

U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Registration Division (7505P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

EPA Reg. Number:

83399-16

Date of Issuance:

2/8/18

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional, Time-Limited  
 Expires: 02/08/2020

Name of Pesticide Product:

Imidacloprid and Pyriproxyfen  
 Spot-on Solution for Cats

Name and Address of Registrant (include ZIP Code):

Alicia Henk  
 Ceva Animal Health, LLC  
 8735 Rosehill Road  
 Lexington, KS 66215

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Date:

2/8/18

Venus Eagle, Product Manager 01  
 Invertebrate-Vertebrate Branch 3, Registration Division (7505P)

2. The Agency has found your company to be in compliance with the terms and conditions for the subject product and is extending the two-year registration restriction. This registration is time-limited, expires 02/08/2020.
3. Please note that the product is still subject to all other previously required conditions of registration. Your company is required to adhere to the spot-on label mitigation, and to submit quarterly enhanced incident reports and quarterly sales information as stated in the initial registration notice dated 2/8/2016
4. You are required to comply with the data requirements described in the DCI or EDSP Order identified below:
  - a. Imidacloprid GDCI-129099
  - b. Imidacloprid EDSP-129099
  - c. Pyriproxyfen GDCI-129032
  - d. Pyriproxyfen EDSP-129032

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:

<http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 2/4/2016

If you have any questions, please contact Jacquelyn Herrick by phone at 703-347-0559, or via email at [herrick.jacquelyn@epa.gov](mailto:herrick.jacquelyn@epa.gov).

Enclosure

**“Master Label”**

*This master label includes label text for different size packages and application rates specific to the pet’s age and body weight. Text that appears in parenthesis are informational to the EPA, but will not be printed. Text that appears in brackets are optional.*

**(FRONT PANEL OF OUTER BOX)**

(Market Label-

- The word Cat will be at least 40-75% in height of the largest letter in the primary brand name.
- A large clear picture of a cat in the respective weight range will be on the front panel of the label.)

**Imidacloprid and Pyriproxyfen Spot-On Solution for Cats**

pesticide product for cats. If signs persist, or become more severe, consult a veterinarian immediately. If your cat is on medication, consult your veterinarian before using this or any pesticide product.

**Side Effects:** Monitor your cat after application. Although side effects are rare, some cats may experience some temporary irritation at the site of the product application such as redness, scratching or other signs of discomfort. If these or other side effects occur, consult your veterinarian or call 1-800-999-0297. If your cat has an unusual reaction to the initial application, consult a veterinarian before repeating application. Gastrointestinal signs such as hypersalivation, vomiting or diarrhea have been reported.

## DIRECTIONS FOR USE

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
READ ENTIRE LABEL BEFORE EACH USE**

## CONSUMER INFORMATION

**[Imidacloprid and Pyriproxyfen Spot-On Solution for Cats** [This product] kills fleas within 12 hours, and re-infesting fleas are killed within 2 hours. **Imidacloprid and Pyriproxyfen Spot-On Solution for Cats** prevents further flea infestation for four [4]weeks [1 month][30 days].

OR

[The active ingredients in] Imidacloprid and Pyriproxyfen Spot-On Solution for Cats [this product] are formulated for control of fleas for 1 month[4 weeks][30 days] on cats. Imidacloprid and Pyriproxyfen Spot-On Solution for Cats is an effective flea adulticide, larvicide, and ovicide [that [kills] [prevents][,treats] [,and][controls] fleas.]

### RESTRICTIONS:

- Do not allow children to apply product.
- Weigh your cat to be sure you are using the right size product for your cat.
- For use only on cats [and kittens] 8 weeks and older weighing [2-5lbs (0.0078 fl. oz.)] or [5-9 lbs (0.014 fl. oz.)] or [over 9lbs (0.027 fl. oz.)]

**EPA REG. NO. 83399-16  
LABEL AMENDMENT  
DATE: February 07, 2018**

- Do not use on other animals.
- Do not apply more than one [1] tube per treatment, even for larger cats.
- Do not split one tube between two cats.
- Do not treat your cat with more than one pesticide product at a time. Over dosing your cat can result in serious illness and even death.
- Do not have contact or allow children to have contact with treated area until completely dry.
- For external use only

**TO PREVENT HARM TO YOU AND YOUR CAT, READ ENTIRE LABEL BEFORE EACH USE.  
FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY.**

**OPENING INSTRUCTIONS:**

**1** Tear through perforation

**2** Fold back the safety tab

**3** Cut with scissors to open applicator

**HOW TO APPLY:**

1. The cat should be standing or in a comfortable position for easy application.
2. Part the hair down to the level of the skin, and slowly apply the product at the base of the cat's head until the applicator is completely empty. (Avoid superficial application to the cat's hair).

3. Do not get the product in the cat's eyes or mouth. Do not allow your cat to ingest this product. Salivation may occur if the cat ingests the product immediately after application. Do not use more than one tube on cats greater than 9 lbs.
4. Discard the empty applicator as outlined in the Storage and Disposal section.
5. Repeat every month, or as recommended by your veterinarian.

### FREQUENCY OF APPLICATION

The presence of fleas on cats may cause a sensitive skin disorder due to the feeding activity of fleas. This is called flea allergy dermatitis [FAD]. Imidacloprid and Pyriproxyfen Spot-On Solution for Cats kills fleas that may cause flea allergy dermatitis [FAD]. Treatment of Imidacloprid and Pyriproxyfen Spot-On Solution for Cats will kill fleas on cats [and][kittens] within twelve [12] hours. It is possible pre-existing pupae in the environment may continue to emerge for six [6] weeks [or longer] depending on climatic conditions. Use Imidacloprid and Pyriproxyfen Spot-On Solution for Cats monthly [every 30 days][every 4 weeks] for the control of fleas.

OR

[Studies have shown that] Imidacloprid and Pyriproxyfen Spot-On Solution for Cats kills fleas on cats within 12 hours for up to four [4] weeks [1 month][30 days]]. To prevent flea re-infestation, apply monthly. Imidacloprid and Pyriproxyfen Spot-On Solution for Cats remains effective even after exposure to sunlight. Imidacloprid and Pyriproxyfen Spot-On Solution for Cats is water resistant and is still effective, after bathing or water immersion. Allow treated area to dry thoroughly.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool, dry place. Keep out of reach of children.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

### LIMITED WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that the material conforms to the chemical parameters of the US EPA registration and the label. To the extent consistent with applicable law, seller makes no warranty, express or implied, other than indicated on the label. Buyer and user assume all risk of use and handling of this material. To the extent consistent with applicable law, any damages arising from use of this product or a breach of this warranty shall be limited to direct damages and shall not include consequential or incidental damages such as loss of profit or values.
