U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Avenue NW
 Washington, D.C. 20460

EPA Reg. Number:

86801-1

Date of Issuance:

SEP 16 2013

Term of Issuance:

Unconditional

Name of Pesticide Product:

SwimCAS-Chlor

NOTICE OF PESTICIDE:

- Registration
- Reregistration
- (under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Commercial Aquatic Services, Inc.
 1332 Bell Avenue, 2-F
 Tustin, CA 92780

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The application referred to above, submitted under the Federal Insecticide, Fungicide and Rodenticide Act, as amended is acceptable under FIFRA sec. 3(c)(5), provided that you:

1. Submit and/or cite all data required for registration/re-registration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

A stamped copy of your labeling is enclosed for your records. You must submit one (1) copy of the final printed labeling before you release the product for shipment.

Signature of Approving Official:

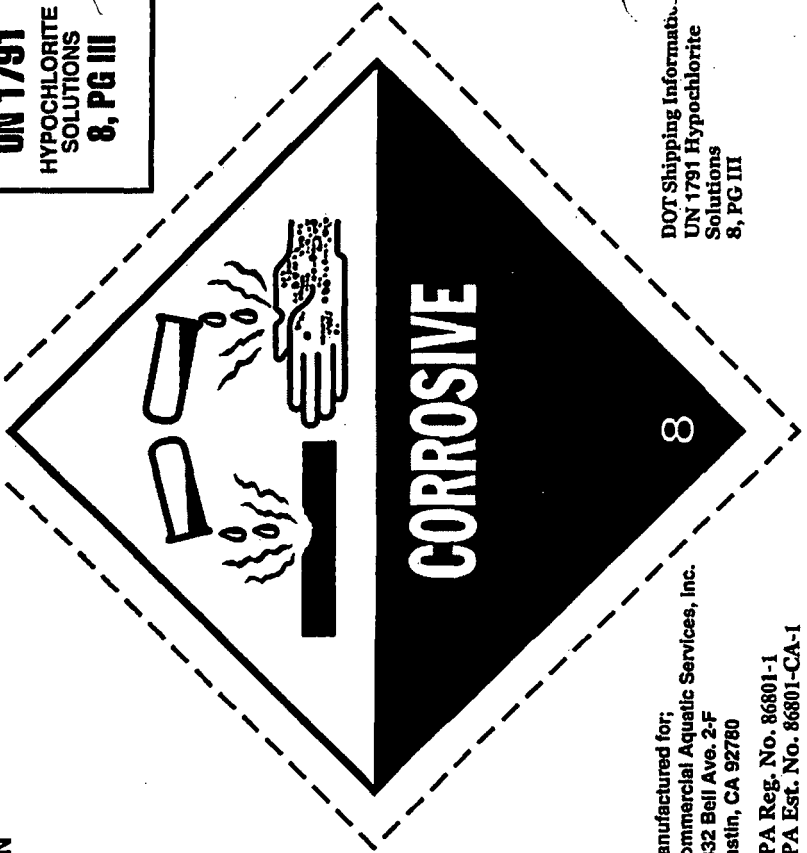

Demson Fuller,
 Acting EPA Product Manager 32
 Regulatory Management Branch II
 Antimicrobials Division (7510P)

Date:

SEP 16 2013

ACCEPTED
 SEP 16 2013
 Under the Federal Insecticide, Fungicide, and
 Rodenticide Act as amended, for the
 pesticide, registered under
 EPA Reg. No. 86801-1

IF IN EYES	FIRST AID * Hold eye open and flush slowly with water for 15-20 minutes. * Remove contact lenses, if present, after the first 5 minutes. * Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING	* Wash or decontaminate clothing. * Rinse skin immediately with plenty of water for 15-20 minutes. * Call a poison control center or doctor for treatment advice.
IF INHALED	* Move person to fresh air. * Call 911 or go to a hospital, show this product label to the attending physician. * If breathing is difficult, use artificial respiration, preferably mouth-to-mouth if possible. * Call a poison control center or doctor for further treatment advice.
IF SWALLOWED	* Call a poison control center or doctor immediately for treatment advice. * Have person sip a glass of water if able to swallow. * Do not induce vomiting unless told to do so by a poison control center or doctor. * Do not give anything by mouth to an unconscious person.
HOTLINE NUMBER Have the product container or label with you at all times. In case of emergency, call 1-800-424-9293 for more information or for treatment advice. You may also contact 1-800-424-9293 for more information or for treatment advice.	
NOTE TO PHYSICIAN Products released during use may contain the use of plastic linings.	

RESIDUE REMOVAL (PVC or Disposal): Clean the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. Triple rinse or pressure wash container as follows: Empty container into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Top container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment and repeat the process. Repeat the entire procedure for a second time. Empty the rinse into application equipment and continue to drain for 10 seconds after the first begins to drip. Hold container upside down over application equipment or mix tank or collect rinse for later use or disposal. Insure pressure rinsing occurs in the side of the container, and rinse the container and its openings thoroughly. Drain for 10 seconds after the flow begins to stop. Do not reuse this container for any other purpose. Place in trash or other for recycling if available.

DIRECTIONS FOR USE
 It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product degrades with age and exposure to sunlight and heat. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

SWIMMING POOL WATER DISINFECTION
NEW POOL OR SPAS: For a new pool or spa, start-up, super-chlorinate with 50 to 100 fl.oz. of this product per 10,000 gallons of water to obtain available chlorine by weight. Empty into treated pool is prohibited above levels of 4 ppm due to risk of bodily harm.

TESTING: Check the level of available chlorine with a test kit. Stabilized pools should maintain a residual of 1.0-1.4 ppm available chlorine. Adjust and maintain pool water pH between 7.2 and 7.8. Adjust and maintain the alkalinity of the pool to maintain the pH. Adjust and maintain pool water pH between 7.2 and 7.8. Adjust and maintain the alkalinity of the pool to maintain the pH. Adjust and maintain pool water pH between 7.2 and 7.8. Adjust and maintain the alkalinity of the pool to maintain the pH.

MAINTENANCE: Maintain the pool, add normally as by a feeder device 11 fl.oz. of this product for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0 ppm by weight. Test the pH, available chlorine residual and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon water conditions of the water.

SPAS, HOT TUBS
NEW SPA OR START UP: Apply 2 fl.oz. of product per 1,000 gallons of water to obtain a free available chlorine concentration of 3 ppm, as determined by a suitable chlorine test kit. Empty into treated spa is prohibited above levels of 5 ppm available chlorine. Adjust and maintain a residual of 1.5-5.0 ppm available chlorine. Adjust and maintain a residual of 1.5-5.0 ppm available chlorine. Adjust and maintain the alkalinity of the spa between 80 to 150 ppm.

MAINTENANCE: To maintain a residual of 1.5-5.0 ppm available chlorine, add 1 fl.oz. of product per 100 gallons of water over the surface to maintain a residual of 1.5-5.0 ppm available chlorine. Adjust and maintain a residual of 1.5-5.0 ppm available chlorine. Adjust and maintain the alkalinity of the spa between 80 to 150 ppm.

STORAGE: Keep this product in a tightly closed metal container, when not in use. Store in a cool, dry, well ventilated area, away from direct sunlight and heat to avoid deterioration. Do not combine water, food, or food by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL: Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides.

ENVIRONMENTAL HAZARDS
 This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, rivers, or other bodies of water. Do not discharge effluent containing this product into surface waters. Do not discharge effluent containing this product into surface waters. Do not discharge effluent containing this product into surface waters.

PHYSICAL AND CHEMICAL HAZARDS
STRONG OXIDIZING AGENT: Mix only with water according to label directions. Do not mix with other chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas, a poisonous gas.
STORAGE: Store in a cool, dry, well ventilated area, away from direct sunlight and heat to avoid deterioration. Do not combine water, food, or food by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL: Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides. Do not mix with other pesticides.
