 Office of Pesticide Programs
 Antimicrobials Division (7510-P)
 1200 Pennsylvania Avenue N.W.
 Washington, D.C. 20460

EPA Reg. Number: 86819-1	Date of Issuance: Dec. 2, 2010
Term of Issuance: Conditional	
Name of Pesticide Product: EvenXchange Sodium Hypochlorite Solution	

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

EvenXchange
17971 Sky Park Circle, Suite M
Irvine, CA. 92614

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 437247) is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 86819-R to EPA Registration Number 86819-1.
3. Obtain and add Establishment number(s).
4. Delete "...and Sanitizing" from your use description.
5. Change "Inert Ingredient" to "Other Ingredients."
6. Add "TOTAL 100.0%" under the ingredient statement so that the decimal places are in line.
7. Change "Directions for General Classification" to "Directions for Use."
8. Revise the re-entry instruction to "Re-entry into treated pools is prohibited at levels above 4 ppm due to risk of bodily harm."
9. Delete "See manufacturer for additional uses and directions."
10. Under Storage and Disposal, change the word "seed" to "feed."
11. Add the following instructions to the bottom of the Storage and Disposal instructions:
CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse the container (or equivalent), then offer for recycling if available, reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
12. Under Precautionary Statements change "restroom" to "the toilet."
13. Add your street name and number to provide a complete address for the manufacturer.
14. Your certification with respect to Child Resistant Packaging (CRP) has been reviewed and determined to be unacceptable. A copy of our review is enclosed. This means that your 1 gallon and 5 gallon products are not acceptable since swimming pool use is considered a residential use site. Your only approved container, the 15 gallon product, is exempt from CRP.

Submit one copy of the finished final printed label prior to releasing this product for sale. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the conditionally approved label is enclosed for your records.

EvenXchange Sodium Hypochlorite Solution

"FOR SWIMMING POOL CHLORINATION"
~~AND SANITIZING~~ delete

ACTIVE INGREDIENT:
SODIUM HYPOCHLORITE.....12.5 %
INERT INGREDIENTS..... 87.5 %
OTHER TOTAL 100.0 %

FIRST AID

KEEP OUT OF REACH OF CHILDREN

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical information.

NET CONTENTS 1.5 GALLONS

DIRECTIONS FOR USE ~~GENERAL CLASSIFICATION~~

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

SWIMMING POOL WATER DISINFECTION

For a new pool or spring start-up, superchlorinate with 52 to 104 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool, add manually or by a feeder device 11 oz. of this product for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0 ppm by weight. Stabilized pools should maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon temperature and number of swimmers.

Every 7 days, or as necessary, superchlorinate the pool with 52 to 104 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. ~~Do not re-enter pool until the chlorine residual is between 1.0 to 3.0 ppm.~~ Re-entry into treated pools

At the end of the swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate the pool within 24 hours prior to discharge.

WINTERIZING POOL- While water is still clear and clean, apply 3 oz. of product per 1,000 gallons, while filter is running, to obtain a 3 ppm available chlorine residual, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturers instructions.

~~See manufacturer for additional uses and directions.~~ delete

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved landfill. Product or rinsate that cannot be used should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food, or feed by storage, disposal or cleaning of equipment.

STORE IN UPRIGHT POSITION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes severe skin and eye irritation or chemical burns. Causes eye damage. May be fatal if swallowed. Wear safety glasses or goggles and rubber gloves when handling this product. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Do not breathe vapor or spray mist. Vacate poorly ventilated areas. Do not return until strong odors dissipate. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using ~~restroom~~ toilet. Remove and wash contaminated clothing ~~the~~ before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, pools, estuaries, oceans or other public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

is prohibited at levels above 4 ppm due to risk of bodily harm.
