

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

NOTICE OF PESTICIDE:

x Registration
Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

87273-1

Date of Issuance:

OCT 14 2010

Term of Issuance:

Conditional

Name of Pesticide Product:

Pro Chlor Granules

FILE COPY

Name and Address of Registrant (include ZIP Code):

Global Water Treatment Chemicals
524 North Main
Highlands, TX 77562

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 438137) is registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 87273-R to EPA Registration Number 87273-1.
3. Revise the First Aid Statements by changing the word "advise" to "advice" wherever it appears.
4. Revise the 'If on Skin or Clothing' section to read "If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice."
5. Move the statement "Do not chlorinate the pool within 24 hours prior to discharge." following the statement "...chlorine must be allowed to dissipate from treated pool water before discharge."
6. Revise the Storage and Disposal Statement by changing the statement "Do not contaminate food or fed by storage, disposal, or cleaning of equipment." to read "Do not contaminate food or feed by storage, disposal, or cleaning of equipment."

Signature of Approving Official:

Wanda Y. Henson
Acting Product Manager Team 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

OCT 14 2010

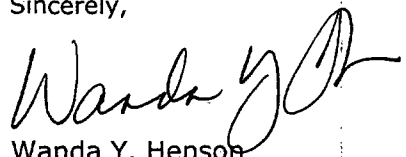

7. Revise the Storage and Disposal Statement by adding the heading 'Container Disposal' preceding the statement "Nonrefillable container."

Submit one (1) copy of your final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Wanda Y. Henson  
Acting Product Manager Team 32  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

**Directions for use**

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

**Swimming Pool Water Disinfection**

For a new pool start up. Add 10 to 20oz of Pro Chlor for each 10,000 gallons of water to yield 5 to 10ppm available chlorine by weight. Check the available chlorine with a test kit. Adjust and Maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool, add manually or by feeder devise, 2 oz of this product for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0ppm by weight. In stabilized pools maintain a residual of 1.0 to 1.5ppm available chlorine. Test the pH available chlorine residual and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon the temperature and number of swimmers.

Every 7 days, or as necessary, add 10 to 20 oz of this product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of chlorine with a test kit. Do not enter the pool until chlorine residual is between 1.0 and 3.0ppm. At the end of the pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge.

**Winterizing Pools**

While water is still clear and clean, apply 0.6 oz of this product per 1,000 gallons, while filter is running to obtain 3.0ppm available chlorine residual, as determined by a suitable test kit. Cover Pool, prepare heater, filter and heater components for winter by following manufacturers instructions.

Do not chlorinate the pool within 24 hours prior to discharge

**Storage and Disposal**

Do not contaminate food or fed by storage, disposal, or cleaning equipment.

**Pesticide Storage:** Keep this product dry in a tight closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flames. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container.

**Nonrefillable container:** Do not reuse or refill this container. **If empty:** Place in Trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

**Hazards to Human and Domestic Animals**

**DANGER:** Highly corrosive Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**Environmental Hazards**

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or regional Offices of the EPA.

**Physical or Chemical Hazards**

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well-ventilated area. Flood area with large volumes of water, if necessary.
