FILE COPY

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

A. Add the phrase "EPA Registration Number 87966-2"

Signature of Approving Official:

Wanda Henson
Acting Product Manager-32
Regulatory Management Branch II
Antimicrobials Division (7510P)

Date:

DEC - 9 2010

- B. Revise the proposed precautionary language to read as follows:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. Harmful if swallowed. Do not get in eyes or on clothing. May be fatal if inhaled. Avoid breathing dust or fumes. Wear protective eyewear (goggles and face shield). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear chemically resistant coveralls (or apron) over long-sleeved shirt and long pants, socks, shoes, and chemical resistant gloves (Butyl Rubber and Nitrile Rubber). Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to the toilet. Remove and wash contaminated clothing before reuse.

- C. Insert under the First Aid Statement, subheading Hotline Number before "Manufacturer Hot Line# 1-800-822-5387", as follows:

For emergency information on [product, use, etc.], call the National Pesticides Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific time (PT), seven days a week. Other times, call the poison control center 1-800-222-1222.

- D. Revise the "Storage and Disposal" instructions (for the various containers used) as follows:

"STORAGE AND DISPOSAL"

Do not contaminate water, food or feed by storage or disposal

[Subheading.] **Pesticide Storage:** Keep this product in a tightly closed container, when not in use. Store in cool, dry, and well-ventilated area away from heat and open flame. Retie polyethylene liner after each use and keep container tightly closed. In case of decomposition or spill isolate container in open area if possible and flood with large amounts of water to dissolve all material before discarding this container in trash.

[Subheading] **Pesticide Disposal:**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance. The disposal methods are incinerations or chemical treatment in accordance with Federal, State and Local regulations. **DO NOT** put product, spilled products, or filled or partially filled containers into trash or waste compactor. Contact with incompatible materials could cause a reaction and fire. Neutralize material to a non-oxidizing state for safe disposal.

[Subheading] **Container Handling and Disposal**

[Specify separate instructions for Household/Residential Products and for Commercial/Industrial/Institutional Products]

[For Household/Residential Products]

[For rigid nonrefillable container less than 5 gallons]

Container Handling: Nonrefillable rigid container. Do not re-use or refill this container. Triple rinse (or equivalent), promptly after emptying. Offer for recycling, if available, or throw in trash.

[For Commercial/Industrial/Institutional Products]

[For rigid nonrefillable container greater than 5 gallons]

Container Handling: Nonrefillable rigid container. Do not re-use or refill this container.

[Describe how to manage, clean and dispose of the rigid container see PR 2007-4]

{Triple rinsing when contaminated with product} **Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay of smoke**

[For Refillable Container]

Container Handling: Refillable Container. Refill this container with Trichlor Tablet Granular product only. Do not reuse this container (drum) for any other purpose. "Cleaning the container before final disposal is the responsibility of....."

[Describe how to manage, clean refillable rigid container, and dispose of the rigid container see PR 2007-4]

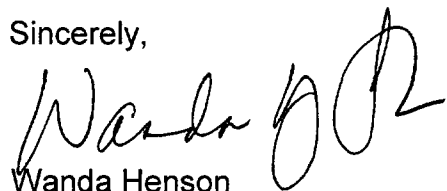

E. Delete statement "formulation repacked" in column 10 of the Confidential Statement of Formula dated November 14, 2010.

Please submit three (3) copies of the corrected final printed label prior to releasing this product for sale and distribution.

If the above noted conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Wanda Henson
Acting Product Manager 32
Regulatory Branch II
Antimicrobials Division (7510P)

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air, if person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HOTLINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Manufacturer Hot Line# 1-800-822-5387.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

SPECIAL PRECAUTIONS

PLEASE READ BEFORE OPENING CONTAINER FOR THE PREVENTION OF PHYSICAL INJURY

- 1. This product emits a powerful chlorine gas. Do not open container indoors: Hold away from face when opening to avoid breathing fumes.
- 2. This product is dangerous when not used properly:

MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION RELATED COMPLICAITONS & MAY LEAD TO DEATH

Do not mix with any other chemicals. Mixing with other chemicals may cause a violent and instantaneous chemical reaction.

Do not add water to this product. Do not add this product to water in a pail.

Do not take advice from others.

Do not experiment.

Follow label instructions exactly.

PREVENTION OF PROPERTY DAMAGE:

Contact between this product in its undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result n permanent bleaching of color.

TRICHLOR TABLETS

ACTIVE INGREDIENT

Trichloro-s-triazinetriene *99.0%

INERT INGREDIENTS 1.0%

TOTAL 100.0%

*Provides 90% Available Chlorine

**ACCEPTED
with COMMENTS
in EPA Letter Dated:
DEC - 9 2010**

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.

E.P.A. EST. NO.

Net Wt. 110 lbs. (50 kg.)

These tablets are manufactured with the most concentrated form of dry chlorine available today. They are consistent in size and slow dissolving in nature to allow you to reliably dose your pool once a week. These tablets contain cyanuric acid – a stabilizer that prevents ultra violet light from removing available chlorine from the pool. These tablets allow you to easily maintain proper chlorine residual s and help you to effortlessly produce beautiful, clean sparkling water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Adjust water pH to 7.2-7.6 as determined by a test kit. For pools with copper plumbing best pH factor is 7.6-7.8.

2. If the pool has not been previously stabilized add Conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.

UNSTABILIZED POOLS: Follow steps 1 and 2 and then add two (2) tablets per 6,500 gallons of pool water to establish a chlorine residual of 1.0-1.5 ppm as determined by test kit. Repeat dosages as needed to maintain a residual of 1.0-1.5 ppm at all times.

Thereafter, add 1 tablet per 6,500 gallons per week or as needed to maintain chlorine residual of 1.0-1.5 ppm at all times as determined by test kit.

STABILIZED POOLS: Follow step 1 and then add 1 tablet per 6,500 gallons per week or needed to maintain a chlorine residual of 1.0-1.5 ppm at all times as determined by a i.

kit. Maintain some flexibility in dosing your pool as chlorine demand will vary depending upon factors such as air and water temperature, bather load, frequency and intensity of rain or thunder storms and pool exposure. Shock your pool weekly during hot weather and less frequently in cooler periods according to instructions provided with the chosen product.

Pool should not be entered until the chlorine residual is below 3.0 ppm.

Application should be made using one of the following methods:

FLOATING CHLORINATOR: Load floating chlorinator with prescribed dosage as per instructions on that chlorinator. Allow chlorinator to float freely in pool. Increase chlorination by increasing dosage or by securing chlorinator in an area of less agitation.

SKIMMER METHOD: Empty the skimmer of all chemicals and/or debris. Place prescribed dosage into skimmer basket. Length of filtration cycle will influence the rate at which the tablets dissolve.

IN-LINE EROSION CHLORINATOR: Load prescribed dosage into chlorinator according to instructions supplied with the chlorinator. Adjust the chlorinator control valves to always maintain the desired chlorine residual.

Please Note: The pH of these tablets is on the acid side and will tend to reduce the pH and alkalinity of pool water. Proper pH should be maintained at 7.2-7.6, through periodic additions of sodium carbonate or sodium hydrogen carbonate.

Each tablet weighs 200.0 grams (7.0 ounces)

POOL GALLON CALCULATOR

(all dimensions in feet)

Square or Rectangular:

Length x Width x Average Depth x 7.5 = Gallons

Round or Oval:

Length x Width x Average Depth x 5.9 = Gallons

STORAGE AND DISPOSAL: Keep material dry in tightly closed container when not in use.

Store in cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.
