Subject: Label Amendment – To update the label language
Product Name: MonoFoil Screen/Glass Protectant
EPA Registration Number: 87538-3
Application Date: January 27, 2015
Decision Number: 499875

Dear Mr. Richardson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2
EPA Reg. No. 87538-3
Decision No. 499875

with FIFRA section 6. If you have any questions, please contact name by phone at number, or via email at last.first@epa.gov.

If you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347-0199 or Velma Noble at (703) 308-6233.

Sincerely,

A handwritten signature in black ink, appearing to read "V. Noble". The signature is fluid and cursive, with a large initial "V" and a long, sweeping underline.

Velma Noble

Product Name: MonoFoil Screen/Glass Protectant

Alternative Trade Names: ScreenDr., ScreenDoctor, MonoFoil Screen Cleaner, ElectricClean, KleanKlear, MonoFoil SGP, Surface Shield, KC Shield, DuraShield, Klean Guard

ACTIVE INGREDIENT: 3-(trihydroxyethyl) propyldimethylsilyloctadecyl ammonium chloride, 0.5%
 INERT INGREDIENTS: 99.5%
 TOTAL: 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

Have product container or label with you when calling Poison Control Center or doctor, or going for treatment.

- | | |
|--------------------|--|
| If in eyes: | -Hold eye open and rinse slowly and gently with water for 15-20 minutes.
-Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
-Call a Poison Control Center or doctor for treatment advice. |

PRODUCT FEATURES AND BENEFITS

(This product) is a durable, long-lasting Antimicrobial technology. (This product) cleans and protects your (electronic, Screens) (surfaces, devices). This mixture provides a long lasting durable protective barrier that is break free and fast drying. (This product) will not drip or damage screens, plastics, or delicate coatings on your surfaces and devices. (This product) utilizes an Antimicrobial polymer that provides freshness and combats deterioration and discoloration caused by odor causing bacteria, fungi and algae. Removes smudges, fingerprints, oils, grease and dirt with ease without harming the delicate coatings, and without alcohol or ammonia in one simple step.

Manufactured by:

Coeus Technology, LLC

INDUSTRIAL USE PRODUCTS

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluents containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. De-activation may be required during clean up if a spill occurs. De-activation of MonoFoil™ can be achieved by the addition of an anionic surfactant or detergent (such as soap, sulfones, or sulfates) in quantity equivalent to that of the active ingredient.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

FOR INDUSTRIAL USE: (This Product) is registered for formulation into Antimicrobial Products or as a microbiostatic agent for material preservation

Antimicrobial product formulations containing (This product) require approval by the US EPA for antimicrobial claims made. Formulators are responsible for satisfying registration requirements for their formulated products.

(This product) is registered as a microbiostatic agent for material preservation; neither this product nor the articles treated with this product may state or imply any public health claims. Articles or substances treated with this product will be exempt from PFRA regulation pursuant to 40 CFR 152.25(a) if the intended use for incorporating this material into a treated article or substance is for the protection of the article or substance itself.

(This Product) can be applied to organic or inorganic substrates by brushing, dipping, padding, soaking, spraying or by using foam finishing techniques. Clean surfaces of debris prior to application

APPROVED USES: (This Product) may be applied to or incorporated into manufactured products listed below for use in industrial, commercial or residential locations for non-food contact uses.

The active ingredient in (This product) is effective against odor causing bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration, and algae as a static agent. (This product) can be used as a final bacteriostatic finish on the following items to impart bacteriostatic/fungistatic (mold and mildew) and algistatic activity.

Electronics, screen surfaces, and devices, plastics, fiber glass, metals, glass, ceramics, natural material, composites: automotive and vehicular parts, furniture, bathroom and non-food contact kitchen hardware; fixtures; sheet and formed glass, wood, ceramics, stone, natural material, composites; Including air filters for furnaces, air conditioners, air purification devices, automobiles, and reticulating air handling systems; aquarium filter; automotive and vehicular parts; roofing materials (tiles, shakes, shingles, granules, stone, membranes, stainless steel felt, underlayment and synthetic overcoats); building materials and components (including siding, wallboard, wood composites, insulation and non-food contact cabinetry); ceiling tiles; concrete products; dry concrete and grout mixes; non-food contact conveyor and humidifier belts; non-food contact countertops; fiberglass duct board for air handling systems; floor covering; flooring; general purpose (non-food contact) containers; furniture; bathroom and non-food contact kitchen hardware; mats; plumbing supplies and fixtures; sheet and formed glass, mops; vacuum cleaner bags and

filters; foam for packaging and cushioning in non-food contact applications.

Fibers, fabrics (natural and synthetic, woven and non-woven), leather and household materials (natural and synthetic): Including buffer pads (abrasive and polishing); mattress cover pads, filling and ticking; pillow covers; sheets; blankets; bedspreads; fiberfill for upholstery, apparel, recreational gear, quilts and pillows; curtains; draperies; carpet and carpet underlay; rugs; upholstery; towels; shower curtains; toilet tank and seat covers; wall covering fabrics and wallpaper (including vinyl) for non-food contact surfaces; umbrellas; fire hose fabric; non-woven disposable diapers; wiping cloths; pre-moistened towlelets and tissue wipes (these do not impart pesticidal properties); apparel including outer-wear, sportswear, sleepwear, socks, hosiery, undergarments, gloves and uniforms; footwear (boots, shoes and components); sports equipment and athletic gear; cloth for sails, ropes, tents and other outdoor equipment; sand bags; tarps; awnings; book covers; pictures.

<<BACK PANE, SIDE PANEL OR LABEL INSERT>>

HOW TO USE:

MSDS INFORMATION: BEFORE HANDLING, READ PRODUCT AND MATERIAL SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE. PHYSICAL AND HEALTH HAZARD INFORMATION. THE MATERIAL SAFETY DATA SHEET CAN BE OBTAINED BY WRITING TO COEUS TECHNOLOGY OR BY CALLING (765) 203-2304.

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

(This Product) Antimicrobial can be applied to organic and inorganic surfaces as a dilute aqueous solution to give 0.04 to 0.4 percent by weight of active ingredients. Aqueous solutions can be prepared by simply adding the antimicrobial to water with stirring. **NOTICE:** Poor agitation when adding this silane to water can result in locally high concentration, which may form gel particles. Surfaces can be treated with the aqueous solution by brushing, dipping, padding, soaking, spraying until adequately wet or applying by foaming techniques.

After applying treatment, the surface should be allowed to dry at temperatures from ambient to a maximum of 160°C (320°F) to effect complete condensation of silanol groups and to remove water, solvents and/or traces of methanol from hydrolysis. Curing of polymer may be accelerated or enhanced with heat or catalysis. For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply (This Product) Antimicrobial if odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

Incorporate (This Product) Antimicrobial directly into formulations used to make end-use products, or dilute with water and then apply it to the organic and inorganic surfaces to give 0.04 to 0.4 percent by weight of active ingredient.

COMMERCIAL USE PRODUCTS

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.

De-activation of MonoFoil™ can be achieved by the addition of an anionic surfactant

or detergent (such as soap, sulfones, or sulfates) in quantity equivalent to that of the active ingredient.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

FOR COMMERCIAL APPLICATIONS (IN HOMES, OFFICES, AUTOMOBILES AND INSTITUTIONS):

(This product) is registered as a microbistatic agent for material preservation; neither this product nor the articles treated with this product may state or imply any public health claims. Articles or substances treated with this product will be exempt from FIFRA regulation pursuant to 40 CFR 152.25(a) if the intended use for incorporating this material into a treated article or substance is for the protection of the article or substance itself.

APPROVED USES: (This product) is effective against odor causing bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration, and algae as a static agent. (This product) can be used as a final bacteriostatic finish on the following items to impart

bacteriostatic/fungistatic (mold and mildew) and algistatic activity

Carpet, Draperies and Upholstery, Furniture, bedding and linens, shoes and apparel, Book Covers, and Pictures, Plastics, fiberglass, metals, glass, wood, ceramics, stone, natural material, composites; Including air filters for furnaces, air conditioners, air purification devices, automobiles, and reticulating air handling systems; aquarium filter; automotive and vehicular parts; roofing materials (tiles, shakes, shingles, granules, stone, membranes, felt, underlayment and synthetic overcoats); building materials and components (including siding, wallboard, wood composites, insulation and non-food contact cabinetry); ceiling tiles; concrete products; dry concrete and grout mixes; non-food contact conveyor and humidifier belts; non-food contact countertops; concrete, chrome, stainless steel, fiberglass, vinyl, porcelain, fabric and paper wall covering; wood and glass fixtures, marble, aluminum, and non-food contact cabinetry.

HOW TO USE:

MSDS INFORMATION: BEFORE HANDLING, READ PRODUCT AND MATERIAL SAFETY DATA SHEETS AND CONTAINER LABELS FOR SAFE USE, PHYSICAL AND HEALTH HAZARD INFORMATION. THE MATERIAL SAFETY DATA SHEET CAN BE OBTAINED BY WRITING TO COELUS TECHNOLOGY OR BY CALLING (765) 203-2304.

Wear protective eyewear (goggles or face shield) and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

(This Product) Antimicrobial can be applied to organic and inorganic surfaces as a dilute aqueous solution to give 0.04 to 0.4 percent by weight of active ingredients. Aqueous solutions can be prepared by simply adding the antimicrobial to water with stirring. **NOTICE:** Poor agitation when adding this silane to water can result in locally high concentration, which may form gel particles. Surfaces can be treated with the aqueous solution by brushing, dipping, padding, soaking, spraying until adequately wet or applying by foaming techniques.

After applying treatment, the surface should be allowed to dry at temperatures from ambient to a maximum of 160°C (320°F) to effect complete condensation of silanol groups and to remove water, solvents and/or traces of methanol from hydrolysis. Curing of polymer may be accelerated or enhanced with heat or catalysis. For each application, determine optimum application and drying conditions, such as time and temperature before use. If desired, reapply (This Product) Antimicrobial if odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

Incorporate (This Product) Antimicrobial directly into formulations used to make end-use products, or dilute with water and then apply it to the organic and inorganic surfaces to give 0.04 to 0.4 percent by weight of active ingredient.

Commercial Spray Equipment: Using pump sprayer, spray entire area 4" - 6" from the surface making sure the surface is completely covered. Use a clean

cloth or microfiber cloth to evenly wipe (This product) over the entire surface. Let stand until dry or let stand 3 minutes and wipe with clean cloth or microfiber cloth. One gallon of (This Product) Antimicrobial treats approximately 200 square feet. When treating coarser substrates, more (This product) may be required due to absorption.

Pump Spray Application: Using pump sprayer, spray entire area 4" - 6" from the surface making sure the surface is completely covered. Use a clean cloth or microfiber cloth to evenly wipe (This product) over the entire surface. Let stand until dry or let stand 3 minutes and wipe with clean cloth or microfiber cloth. One gallon of (This Product) Antimicrobial treats approximately 200 square feet. When treating coarser substrates, more (This product) may be required due to absorption.

For Dipping/Soaking Application: Use appropriate sized washbasin or tub for dipping/soaking the item you are treating. Use enough (This product) solution to completely submerge item. Completely submerge item in solution for 3 minutes. Remove item and dry. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking. The substrate can be dried at room temperatures or at temperatures to a maximum of 160°C (320°F).

For each application, determine optimum application and drying conditions, such as time and temperature, before use. If desired, reapply (This Product) if odor, staining and discoloration due to bacteria, mold or mildew occur.

FOR CONSUMER USE PRODUCTS

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

Wear safety glasses and rubber gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

WASHABLE LINENS, DRAPERIES, FABRIC, BEDDING AND APPAREL:

Dipping/ Soaking: Use a wash tub or machine for soaking the items you are treating. Always treat only clean items and use only fresh rinse water.
Wash Tub: Use washbasin or tub big enough to completely soak the item you are treating. Completely submerge items in solution for 3 minutes. Remove items and dry. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping / soaking. The substrate can be dried at room temperature or in clothes dryer at the appropriate setting for the items.

Washing Machine: Clean items first. Then run only rinse cycle. Add 2 ounces of (This Product) for small, 3 ounces for medium or 4 ounces for large load settings on the machine. Run the full rinse cycle to treat the fabrics, then allow to dry overnight or use a dryer under the appropriate heat setting for the fabrics being treated. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application.

Spray: Clean items prior to application. Shake well. Using trigger pump sprayer or pressure sprayer, spray entire surface area 4" - 6" from the surface making sure the surface is completely covered. Let stand until dry or dry under the appropriate heat setting for the fabrics being treated. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabric by treating and drying a small-concealed area prior to application. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

CARPET AND UPHOLSTREY / FURNITURE:

Spray: Always apply only to clean surfaces. Apply to carpet and furniture using a trigger pump sprayer or pressure sprayer, spray entire surface area 4" - 6" from the surface making sure the surface is completely covered. Let stand until dry or dry under the appropriate heat setting for the fabrics being treated. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabric by treating and drying a small concealed area prior to application. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

FOR BATHROOM AND NON-FOOD CONTACT BUILDING

SURFACES (including tubs and showers, tiles, vanity tops, shower curtains, grout, sinks, washable walls, wall paper, floors, window sills, concrete or stone surfaces and garbage cans).

Spray: Clean items prior to application. Shake well. Using trigger pump sprayer or pressure sprayer, spray entire surface area 4" - 6" from the surface making sure the surface is completely covered. Allow to dry thoroughly before use. If spotting occurs, wipe with moist cloth or sponge.

GROUT AND CEMENT MIX ADDITIVE:

For use as a grout or cement additive, add (This Product) Antimicrobial directly to the dry mix during the grout or cement preparation. Use 25 fluid ounces of (This Product) per 5 pounds of dry grout mixture. Follow directions for grout or cement, using (This Product) Antimicrobial as part of the added water. Addition of (This Product) inhibits the growth of odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew), and algae on the surface of the cured grout.

FILTERS AND FILTER MATERIAL (Aquarium filters, vacuum cleaner filters and air):

Clean items prior to application. Shake well. Using trigger pump sprayer or pressure sprayer, spray entire surface area 4" - 6" from the surface making sure the surface is completely covered. Allow to dry thoroughly before use.

OPTIONAL MARKETING LANGUAGE

(This Product) is a fast, easy, and affordable solution for treating surfaces against staining and discoloration caused by mold and mildew. It helps in the fight to clean and prevent mold and mildew on treated surface inside and outside your home.

- For use in Bathrooms
- For use in Non-Food Contact Kitchen Surfaces
- For use on Linens
- For use on Draperies
- For use on Fabrics
- For use on Apparel
- For use on Carpets
- For use on Bedding
- For use on Upholstery / Furniture
- For use on Roofs
- For use on Air Filter materials

- Will not damage delicate coatings
- Imparts microbiostatic properties
- Water-Based & Odor Free
- Works continuously
- Prevents mold and mildew stains and odors on treated surfaces
- (This Product) makes surfaces cleaner to touch.
- Specially formulated (This Product) reduces the growth of odor and stain causing microorganisms on surfaces.
- Creates an invisible barrier that inhibits the growth of odor-causing bacteria on treated surfaces

- Protects indoors and out!
- Creates a protective barrier
- Inhibits deterioration caused by bacteria on treated surfaces.
- Resists development of microbial odors on treated surfaces.
- Resists development of stains and discoloration due to bacteria on treated surfaces.

for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Pails, Drums and Intermediate Bulk Containers (IBCs):

Storage: Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with its use and away from food or feed. Keep tightly closed until ready to use. Reclose tightly after each use. When stored in original, unopened containers at or below 25°C (77°F), (This Product) has a minimum shelf life of 12 months from date of shipment.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: REFILLABLE CONTAINER. Refill this container with 3-(trihydroxyisyl) propyl(dimethyl octadecyl ammonium chloride only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Then offer for recycling, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

NOTICE: Coeus Technology warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated in the labeling when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to written instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. **COEUS TECHNOLOGY SPECIFICALLY DISCLAIMS ANY OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING THE WARRANTY OF MERCHANTABILITY.**

- Resists development of stains due to fungi (mold and mildew) which cause staining and discoloration on treated surfaces.
- Resists stains due to algae on treated surfaces.
- Resists development of microbial odors due to bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration and algae on treated surfaces.

- If necessary, reapply (This product) every (3, 7, 30) days or when odor, staining and discoloration due to bacteria, mold stains, mildew stains, and algae stains return.

-Inhibits the growth of odor causing bacteria between cleanings on treated surfaces.

-Inhibits the growth of bacteria which cause staining and discoloration between cleanings on treated surfaces.

-Inhibits the growth of fungi (mold and mildew) which cause staining and discoloration between cleanings on treated surfaces.

-Inhibits the growth of algae between cleanings on treated surfaces.

-Inhibits the growth of odor causing bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration and algae between cleanings on treated surfaces.

-Mold, mildew, odor protector and inhibitor on treated surfaces.

-(This Product) is an antimicrobial agent effective against odor causing bacteria on treated surfaces .

-(This Product) is an antimicrobial agent effective against bacteria which cause staining and discoloration on treated surfaces .

-(This Product) is an antimicrobial agent effective against fungi (mold and mildew) which cause staining and discoloration on treated surfaces .

-(This Product) is an antimicrobial agent effective against algae.

-(This Product) is an antimicrobial agent, controls the source of odors on surfaces.

-Make surfaces cleaner, tougher by using (this product)

-(This product) helps protect touch products against common odor and stain causing microorganisms.

-(This product) antimicrobial protects the surface

-Bacteriostatic, fungistatic (mold and mildew), algistatic.

-Effective on modern hard non-porous washable surfaces like fiberglass, glazed porcelain, stainless steel, synthetic marble, Formica®, glass

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

For household / residential use packages:

Use By: _____

Storage and Disposal: Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with its use. Keep tightly closed until ready to use. Reclose tightly after each use. When stored in original, unopened containers at or below 25°C (77°F), (This Product) has a minimum shelf life of 12 months from date of shipment. Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

For Industrial and commercial use packages:

Small packages: (1 gal or less)

Storage: Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with its use and away from food or feed. Keep tightly closed until ready to use. Reclose tightly after each use. When stored in original, unopened containers at or below 25°C (77°F), (This Product) has a minimum shelf life of 12 months from date of shipment.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Non-refillable container. Do not reuse or refill this

container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer
