Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Add Graphics with explanatory text and revisions to optional claims.
Product Name: DISPOSABLE BULL RUN YELLOWJACKET TRAP_w
EPA Registration Number: 84565-6
Application Date: 3/12/2021
OPP Case Number: 00294886

Dear Ms. Smith:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false

Page 2 of 2
EPA Reg. No. 84565-6
OPP Case No. 00294886

or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Sydnie Hetzel by phone at (703) 347-0220 or via email at Hetzel.sydney@epa.gov.

Sincerely,

Andrew Bryceland, Team Leader

Disposable Bull Run Yellowjacket Trap_w

(Label is printed directly in the plastic used to make the disposable trap bag)
(Original product)

{Front Panel}

INGREDIENTS	
Active Ingredient:	
Heptyl Butyrate	18.9%
Other Ingredients	<u>81.1%</u>
Total	100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

NET WT: 0.45 oz

Yellowjacket gauge: ½" equals approximately 300 yellowjackets

{Top Panel}

Read instructions before opening.
Cut here on dotted line.

{Back Panel}

The Bull Run Disposable Yellowjacket Trap is proven to lure the following species: Western Yellowjacket (*Vespula pensylvanica*), Prairie Yellowjacket (*V. atropilosa*), California Yellowjacket (*V. sulphurea*), Blackjacket (*V. consobrina*), Forest Yellowjacket (*V. acadica*), Southern Yellowjacket (*V. squamosa*), Northeastern Yellowjacket (*V. vidua*), Common Yellowjacket (*V. vulgaris*), Eastern Yellowjacket (*V. maculifrons*), and German Yellowjacket (*V. germanica*).

----- FILL LINE -----

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

{Graphics}

1. Cut plastic on top at dotted line.
2. Pull open and attach string or wire.
3. Add water to fill line on bag. Attractant pouch inside will dissolve and activate within 2-5 hours.
4. Hang outdoors away from human activity, and at least 20 feet from a known yellowjacket nest.

Use Rate: Use 2-4 traps for a 10,000 square foot area or 8 to 16 traps per acre. For areas with heavy infestation, use a maximum of 48 traps per acre.

CAUTION: Due to the extreme effectiveness of the attractant, use caution when hanging traps. Place traps in late evening or early morning when yellowjackets are less active. People allergic to yellowjacket stings should allow others to hang traps. Yellowjacket stings can be fatal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry, well-ventilated location out of reach of children and pets.

DISPOSAL: Close trap and deposit in trash for collection. Wash hands with soap and water.

GENERAL INFORMATION

The Tubular Bull Run YELLOWJACKET TRAP_w is proven to trap the following species: Western Yellowjacket (*Vespula pensylvanica*), Prairie Yellowjacket (*V. atropilosa*), California Yellowjacket (*V. sulphurea*), Blackjacket (*V. consobrina*), Forest Yellowjacket (*V. acadica*), Southern Yellowjacket (*V. squamosa*), Northeastern Yellowjacket (*V. vidua*), Common Yellowjacket (*V. vulgaris*), Eastern Yellowjacket (*V. maculifrons*), and German Yellowjacket (*V. germanica*).

Provide the consumer with an easy, effective, economical and responsible way to control insect pests: That's the mission we set out to fulfill over 30 years ago. With the Tubular Trap, we've added another objective: Make it decorative, for the discerning customer who wants to beautify the outdoor landscape.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Tear open pouch and remove Yellowjacket Trap Insert_w.
2. Straighten bag and make sure attractant is at the bottom.
3. Pull up on center tab of top cap until it snaps into place.
4. Place insert, bag first, into threaded end of decorative cover. Screw top cap in place.
5. Fill trap outdoors using warm water. Add 1 cup water to the "dissolve" line and wait 5 minutes for attractant packet to dissolve. Then add 3/4 cup more water to the "activate" line.
6. Hang trap outdoors in late evening or early morning when yellowjackets are less active. For best results, hang 20 feet from building entries and any known yellowjacket nests.
7. Replace Yellowjacket Trap Insert_w when full, when contents dry out, or after 2 weeks — whichever comes first.
8. Wash hands with soap and water.

Use Rate: Use 2-4 traps for a 10,000 square foot area or 8 to 16 traps per acre. For areas with heavy infestation, use a maximum of 48 traps per acre.

CAUTION: Due to the extreme effectiveness of the attractant, use caution when hanging traps. Place traps in late evening or early morning when yellowjackets are less active. People allergic to yellowjacket stings should allow others to hang traps. Yellowjacket stings can be fatal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry, well-ventilated location out of reach of children and pets.

DISPOSAL: Push down on top cap to close trap, unscrew from decorative cover, and deposit in trash for collection. Wash hands with soap and water.
