Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Revising trap assembly instructions
Product Name: Bull Run Yellowjacket Trap Cartridge
EPA Registration Number: 84565-5
EPA Receipt Date: 06/29/2022
Action Case Number: 00375767

Dear Ms. Smith:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Unscrew Lure Cup from Bottom Cap of Trap and remove Cotton or old Cartridge.
2. Cut and remove wrapper surrounding Cartridge.
3. Insert Cartridge, vented end up, into Lure Cup.
4. Screw Lure Cup back onto Bottom Cap.
5. Wash hands with soap and water.

Use Rate: Use 2-4 traps for a 10,000 square foot area or 8 to 16 traps per acre. For areas with heavy infestation, use a maximum of 48 traps per acre.

CAUTION: Due to the extreme effectiveness of the attractant, use caution when placing and maintaining traps. Place and maintain traps in late evening or early morning when yellowjackets are less active. People allergic to yellowjacket stings should allow others to place and maintain traps for them. Yellowjacket stings can be fatal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry, well-ventilated location out of reach of children and pets.

DISPOSAL: Deposit in trash for collection. Wash hands with soap and water.
