AND POLLUTION PREVENTION

June 30, 2021

Ms. Georgia Anastasiou
Agent for Mint-X Corporation
Mint-X Corporation
c/o Lewis & Harrison, LLC
2461 S. Clark St., Suite 710
Arlington, VA 22202

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Update
Sublabels B and C to include racoons and squirrels
Product Name: Mint-X Multipurpose Flexible Plastic
EPA Registration Number: 85589-1
Application Date: February 24, 2020
OPP Submission Number: 1048379
OPP Case Number: 00074845

Dear Ms. Anastasiou:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration

Page 2 of 2

EPA Reg. No. 85589-1

OPP Submission No. 1048379

OPP Case No. 00074845

process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Nina Naimy via email at naimy.nina@epa.gov.

Sincerely,

Andrew Bryceland, Team Leader

[[40] [XX] bags fits up to [13] [33] [XX] gallons]

Directions for use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For management of trash disposal to reduce Norway Rats, Raccoons and Squirrels from damaging garbage bags when left outdoors. When used indoors, Mint-X Trash Bags may be used as a typical household trash bag. Efficacy improves with repetitive use at same location as rats, raccoons and squirrels learn to avoid Mint-X Trash Bags when used in and around the periphery of buildings, alleys or homes. Dispose of used trash bags as specified on this label.

Use this product as a typical trash bag.

[NOTE: To avoid danger of suffocation, keep all plastic bags away from babies and children. Do not use plastic bags in cribs, beds, [carriages] [strollers] or playpens.]

[Do not use for food storage]

Note: Bold, Italicized text is information for the reader and is not part of the label.

Storage and Disposal:

Do not contaminate water, food, or feed by storage and disposal. Dispose of used trash bags in accordance with state, local and federal regulations as ordinary trash.

Optional User Tips for Trash Bags:

[For Optimal (Best) Results] [Optimal (Best) Practice Tips]

[(User) Recommendations][Suggested User Tips]:

1. Mint-X Trash Bags become more effective with repetitive usage.
2. Use only Mint-X Trash Bags. Do not commingle with other non-Mint-X Trash Bags.
3. The mint scent of the Mint-X Trash Bags is strongest within 3-5 days of removing bags from box. For best results, the time from bag removal from box to trash pickup should not exceed 3-5 days. After 3-5 days, place trash into a “fresh” Mint-X Trash Bag prior to leaving outside for trash pickup.
4. Clean out any trash container or storage area before using Mint-X, as any food residue will still attract rodents.

For best results visit www.mint-x.com/best-practices or call 877 MINT BAG

his biggest customer. “Can’t you put something in your trash that keeps rodents away?”

That one question inspired the creation of an effective alternative to standard trash bags.

The infusion of essential oils that combine to form the special mint formula in Mint-X® trash bags smells pleasant to humans but is overwhelming to raccoons and rats because of the keen sense of smell.
