U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511P)
1200 Pennsylvania Avenue NW
Washington, DC 20460

EPA Reg. Number:
84069-1

Date of Issuance:
AUG 25 2010

Term of Issuance: **Conditional**

Name of Pesticide Product:
SummerSet AllDown Concentrate

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

SummerSet Products
130 Columbia Ct.
131 Chaska, MN 55318

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If the EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product is conditionally registered in accordance with FIFRA Sec. 3(c)(7) provided you:

1. Submit within eighteen (18) months from the Date of Registration an acceptable data package for Non-target Insect Testing OPPTS Guideline 850.4350. Specifically, you must conduct an Acute Contact Toxicity Test OPPTS Guideline 850.3020.
2. Submit and/or cite all data required for registration of your product under FIFRA section 3(c) (5) when the Agency requires all registrants of similar products to submit such data.
3. Revise the EPA Registration Number to read, "EPA Reg. No. 84069-1".
4. Revise the label for this product as noted on page 2 of document.
5. Submit two (2) copies of the final printed labeling before you release the product for shipment. Refer to the A- 79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Signature of Approving Official:
W. Michael McDavit
W. Michael McDavit, Acting Director,
Biopesticides and Pollution Prevention Division

Date:
AUG 25 2010

Label Revisions Required by SummerSet for the Product Assigned 84069-1 SummerSet AllDown Concentrate -

- 1. Front Panel** – Add a new line directly below the signal word “Danger”. On the new line directly below the word danger add the word Peligro (Spanish equivalent to “Danger”). You must ensure that the type size of the statement “Peligro” conforms to the Agency’s required type size. See next for further details).
- 2. Personal Protective Equipment** – Revise this statement such that it reads ...handlers must wear protective eyewear, long-sleeved shirt, long pants waterproof gloves, shoes, and socks (See label review manual Chapter 10, Section VII).
- 3. User Safety Recommendations** – Revise this statement to read as follows: Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing (See label review manual Chapter 10, Section VII).
- 4. Application Directions** – Revise the box that list “Weeds Controlled” by deleting the word “etc.” wherever it appears.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER Corrosive: Causes irreversible eye damage. Do not get in eyes or on clothing. Wear protective eyewear such as goggles, face shield, or safety glasses. Harmful if swallowed, absorbed through the skin, or inhaled. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear protective eyewear, long-sleeved shirt, long pants, and shoes and socks. Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to bees exposed to spray drift, direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are actively visiting the treatment area.

This pesticide is toxic to birds exposed to spray drift, direct treatment or residues on crops or weeds. Do not apply this product or allow it to drift to crops or weeds if birds are actively visiting the treatment area.

This pesticide is toxic to fish and aquatic invertebrates.

For terrestrial use only. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

ENDANGERED SPECIES PROTECTION REQUIREMENTS: This product may have effects on endangered species. When using this product, you must follow the measures contained in the Endangered Species Protection Bulletin for the county in which you are applying the product. To obtain Bulletins, no more than six months before using this product, consult <http://www.epa.gov/espp/> or call 1-800-447-3813. You must use the Bulletin valid for the month in which you will apply the product.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using. Do not apply this product in a way that will contact workers, other persons, or water bodies either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 48 hours.

PPE requirement for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is coveralls, waterproof gloves made of any waterproof material, and shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 48 hours.

Keep unprotected persons out of treated areas until spray has dried.

7/12

GENERAL INFORMATION

Application Directions: AllDown is a fast-acting, non-selective contact herbicide for the elimination of broadleaf and grass weeds. Use on targeted weeds and grasses in flowerbeds, vegetable gardens, around fruiting and non-fruiting trees, shrubs, and vines, along fence lines, patios, driveways, sidewalks, and other similar areas where weed control is desired. Repeated applications may be required for larger perennial weeds or if re-growth occurs.

To prepare final spray solution, dilute one part ALLDown Concentrate with three parts water sufficient to treat at an application rate of 25-50 gallons/acre. For larger annuals and burndown of perennial weeds, higher application rates may be required. To achieve higher application rates, mix 1 part AllDown Concentrate with 2 parts water. Apply spray solution by ground application using equipment such as hand-held, back-pack, or tractor-mounted sprayer at a rate of 25-50 gallons/acre when skies are mostly sunny and no rainfall is predicted within 4-6 hours of application. Use the higher rate when weeds are dense or the foliage is heavy. Rain just after application will reduce product effectiveness. Apply when the air is calm and temperatures are 65-90° F. Best results are achieved from spring to early summer when young weeds are growing more actively, and on small weeds less than 3-5 inches high. Only contacted vegetation will be affected. For spot treating, apply to target vegetation in sufficient volume to thoroughly wet the leaves.

For control of larger annuals and burndown of perennial weed growth. Larger annual weeds and perennials are more difficult to control and may require re-treatment. Treat initially as directed above and repeat if new growth of leaves appears. Thorough coverage of all foliage is necessary to achieve desirable control.

Do not apply aerially.

Do not apply to desirable plants. Severe injury will occur to non-target plants if AllDown contacts the foliage of these plants.

Do not apply to reactive metals such as aluminum, tin, iron, or fencing. If the product contacts reactive metal surfaces, staining, mottling, or other harm to the finishes or surfaces may occur.

Do not use spray equipment with metal working parts such as metal spray lines or metal nozzles.

Do not apply this product through any type of irrigation system.

Do not tank mix with other pesticides or fertilizers.

Do not apply more frequently than every two weeks.

WEEDS CONTROLLED

Annual Broadleaf Weeds such as:
Chickweed, black medic, cinquefoil, lambsquarter, mustard species, oxalis, pigweed, ragweed species, shepherd's purse, stinkweed, portulaca, round-leaf mallow, etc.

Perennial Weeds such as:
Canada thistle, cinquefoil (silvery), common burdock, dandelion, ground ivy (creeping Charlie), plantain, spotted spurge, toadflax, tufted vetch, wild carrot, etc.

Annual Grasses such as:
Foxtail species, crabgrass, barnyardgrass, seedling Johnsongrass, etc.

Perennial Grasses such as:
Quackgrass, common bermudagrass, ryegrass, etc.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a dry, cool place.

Pesticide Disposal: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

Container Disposal (55 gallons): Nonrefillable container. Do not reuse or refill this container. **Do not use bleach to rinse container.** Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into the application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling, if available, or puncture or dispose of in a sanitary landfill, or by incineration. Do not burn unless allowed by state and local ordinances.

WARRANTY STATEMENT

SummerSet Products (SummerSet) warrants that this Product conforms to the specifications on this label. To the extent consistent with applicable law, SummerSet makes no other warranties and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for a particular purpose. No agent of SummerSet or any other person is authorized to make any representation or warranty beyond those contained herein.

It is impossible to eliminate all risks associated with this Product. Lack of performance or other unintended consequences may result because of factors such as use of the Product other than in strict accordance with this label's instructions, presence of other materials, the manner of application or other factors, all of which are beyond the control of SummerSet or the seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

To the extent consistent with applicable law, SummerSet disclaims any liability whatsoever for special, incidental or consequential damages resulting from the handling or use of this Product and SummerSet's liability under this label shall be limited to the amount of the purchase price or, at the election of SummerSet, the free replacement of the Product.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER Corrosive: Causes irreversible eye damage. Do not get in eyes or on clothing. Wear protective eyewear such as goggles, face shield, or safety glasses. Harmful if swallowed, absorbed through the skin, or inhaled. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

For terrestrial use only. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using.

GENERAL INFORMATION

Application Directions: AllDown is a fast-acting, non-selective contact herbicide for the elimination of broadleaf and grass weeds. Use on targeted weeds and grasses in flowerbeds; on targeted weeds and grasses in vegetable gardens; on targeted weeds and grasses around fruiting and non-fruiting trees, shrubs and vines; and on targeted weeds and grasses along fence lines, patios, driveways, sidewalks, and other similar areas where weed control is desired. Repeated applications may be required for larger perennial weeds or if re-growth occurs.

To prepare final spray solution, dilute one part ALLDown Concentrate with three parts water sufficient to treat at an application rate of 7.5-15 fl. oz./100 sq. ft. For larger annuals and burndown of perennial weeds, higher application rates may be required. To achieve higher application rates, mix 1 part AllDown Concentrate with 2 parts water. Apply spray solution by ground using equipment such as hand-held, back-pack, or tractor-mounted sprayer at a rate of 7.5-15 fl. oz./100 sq. ft. when skies are mostly sunny and no rainfall is predicted within 4-6 hours of application. Use the higher rate when weeds are dense or the foliage is heavy. Do not apply more frequently than every two weeks. Rain just after application will reduce product effectiveness. Apply when the air is calm and temperatures are 65-90° F. Best results are achieved from spring to early summer when young weeds are growing more actively, and on small weeds less than 3-5 inches high. Only contacted vegetation will be affected. For spot treating, apply to target vegetation in sufficient volume to thoroughly wet the leaves.

For control of larger annuals and burndown of perennial weed growth. Larger annual weeds and perennials are more difficult to control and may require re-treatment. Treat initially as directed above and repeat if new growth of leaves appears. Thorough coverage of all foliage is necessary to achieve desirable control.

Do not apply to desirable plants. Severe injury will occur to non-target plants if AllDown contacts the foliage of these plants.

Do not apply to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture. If the product contacts these surfaces, staining, mottling, or other harm to the finishes or surfaces may occur.

Do not use spray equipment with metal working parts such as metal spray lines or metal nozzles.

Do not apply more frequently than every two weeks.

WEEDS CONTROLLED
