Subject: PRIA Label Amendment – Signal word change supported by acute toxicity data
Product Name: 2.2% Sodium Hypochlorite Solution
EPA Registration Number: 88049-2
Application Date: March 9, 2016
Decision Number: 515188

Dear Mr. Poirier:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Donna Kamarei at (703)347-0443 or via email at Kamarei.donna@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Wanda G. Fuller, for".

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals

CAUTION. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Causes moderate eye irritation.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards

This product contains bleach. Mixing this product with any other cleaning products such as ammonia, toilet bowl cleaners, or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

Cleans and Disinfects

[*The following must appear on the label:*] Effective against Salmonella enterica (ATCC 10708), and Staphylococcus aureus (ATCC 6538) in 30 seconds.

[*Optional*]: Effective against Influenza A Virus (ATCC VR-1469) and Rhinovirus type 37 (ATCC VR-1147) in 30 seconds.

[*Optional*]: Effective against Aspergillus niger (mildew) and Trichophyton mentagrophytes (athlete's foot fungus) on hard non-porous surfaces in 10 minutes.

For use in the home [*optional*: schools, offices, and institutions.]

- [Optional Claims]:
- With bleach
- Disinfects [with bleach]
- Kills mildew and cleans soap scum
- Kills athlete's foot fungus on hard non-porous surfaces
- Removes bathroom stains
- Removes stains & disinfects
- Degreaser
- All Purpose Cleaner with Bleach
- Contains Chlorine Bleach
- Removes tough stains & disinfects
- Deodorizes
- Deodorizes and has a fresh scent
- Cuts through grease and grime
- Removes tough stains, grease and deodorizes with a fresh scent
- Removes stains and soap scum from sealed grout, glazed ceramic tile and plastic without scrubbing.
- Tough on Mildew Stains
- Soap Scum Remover is specifically formulated for use on: washable bathroom & kitchen surfaces and fixtures that would not be damaged by bleach - including tile, sealed grout, tub, sinks, toilet bowls, shower walls & doors, vinyl shower curtains, vinyl bath mats, fiberglass, plastic & vinyl outdoor and patio furniture, pool & spa tile.
- To remove mildew stains: spray product onto stains and wait until stains disappear, then rinse well. To remove tough stains and soap scum: spray product onto stains and soap scum. Let stand for several minutes. Wipe with sponge and rinse well.
- Mold & Mildew Remover
- Mildew & Soap Scum Remover

- Soap Scum Remover
- Dissolves Tough Soap Scum
- Stain & Grease Remover
- Bleaching action makes tough stains & grease disappear
- Removes stains and cleans surfaces
- Cleans & deodorizes surfaces
- Great for cleaning glazed porcelain, glazed ceramic and plastic laminates.
- Rinse or wipe clean.
- Store and transport in an upright position.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Read entire label before use.
2. Turn nozzle to on position.
3. [Use only in well ventilated areas.] or [Use in well ventilated areas. Avoid prolonged breathing of vapor.]
4. Reclose sprayer for storage.
5. Wash hands after use.

Use to Clean and deodorize bathroom tile, grout, fiberglass showers, vinyl bath mats and shower curtains, garbage cans, diaper pails, and to prepare surfaces for painting. Spray directly on area to clean and wait a few minutes for stains to disappear. For soap scum, allow to penetrate (but not dry) and wipe clean. Rinse and repeat if necessary.

Use to Disinfect and deodorize hard non porous surfaces made of plastic, vinyl, Formica, glass, and glazed ceramic, glazed porcelain, baked enamel, and sealed stone including bathroom floors, glazed tile, outside surfaces of toilet, sinks, diaper pails, garbage cans, kitchen counters and floors. Remove gross filth or heavy soil prior to disinfecting. Spray surface until thoroughly wet, allow to stand for 30 seconds. Rinse and air dry.

To kill mildew and athlete's foot fungus on hard non-porous surfaces, allow product to stand for 10 minutes before rinsing.

Avoid contact with wood or painted surfaces you do not intend to repaint. **Avoid contact with metal or unglazed porcelain.** Do not allow this product to come in contact with clothing, carpeting, or other fabrics which may become discolored or damaged.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal, or cleaning of equipment.

Pesticide Storage: Store this product in a cool dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood areas with large quantities of water.

Pesticide Disposal: Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Then, offer for recycling, if available, or place in trash collection.
