing into) breeding, biting adults.
- When ingested by mosquito larvae, (product name) prevents the development of adults.
- When bacteria is ingested by mosquito larvae, (product name) prevents emergence of breeding, biting adults.
- Kills mosquito larvae upon ingestion of bacteria.
- Kills mosquito larvae upon ingestion by destroying the cellular lining of the insect digestive tract.
- (Product name) is a highly selective microbial insecticide effective against mosquito larvae including those which may (can) transmit (carry) West Nile Virus.
- Kills (mosquitoes) (developing mosquitoes) (mosquito larvae) (before they hatch) including those which may (can) transmit (carry) West Nile Virus (and encephalitis). (and equine encephalitis).

- Kills (mosquitoes) (developing mosquitoes) (mosquito larvae) before they become breeding, biting adults, including those which may (can) transmit (carry) West Nile Virus (and encephalitis) (and equine encephalitis).
- Kills (mosquitoes) (developing mosquitoes) (mosquito larvae) (before they hatch) including those which may (can) transmit (West Nile Virus and) heartworm disease (to dogs and cats).
- Patent Pending.
- Dual Action Release (Logo).
