OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

December 21, 2016

Matthew Brooks  
Cupron Inc.  
c/o Ag-Chem Consulting  
12208 Quinque Lane  
Clifton, VA 20124

Subject: Label Amendment – Adding “eliminating odor causing bacteria on apparel” and 3 Alternate Brand Names  
Product Name: Cupron Anti-Fungal Fibers and Fabrics III  
EPA Registration Number: 84542-11  
Application Date: September 28, 2016  
Decision Number: 523985

Dear Mr. Brooks

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Page 2 of 2  
EPA Reg. No84542-11  
Decision No. 523985

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at 703.305.6440 or via email at [grigsby.stacey@epa.gov](mailto:grigsby.stacey@epa.gov)

Sincerely,

A handwritten signature in cursive script that reads "Stacey Grigsby".

Stacey Grigsby  
Risk Manager  
Regulatory Management Branch II

[When Additional Brand Name is used the statement Cupron enhanced fibers/fabric shown below is replaced with Cupron AntiFungal Fibers]

## -THIS TEXTILE (OR IDENTIFIED ACTIVE AREA) CONTAINS CUPRON ANTI-MICROBIAL TECHNOLOGY

Laboratory testing has shown that when cleaned regularly:

Cupron enhanced fibers/fabric will assist in reducing the spread of *T. mentagrophytes* (athlete's foot fungus) on [sock, bathmats, shoe inserts].

Cupron enhanced fibers/fabric will [reduce, inhibit, suppress, kill] 99.9% of *T. mentagrophytes* (athlete's foot fungus) after 12 hours of contact with [sock, bathmats, shoe inserts].

Cupron enhanced fibers / fabric will inhibit the propagation and harboring of *T. mentagrophytes* on the [socks, bathmats, shoe inserts].

Cupron enhanced fibers / fabric will help to inhibit the growth of *T. mentagrophytes* the causative agent of athlete's foot on the [socks, bathmats, shoe inserts].

Cupron enhanced fibers / fabric will help to suppress the growth of *T.mentagrophytes* the fungus that is the causative agent of athlete's foot on the [socks, bathmats, shoe inserts].

Cupron enhanced fibers/fabric will [reduce, inhibit, suppress, kill] 99.9% of the *T. mentagrophytes* (athlete's foot fungus) on the [socks, bathmats, shoe inserts].

Cupron enhanced fibers / fabric will inhibit the growth of athlete's foot fungus on the [socks, bathmats, shoe inserts].

Cupron enhanced fibers/fabric reduce(s) the spread of *T. mentagrophytes*, athlete's foot fungus, on the surface of the sock.

Cupron enhanced fibers/fabric prevent(s) the growth of 99.9% of *T. mentagrophytes*, athlete's foot fungus, on the sock.

Cupron enhanced fibers / fabric will [reduce, inhibit, suppress, kill] 99.9% of *T. mentagrophytes*, athlete's foot fungus, on the [sock, bathmat, shoe inserts].

Cupron enhanced fibers/fabric significantly reduce(s) 99.9% of *T. mentagrophytes*, fungus that causes athlete's foot on the sock.

Anti-Odor

Antimicrobial [sock, bathmat, shoe insert, textile]

Prevents odor causing bacteria on the [sock, bathmat, shoe insert, textile].

Odor resistant for freshness on the [sock, bathmat, shoe insert, textile].

Cupron Anti Fungal Fibers and Fabrics III

Kills odor causing bacteria and fungus [microbes] for more freshness on the [sock, bathmat, shoe insert, textile].

Helps prevent odor on the [sock, bathmat, shoe insert, textile].

Antimicrobial technology to keep [sock, bathmat, shoe insert, textile] fresh.

A great defense against foot odor on the sock.

Odor resistant [sock (s), bathmat, shoe insert, textile].

Reduces odor right on the [sock, bathmat, shoe insert, textile].

This product contains an antimicrobial agent to control odors on the [sock, bathmat, shoe insert, textile].

This product contains an antimicrobial agent to prevent microorganisms from degrading the [sock, bathmat, shoe insert, textile].

Inhibits the growth of odor causing bacteria and fungus [microbes] on the [sock, bathmat, shoe insert, textile].

Resists microbial odor development on the [sock, bathmat, shoe insert, textile].

Retards the growth of odor causing bacteria and fungus [microbes] on the [sock, bathmat, shoe insert, textile].

Guards against odors caused by microbial growth on the [sock, bathmat, shoe insert, textile].

Guards against degradation from microorganisms on the [sock, bathmat, shoe insert, textile].

Reduces odors from microorganisms on the [sock, bathmat, shoe insert, textile].

Odor-resistant [sock, bathmat, shoe insert, textile].

Acts to mitigate the development of odors on the [sock, bathmat, shoe insert, textile].

Kills odor causing bacteria and fungus [microbes] on the [sock, bathmat, shoe insert, textile].

Kills foot odor causing bacteria and fungus [microbes] on the [sock, bathmat, shoe insert, textile].

## THIS PRODUCT IS EFFICACIOUS UP TO 20 MACHINE WASHINGS

The use of this textile is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and sanitizing/disinfection of textiles. This textile has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination.

\*\*\*\*

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[The directions in bracketed text may be included in an insert. If so there will be a statement to see the insert for additional directions for use of the product]

This product will retain its antimicrobial properties for 20 washings if maintained in the following manner:

Not compatible with silvercare machines

Do not use fabric softener, or laundry detergent containing fabric softeners

Do not dry clean.

[Cupron Anti Fungal Fibers and Fabrics III may be used in hospitals, other healthcare facilities, and various public, commercial and residential buildings for the uses listed below.]

**TEXTILES ARE TO BE USED TO MAKE SOCKS, FOOTWEAR, SHOE INSERTS, LAUNDRY BAG, REMOVABLE LAUNDRY BAG FOR LUGGAGE, ROLLER BAG, GYM BAG AND BATHMATS.**

## **STORAGE AND DISPOSAL**

**Disposal:** Discard in trash when fibers/fabric are worn out. Do not reuse clothing for other purposes than as sold.

**Hang Tag Label:**

**Cupron AntiFungal Fibers**

**Cupron Antifungal Fibers Kill 99.9% of T. mentagrophytes (athlete's foot fungus) after  
12 hours of contact with [insert site]**
