Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Update Change of Company Address and Logo
Product Name: EL2 ONE PACK
Admin Number: 83997-9
EPA Receipt Date: 04/23/2025
Action Case Number: 00654222

Dear Kevin J. Archer:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Terria Northern via email at northern.terria@epa.gov.

Sincerely,

Terria Northern, RM Team 34

NOTIFICATION

83997-9

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

11/17/2025

ACTIVE INGREDIENTS: 4,5-Dichloro-2-acetyl(3,4-DI)-isothiazolidone Imidacloprid; 1[(6-Chloro-3-pyridinyl)aminoethyl]- N-nitro-2-imidazolidinone 2.5% 0.08% INERT INGREDIENTS: Total: 97.45% 100.0% KEEP OUT OF REACH OF CHILDREN WARNING FIRST AID IF ON SKIN: - Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice IF IN EYES: - Hold eye open and rinse slowly and gently with water for 15-20 minutes - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing - Call a poison control center or doctor for treatment advice IF INHALED: - Move person to fresh air - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible IF SWALLOWED: - Call a poison control center or doctor immediately for treatment advice - Do not give anything by mouth to an unconscious person - Have a person sip a glass of water if able to swallow - Do not induce vomiting unless told to by a poison control center or doctor - Do not give anything by mouth to an unconscious person Have the product container or label with you when calling a poison control center or Doctor, or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be necessary. SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS	PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING CORROSIVE CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS HARMFUL IF SWALLOWED HARMFUL IF ABSORBED THROUGH THE SKIN MAY BE FATAL IF INHALED Causes skin irritation and moderate eye irritation. Do not get in eyes, on skin, or on clothing. Wear coveralls worn over short-sleeved shirt and short pants, socks, or on clothing. Wear coveralls worn over short-sleeved shirt and short pants, socks, chemical-resistant footwear and natural rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label. PHYSICAL OR CHEMICAL HAZARDS This product is incompatible with oxidizing agents. Date of Manufacture: EPA Reg. No. 83997-9 EPA Est. No.: 0465-NC-001	STORAGE AND DISPOSAL Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. PESTICIDE STORAGE This product is corrosive to mild steel and stainless steel. Do not store or transport in unlined metal containers. Keep product from freezing. SPILL CONTAINMENT Absorb spill with inert material. Sweep up or gather material and place in appropriate protective equipment during cleanup. Once contaminated absorbent material has been removed, the residual chemical is deactivated by the following steps: (1) Decontaminate spill area with a freshly prepared aqueous solution of 5% sodium hypochlorite (bleach) and 5% sodium bicarbonate (baking soda). (2) Let stand for 30 minutes. (3) Rinse into sewer (in accordance with local regulations). (4) Spills may be reportable (consult local regulations). PESTICIDE DISPOSAL Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL METAL CONTAINERS Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. PLASTIC CONTAINERS Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. GENERAL: CONSULT FEDERAL, STATE, OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.	DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL PRIOR TO USE. USE ONLY IN ACCORDANCE WITH LABEL PRECAUTIONS AND DIRECTIONS. For use as a wood preservative to protect above ground treated wood from fungi, mold, mildew and subterranean termite attack (including the Formosan termite, <i>Coptotermes formosanus</i>, and species from the genera <i>Reticulitermes</i>, <i>Heterotermes</i>, and <i>Zootermopsis</i>). This is a water-borne wood preservative. Water shall be used as the diluent when dilution is required. PRESSURE TREATMENT For use in the pressure treatment of southern pine and other treatable softwood lumber and plywood for above ground applications such as decking, fencing, rails, spindles, flooring, sill plates, trellises, gazebos, millwork and joinery, trim and fascia. Use 450 ppm to 1200ppm active DCOIT and 9-24 ppm active Imidacloprid in the final treatment solution. Treating procedures used with EL2 One Pack shall conform to current American Wood Protection (AWPA) Standards in place at the time of application. Treating cycles shall incorporate a post treatment vacuum component equal to or greater than the initial vacuum step. A retention level in the range 0.010 - 0.04 pounds/cubic foot (pcf) (0.16 -0.64 kg/m³) of EL2 One Pack active ingredient in the wood is required for all the above treatments. Refer to the mixing table in the next column for guidance on mixing appropriate treating solution concentrations to achieve these retentions. Note: that the product retention range required above will yield an imidacloprid retention equivalent to or greater than 0.0002 lbs. per cubic foot (pcf) (0.0032 kg/m³) which is the minimum retention level required for protection from subterranean termite attack.	Example Solution Mix Table <table><tr><th>Active ingredient Concentration</th><th>Imidacloprid (ppm)</th><th>Gallons of EcoLife One Pack/1000 gal Treating solution</th><th>Gallons of water</th></tr><tr><td>DCOIT (ppm)</td><td></td><td></td><td></td></tr><tr><td>450</td><td>9</td><td>19</td><td>981</td></tr><tr><td>500</td><td>10</td><td>21</td><td>979</td></tr><tr><td>600</td><td>12</td><td>25</td><td>975</td></tr><tr><td>700</td><td>14</td><td>29</td><td>971</td></tr><tr><td>800</td><td>16</td><td>33</td><td>967</td></tr><tr><td>900</td><td>18</td><td>37</td><td>963</td></tr><tr><td>1000</td><td>20</td><td>41</td><td>959</td></tr><tr><td>1100</td><td>22</td><td>45</td><td>955</td></tr><tr><td>1200</td><td>24</td><td>49</td><td>951</td></tr></table> POST TREATMENT HANDLING Treated lumber and plywood shall be free from dripping before leaving the drip pad. NOTE: EL2 One Pack cannot be used to treat wood intended for ground contact, direct continuous salt water or freshwater immersion. Wood treated with this product must not be used for packaging food or feed or in the manufacture of bee hives. EL2 One Pack weighs 8.12 pounds per gallon.
