U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510-P)
1200 Pennsylvania Avenue N.W.
Washington, D.C. 20460

EPA Reg. Number: 86145-7
Date of Issuance: April 4, 2011

Term of Issuance: Conditional

Name of Pesticide Product: Magnolia 1" or 3" Chlorinating Tablets

NOTICE OF PESTICIDE:

[x] Registration
[] Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
JHK Distribution, Inc.
2352 John Street
Riverside, CA. 92503

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.
Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 443653) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 86145-T to EPA Registration Number 86145-7.
3. Put First Aid treatments in the following order: Eyes, Skin, Inhaled, Swallowed.
4. Revise precautionary statement to read: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
5. Under Chemical Hazards, use correct degree symbols
6. Change "the Magnolia Stabilizer" to "that product's".
7. Under Pool Startup, revise last sentence to read: Do not re-enter swimming pool until chlorine residual is 3 ppm due to risk of bodily harm.
8. Under the Storage and Disposal heading, add "Do not contaminate water, food, or feed by storage or disposal".
9. Change "If empty" sub-heading to "Container Handling" and insert "Triple-rinse container promptly after handling" as the third sentence.
10. Your product must be packaged, sold and distributed in packaging 50 pounds or greater since you did not submit the Child Resistant Packaging certification in support of the smaller sizes.

Submit one copy of the finished final printed label prior to releasing this product for sale. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the conditionally approved label is enclosed for your records.

Signature of Approving Official:
Wanda Y. Henson
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510-P)

Date: April 4, 2011

Magnolia
1" or 3" Chlorinating Tablets
 For control of Algae and Bacteria

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

If Inhaled: Move person to fresh air. If person is not breathing, Call 911 or an ambulance, than give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.

If on Skin or Clothing: Take off all contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

If in Eyes: Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container label with you when calling poison control center, or going for treatment.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

For assistance call 1 800-767-7665

ACCEPTED
 with COMMENTS
 m EPA Letter Dated:

APR 04 2011

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act,
 amended, for the purpose of
 registered under EPL No. 86145-7

Precautionary Statements:

Hazards to Humans and Domestic Animals

Danger: Corrosive Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling the product. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

Environmental Hazards: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards: Danger, Strong oxidizing agent, will burn with evolution of chlorine and equally toxic gases. Contact with water slowly releases irritating and hazardous chlorine containing gases. Decomposes at 460°F to 480°F with liberation of harmful gases. Mix only with water. Use clean dry utensils. Do not add this product in any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to the explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

In case of fire, if possible isolate container in open air or well ventilated area. Flood with large amount of water.

In case of contamination or decomposition, do not reseal container. Note: Do not allow this product on the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster. Product will bleach color out.

Directions for Use

It is violation of Federal Law to use this product in a manner inconsistent with its labeling. Magnolia 1" or 3" Chlorinating Tablets are slow dissolving chlorinating tablets for use in erosion feeders.

1. Remove everything and rinse the feeder and lines with fresh water. Never mix Magnolia 1" or 3" Chlorinating tablets with any other sticks, tablets or other chemicals.
2. Fill the feeder with tablets.
3. Adjust the feed rate so as to maintain a chlorine residual of 1.0 to 1.5 ppm.
4. Check the pH of the pool water daily and maintain the pH of water between 7.2 - 7.4.
5. If pool is not stabilized with cyanuric acid or equivalent, add stabilizer to a concentration of 30 ppm. Consult and follow the Magnolia Stabilizer label to maintain the proper level of stabilizer in the water.

Pool Startup and Heavy Bather Load: At the start of the swimming season, in filled pools, upon filling a pool and after heavy swimmer load, super chlorination (shocking) is necessary. Super chlorinate a freshly filled pool with Magnolia Chlorinating Granules. Follow the label instructions for proper results. The end result is to establish a chlorine residual of 1.0 -1.5 ppm. A liquid or granular chlorinating agent such as Sodium Hypochlorite, Calcium Hypochlorite or Sodium Dichloro-s-triazinetriene, which will dispense chlorine rapidly, should be used for superchlorination. Consult the label on Sodium Hypochlorite, Calcium Hypochlorite, or Sodim Dichloro-s-triazinetriene for superchlorination instructions. ~~The pool should not be used until the chlorine residual is less than 3 ppm.~~

Storage and Disposal: Do not re-enter swimming pool until chlorine residual is 1.5 ppm.

Storage: Keep product in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible, and flood with large amounts of water.

Disposal: Pesticide wastes are toxic substances. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticides or Environment Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for further guidance for its proper removal or disposal.

If empty: Non refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If Partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instruction. Never place unused product down any indoor or outdoor drain.

Residue removal: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour into application tank or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Do not contaminate water, food, or feed by storage or disposal.

Triple-rinse container promptly after emptying.
