Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg.

Number:

87273-3

Date of Issuance:

OCT 14 2010

Term of Issuance:

Conditional

Name of Pesticide Product:

Tri Pro Tabs

FILE COPY

Name and Address of Registrant (include ZIP Code):

Global Water Treatment Chemicals
524 North Main
Highlands, TX 77562

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision No. 438135) is registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Change EPA File Symbol 87273-G to EPA Registration Number 87273-3.
3. Revise the Storage and Disposal Statement by changing the heading 'Container Disposal' to read 'Pesticide Disposal' and add the heading 'Container Disposal' preceding the statement "Nonrefillable container."
4. Revise the Precautionary Statements by changing the statement "Wear goggles, face shield or safety." to read "Wear goggles, face shield or safety glasses."

Signature of Approving Official:

Wanda Y. Henson
Acting Product Manager Team 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

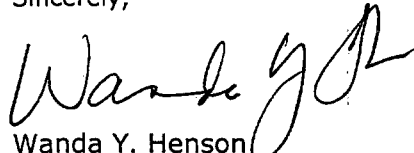

OCT 14 2010

Submit one (1) copy of your final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Wanda Y. Henson
Acting Product Manager Team 32

EPA Est. No. 87273-TX-001

Manufactured For Global Water Treatment Chemicals

Highlands, TX

ACCEPTED
with COMMENTS
in EPA Letter Dated:

OCT 14 2010

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 87273-3

Keep out of Reach of Children

DANGER

First Aid

If In Eyes: Hold Eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Swallowed:** Immediately call a poison control center or doctor for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies or pesticides incidents), call the National Pesticide Telecommunications Network at 1-800-858-7378

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage

See additional precautions on back panel

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

AUTOMATIC CHLORINATORS AND FLOATING CHLORINATORS: Add 3" TRI PRO TABS according to the directions on your chlorinators

CARTRIDGE CHLORINATORS: Remove top of cartridge and refill with 3" TRI PRO TABS. Follow the directions on the cartridge. **Important:** Allow the empty cartridge to dry before refilling.

DO NOT ADD 3" TRI PRO TABS DIRECTLY INTO THE POOL OR THE POOL SKIMMER AS DAMAGE WILL OCCUR

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

START-UP: 1. Adjust the pH to 7.2-7.8 (Ideal pH is 7.4 – 7.6), the total Alkalinity to 80-120ppm depending on type of primary sanitizer used (80-100ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120ppm for dichlor, trichlor, or bromine tablets) and calcium hardness to 200ppm minimum.

2. Superchlorinate with **PRO CHLOR** or **PRO SHOCK** granules to attain a Free Available Chlorine (FAC) level of 1.0-3.0ppm. Follow use of directions on those products.

ROUTINE USE: The amount of 3" TRI PRO TABS that must be added on a routine basis will vary with individual pool conditions such as bather load, water temperature, organic contaminants and other conditions. Normally 1 tablet per 10,000 gallons of pool water will be needed every week.

Maintain a Free Available Chlorine (FAC) level of 1.0-3.0ppm at all times. It may be necessary to increase the chlorinator feed rate or superchlorinate during heavy periods of use to maintain this FAC level. Maintain the pH between 7.2-7.8 (Ideal pH is 7.4-7.6), the total Alkalinity to 80-120ppm depending on type of primary sanitizer used (80-100 ppm for sodium hypochlorite, calcium hypochlorite or lithium hypochlorite and 100-120ppm for dichlor, trichlor, or bromine tablets) and calcium hardness to 200ppm minimum.

Test regularly with reliable test kit and make necessary adjustments using the appropriate pool care products. Reentry into treated swimming pools is prohibited above levels of 3.0ppm of chlorine due to risk of bodily injury.

ALGAE CONTROL: In case of algae, superchlorinate with **PRO CHLOR** according to the use directions on that product label. Pool should not be entered until chlorine level is below 3.0ppm.

Storage and Disposal

Pesticide storage: Do not contaminate water, food or feed by storage or disposal, or cleaning equipment. keep this product dry in a tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flames. Storage area should be locked and inaccessible to children.

Container disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Nonrefillable container: Do not reuse or refill this container. Place in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

Hazards to Human and Domestic Animals

DANGER: Corrosive: Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety. Wear protective clothing and gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or regional Offices of the EPA.

Physical or Chemical Hazards

STRONG OXIDIZING AGENT. Do not mix with other chemicals. Never add water to this product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). Avoid contact with flaming or burning material such as lighted cigarette. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well-ventilated area. Flood area with large volumes of water, if necessary.
