Subject: Subject: Notice of Extension of Conditional Registration until November 20, 2026
Product Name: Zeronil Plus Spot-On Solution for Dogs
EPA Registration Number: 88051-6
Application Dates: 9/23/2020; 10/18/2022; 6/26/2024
Case Number: 482856; 606216; 619805

Dear James Messina:

This letter is in reference to your request to extend the conditional, time-limited registration for the above referenced registration. The above-referenced registration contains conditions calling for the registration to expire after two years. But for limited Agency resources, your request would have been granted prior to the expiration date. Additionally, your company is required to adhere to the spot-on label mitigation, and to submit quarterly enhanced incident reports and quarterly sales information for the above-referenced registration.

The Agency has found your company to be in compliance with the terms and conditions for the subject products. Confirmation was received via email (dated 10/19/2023) that Chanelle Pharmaceuticals Manufacturing Ltd. has yet to manufacture and release for shipment these registered products. The Agency is therefore granting the requests to extend the two-year time-limited registration restrictions. As such, the following change is being made to the terms and conditions for the products listed above:

- **The two-year time-limited registration restriction has been extended. The new expiration date for the registrations listed above is November 20, 2026.**

Please note that the product is still subject to all other previously required conditions of

registration. If you have any questions, please contact, Debra Rate by phone at (202) 566-2867 or by email at rate.debra@epa.gov.

Sincerely,

Debra Rate, Ph.D.
