

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division (7511P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

84565-8

Date of Issuance:

6/7/2022

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Fly Attractant-1

Name and Address of Registrant (include ZIP Code):

Bull Run Scientific, VBT
3900 Westerre Parkway, Suite 300
Richmond, VA 23233

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA or the Act).

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency (EPA). In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when the EPA requires all registrants of similar products to submit such data.
2. Submit Storage Stability and Corrosion Characteristics (Guidelines 830.6317 and 830.6320) data as these data requirements are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of this registration to provide these data to the EPA.
3. Make the following labeling change before you release this product for shipment:
Revise the EPA Registration Number to read, "EPA Reg. No. 84565-8".
4. Submit one (1) copy of the final printed labeling for the record before you release this product for shipment.

Signature of Approving Official:

Andrew Bryceland, Team Leader
Biochemical Pesticides Branch
Biopesticides and Pollution Prevention Division (7511P)
Office of Pesticide Programs

Date:

6/7/2022

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statements of Formula (CSF):

- Basic CSF dated 6/6/22.

If you have any questions, please contact Chris Pfeifer via email at pfeifer.chris@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Andrew C. Bryceland". The signature is fluid and cursive, with the first name being the most prominent.

Andrew Bryceland, Team Leader

GENERAL INFORMATION:

Provide the consumer with an easy, effective, economical and responsible way to control insect pests: That's the mission we set out to fulfill over 35 years ago.

This product is proven to catch the following species: Blue bottle fly, Green bottle fly, Bronze bottle fly, Black blow fly, Secondary screwworm Fly, Cluster fly, Flesh flies, House fly, and the Lesser house fly.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This is an outdoor [trap] [product]. Fill and use outdoors.

1. Cut plastic on top cap at dotted line.
2. Pull open and attach string or wire.
3. Add water to fill line on bag.
4. Hang trap outdoors near a fly source (garbage, compost pile, dog run, stable) to draw flies away from home entrances and outdoor living areas. Strong odor may occur if not placed in well-ventilated area.
5. Attractant pouch will dissolve and activate within 2-5 hours, creating an odor attractive to flies.
6. Replace trap when full, when contents dry out, or after 30 days - whichever comes first.
7. Close cap.
8. Deposit in trash for collection.
9. Wash hands with soap and water.

Helpful Hints: Weather conditions affect fly activity and trap effectiveness. In hotter temperatures, place traps in shade. In cooler temperatures, flies will be more active where it is warmer, so place traps in sun-exposed areas.

{Optional text:}

For more significant fly problems, look for the larger capacity Disposable Big Bag Fly Trap-1, Reusable POP Fly Trap-1, and Reusable Large Fly Trap-1.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry, well-ventilated location out of reach of pets and livestock.

DISPOSAL: Deposit in trash for collection. Wash hands with soap and water.
