	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) Ariel Rios Building 1200 Pennsylvania Ave., NW Washington, D.C. 20460	EPA Reg. Number:	Date of Issuance:
		84396-12	SEP 16 2008
		Term of Issuance: Unconditional	
NOTICE OF PESTICIDE: — Registration <input checked="" type="checkbox"/> Reregistration (under FIFRA, as amended)		Name of Pesticide Product: Sungro Residual Spray	
Name and Address of Registrant (include ZIP Code): Sungro Products 810 E. 18th Street Los Angeles, CA 90021			
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.			
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.</p> <p>The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:</p> <p>Please see pages 2 and 3 for label comments and existing stocks provisions</p> <p>You must submit one (1) copy of the final printed label before you release the product for shipment. A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Julie Chao at 703-308-8735 or chao.julie@epa.gov.</p>			
Signature of Approving Official: Meredith F. Laws, Chief Insecticide-Rodenticide Branch Registration Division (7505P)		Date: SEP 16 2008	

Label Comments:

- Delete all references to Pharaoh Ants. This type of ant requires additional data. Alternatively, you may claim the following: "Ants (excluding fire, harvester, carpenter, and pharaoh ants)." If making a general ant claim, ALL references must have the text excluding fire, harvester, carpenter, and pharaoh ants.
- Delete ALL references to "Field Roach," "Shore Fleas," "March Flies," "Wind Scorpions," "Carpenter Bees," and "Waterbugs." These pests require additional data. As an alternative to "March Flies," you may claim "Cluster Flies."
- Delete the phrase "...including those resistant to certain chlorinated hydrocarbons and phosphates" as it appears on both the front panel and under the Directions for Use section.
- Under the Meat Packing and Food Processing Plants section, add the following, bolded text to the first sentence: "Use only in the inedible, **non-food** areas of meat packing and food-processing plants. **Non-food areas include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage areas (after canning or bottling).**"
- Delete the word "General" in the heading "Precautions and Restrictions." The word general implies that the information following is advisory, not mandatory.
- Under the Precautions and Restrictions section, revise the sixth and seventh sentences as follows: "Do not contaminate food, utensils, and food preparation areas. Do not contaminate feed, food, food processing equipment, and food handling surfaces." The word "avoid" implies that the directions are advisory, not mandatory.
- Under the Active Ingredient statement, it is recommended that the common name "propoxur" be added before the chemical name.
- Under the Warranty Statement section, add the following text to the beginning of the first and last sentences: "**To the extent consistent with applicable law,...**"
- Move the first sentence under the User Safety Recommendations section to the Personal Protective Equipment section.
- Under the Storage and Disposal section, delete the word "Avoid," as it appears to be an incomplete sentence. Alternatively, you may complete the sentence, although it is recommended that you begin the statement with "Do not..." Avoid implies that the direction is advisory, not mandatory.

Use of Existing Stocks of Labels:

- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS NOT labeled with the prohibition on indoor residential spray use, then you may label your product with existing stocks for up to 12 months after the date of this reregistration notice.
- If you formulate your end-use product with technical product purchased prior to January 31, 2009 that IS labeled with the prohibition on indoor residential spray use, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.
- If you formulate your end-use product with technical product purchased after January 31, 2009, then you may not use existing stocks of labels that allow for indoor residential use. You must use the new, stamped label that is enclosed with this reregistration notice.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read the entire directions and conditions before using. RESIDUAL SPRAY is a highly effective formulation which provides rapid kill of the crawling insects as listed on the front panel, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. In addition to rapid initial kill, RESIDUAL SPRAY stays on treated surfaces and kills insects many weeks after the spray deposits have dried.

DO NOT USE THIS PRODUCT IN RESIDENTIAL USE SITES, SCHOOLS, DAY CARE FACILITIES, MOTELS, HOTELS, AND OTHER AREAS WHERE CHILDREN MAY BE PRESENT.

HOW TO USE: RESIDUAL SPRAY is ready to use undiluted as it comes from the can, and must be applied with either power operated or hand pressurized sprayers. Apply as a coarse spray to surfaces until wet, moving the spray stream rapidly enough to prevent excessive wetting of surfaces and waste of material.

APPLICATION INSTRUCTIONS

COMMERCIAL / INDUSTRIAL INDOOR USE:

ARGENTINE & PHARAOH ANTS, FIELD ROACHES, CRICKETS, SILVERFISH, WIND SCORPIONS, SAW-TOOTH GRAIN BEETLES (EXPOSED STAGE), WATERBUGS: Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. For ants, spray trails and places where ants enter premises. Repeat as needed. Applications may be made to floor surfaces along baseboards and around air ducts, however, do not treat entire area of floor or floor coverings.

OUTDOOR USE:

ANTS, CLOVER MITES, CRICKETS, EARWIGS, SHORE FLEAS, MARCH FLIES, GARDEN SPIDERS, SILVERFISH, MILLIPEDES, SOWBUGS: Spray thoroughly those areas where pests have been seen or found including outside surfaces of screens, doors, window frames, foundations, patios, or other places where insects may enter. For ants, spray runways. Repeat as necessary. Do not spray vegetation. Do not apply as a landscape treatment (to lawns, shrubs or trees, or plants).

FOR USE IN MEAT PACKAGING & FOOD PROCESSING PLANTS:

Use only in the inedible areas of meat packing plants. Any exposed food products, equipment or packaging materials must be removed or covered before spraying. Wash all equipment with an effective cleaning compound followed by a rinse with potable water before resuming operations. Treat food processing plants early in the season before canning or other processing begins. Repeat applications if necessary, when plant is not in operation. Spraying unloading docks and outside areas where insects congregate will aid in preventing reinfestation. Good sanitation and proper disposal of wastes is essential in any effective insect control program.

GENERAL PRECAUTIONS AND RESTRICTIONS

Do not apply this product in a way that will contact any person or pet, either directly or indirectly. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried. Do not apply to animals. This product shall not be distributed, sold, or used with finger-operated trigger sprayers. Avoid contamination of food, utensils, and food preparation areas. Avoid contamination of feed, food, food processing equipment and food handling surfaces. Remove pets and cover fish bowls or aquaria before spraying. Do not use as a space spray. Provide adequate ventilation of areas being treated. Do not spray vegetation. Avoid excessive wetting of plastic, rubber and asphalt surfaces and tiles and floor coverings. If container is leaking invert to prevent leakage. If the container is leaking or material is spilled for any reason or cause, carefully dam up spilled material to prevent runoff. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Absorb spilled material with absorbing type compounds and dispose of as directed for pesticides above. In spill or leak incidents, keep unauthorized people away. Do not apply as a landscape treatment (to lawns, shrubs or trees, garden plants).

SUNGRO

RESIDUAL SPRAY

CONTAINS PROPOXUR

**FOR USE IN, FOOD & MEAT
PROCESSING PLANTS, COMMERCIAL
BUILDINGS, WAREHOUSES,
OUTDOORS AND AROUND
THE PERIMETER OF STRUCTURES.
FOR INDUSTRIAL AND INSTITUTIONAL USE**

Residual Spray is a highly effective ready to use formulation for control of the insects listed below, including those resistant to certain chlorinated hydrocarbons and phosphates. This product gives rapid kill and long residual activity.

KILLS: Argentine & Pharaoh Ants, Field Roach, Clover Mites, Crickets, Earwigs, Shore Fleas, March Flies, Millipedes, Wind scorpions, Silverfish, Sowbugs, and Garden Spiders, Saw-toothed Grain Beetles, and Carpenter Bees.

Active Ingredient	% By wt.
2-(1-methylethoxy)phenol methylcarbamate	1.0
Inert Ingredients	99.0
Total	100.0

CONTAINS PETROLEUM DISTILLATE

KEEP OUT OF REACH OF CHILDREN CAUTION

(See Side Panel for Additional Cautions)

GALS. (

LITERS)

THIS PRODUCT CONTAINS A CHEMICAL KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER.

ACCEPTED
With COMMENTS
In EPA Letter Dated:

SEP 16 2008

Under the Federal Insecticide, Fungicide
and Rodenticide Act, As amended, for the
pesticide Registered under EPA Reg. No:

84396-12

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 9-1-1 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Questions? 1-800-463-9179 or call poison control center.

NOTE TO PHYSICIAN:

This product may pose an aspiration pneumonia hazard. Contains petroleum distillate. If gastric lavage is deemed necessary, undertake only after proper placement of a cuffed endotracheal tube.

SYMPTOMS OF POISONING: A sense of 'tightness' in chest. Sweating. Contracted pupils. Stomach pains. Vomiting and diarrhea.

ANTIDOTE: Administer atropine sulfate in therapeutic doses. Repeat as necessary to point of tolerance.

Compound inhibits cholinesterase resulting in stimulation of the central nervous system. The parasympathetic nervous system and the somatic motor nerves. Do not give morphine. Watch for pulmonary edema which may develop in serious cases of poisoning even after 12 hours. At first sign of pulmonary edema, the patient should be placed in an oxygen tent and treated symptomatically.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: Long-sleeved shirt and long pants. Shoes plus socks and Chemical-resistant gloves made of barrier laminate, neoprene rubber, nitrile rubber or viton.

USER SAFETY RECOMMENDATIONS

Follow manufacturer's instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothes.

ENVIRONMENTAL HAZARDS

This product is toxic to wildlife and aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply as a landscape treatment (to lawns, shrubs, or trees, garden plants).

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of reach of children, preferably in a locked storage area. Handle and open container in a manner as to prevent spillage.

DISPOSAL INSTRUCTIONS:

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Avoid

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read the entire directions and conditions before using.
