U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510-P)
1200 Pennsylvania Avenue N.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

- x Registration
Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

86145-6

Date of

Issuance:

Jan. 19, 2010

Term of Issuance:

Conditional

Name of Pesticide Product: Magnolia
Chlorinating Granules

Name and Address of Registrant (include ZIP Code):

JHK Distribution, Inc.
2352 John Street
Riverside, CA. 92503

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 417775) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 86145-A to EPA Registration Number 86145-6.

Submit one copy of the finished final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the conditionally approved label is enclosed for your records.

Signature of Approving Official:

Wanda Y. Henson
Acting Product Manager 32
Antimicrobials Division (7510-P)

**MAGNOLIA  
CHLORINATING GRANULES  
Dissolves Quickly & Completely  
Controls Algae & Bacteria**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

**If in Eyes:** Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth -to- mouth if possible.

Call a poison control center or doctor immediately for treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

DO NOT induce vomiting unless told to do so by poison control center or doctor.

Do not give anything by mouth to an unconscious person.

**If on Skin or Clothing:** Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

For assistance call 1-800-767-7665

**ACTIVE INGREDIENT:**

Sodium Dichloro-s-triazinetrione Dihydrate:....99.0%

**OTHER INGREDIENTS:**.....1.0%

**TOTAL:**.....100.0%

(Available Chlorine.....56%)

**See side/back panel for precautionary statements.**

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTICATED ANIMALS

**DANGER: CORROSIVE:** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using the toilet. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460° F TO 480° F WITH LIBERATION OF HARMFUL GASES.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

**IN CASE OF FIRE:** If possible, isolate container in open air or well ventilated area. Flood with large volume of water.

**IN CASE OF CONTAMINATION OR DECOMPOSITION:** Do not reseal container.

**Pesticide wastes are toxic substances. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for further guidance for its proper removal or disposal.**

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DANGER:** Never mix this concentrated chemical with any other substance except generous amounts of water. See CHEMICAL HAZARDS on this label. The use of MAGNOLIA CHLORINATING GRANULES also requires the one time use of MAGNOLIA STABILIZER CONDITIONER as described in the directions below under Start Up. This two-component system results in a longer-lasting chlorine residual and reduced chlorine consumption. Both products are completely soluble.

**VINYL-LINED POOL CARE:** Vinyl-lined pools are easily damaged by chemicals used to treat and maintain pools. MAGNOLIA CHLORINATING GRANULES are well suited for use in these pools, especially the above-ground pools which have 3-4 foot depths and are not equipped with a bottom drain. MAGNOLIA CHLORINATING GRANULES dissolves fast and completely (is easily pre-dissolved in a bucket of water to help avoid potential problems), so direct contact with the pool liner is reduced and there are not residues to be swept or vacuumed from the pool bottom. MAGNOLIA CHLORINATING GRANULES also simplifies pH control because it's pH neutral, compared to other forms of chlorinating products which contain calcium hypochlorite, sodium hypochlorite, and trichloroisocyanuric acid (NOTE: Insoluble crystal-forming reaction will result when using sodium bisulfate (dry pool acid) to adjust pH when used in conjunction with calcium hypochlorite).

MAGNOLIA CHLORINATING GRANULES will not cloud water even when super chlorinating which often occurs with calcium hypochlorite products.

JAN 19 2010  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, this product, for the pesticide, registered under  
EPA Reg. No. 80115-K-1

4094

**START UP:** Step 1. Condition pool water with MAGNOLIA STABILIZER CONDITIONER following directions on its label. Thereafter, regular use of MAGNOLIA CHLORINATING GRANULES alone will maintain proper stabilization. NOTE: Omit Step 1 if pool is already conditioned with a similar stabilizer. Step 2: Concurrently with Step 1, super chlorinate water by adding 12 oz. of MAGNOLIA CHLORINATING GRANULES per 10,000 gallons of pool water. See additional super chlorination instructions below.

**DAILY CARE:** After Step 1 and 2 above, regularly check chlorine residual with a test kit and chlorinate daily or as needed to maintain 1.0 to 1.5 ppm residual chlorine. NOTE: One ounce of this product per 5,000 gallons of pool water will increase an existing chlorine residual by 0.8 ppm (1/8 rounded measuring cup = 1 oz.). Broadcast MAGNOLIA

CHLORINATING GRANULES directly into the pool water. pH: Keep pH of water between 7.2 and 7.6. Use acid to lower pH and MAGNOLIA pH PLUS to raise pH.

**SUPER CHLORINATION:** Whenever the pool water loses its sparkle or turns green or the chlorine residual falls rapidly after regular chlorination, super chlorination is recommended. Experience shows that during summer months, water should be super chlorinated with 6 oz. of MAGNOLIA CHLORINATING GRANULES per 5,000 gallons of pool water every 10 to 14 days. Do not use the pool until the chlorine residual has dropped to 3 ppm.

**GENERAL:** The following tables are a handy reference to average chlorine requirements, but must not be substituted for regular use of a test kit since pools and conditions vary considerably. Test water frequently and chlorinate as needed. Anticipate increased chlorine consumption with increased swimming, hot water or weather, rain, a dirty or neglected pool, etc.

NOTE: Do not allow direct contact of this product on the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster. Product will bleach color out.

**TYPICAL DAILY DOSAGE (SUMMERTIME)**

After Steps 1 & 2:

In-Ground Pools - 7' to 9' DEEP

|                  |        |        |        |        |        |
|------------------|--------|--------|--------|--------|--------|
| Pool Size (Feet) | 14x28  | 16x32  | 17x34  | 18x36  | 20x40  |
| App Gal          | 15,000 | 20,000 | 25,000 | 30,000 | 35,000 |
| Dosage (ounces)  | 5-6    | 6-7    | 7-8    | 8-9    | 9-10   |

Above-Ground Pools - 3' to 4' DEEP

|                 |        |        |        |        |        |
|-----------------|--------|--------|--------|--------|--------|
| Pool Diameter   | 12 Ft. | 15 Ft. | 18 Ft. | 20 Ft. | 24 Ft. |
| Approx. Gallons | 2,500  | 4,500  | 7,000  | 9,000  | 13,000 |
| Dosage (ounces) | 3/4-1  | 1-2    | 2-3    | 3-4    | 4-5    |

**STORAGE AND DISPOSAL**

**STORAGE:** Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame.

**DISPOSAL:**

**IF EMPTY:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

**IF PARTLY FILLED:** Call your local solid waste agency or 1-800-CLEANUP for disposal instruction. Never place unused product down any indoor or outdoor drain.

**RESIDUE REMOVAL:** Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application tank or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.
