OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: Pooline Jumbo Tabs
EPA Reg.#: 88346-2
Application Date: February 21, 2012
Receipt Date: February 22, 2012

Dear Mr. Wang:

This acknowledges the receipt of your Amendment application dated February 21, 2012 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended.

Proposed Label Amendment:

To amend minor labeling claims for Pooline Jumbo Tabs product (EPA Reg#88346-2; original label pin punch 2/22/12 and an updated label pin punch 05/10/12).

General Comment:

Based on the review of the material submitted, the amended label is acceptable with comment: Arrange First Aid Statement in the order of the most severest to less toxicity. Thus, reorder to read "If in Eyes", "If on Skin or Clothing", "If Swallowed" and "If Inhaled".

A copy of the accepted stamped label with comment is enclosed for your record. Please submit one copy of your final printed label/labeling before distributing or selling the product bearing the revised label/labeling. This amendment and this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact liem.david@epa.gov or call at (703) 305-1284.

Sincerely

Monisha Harris
Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

Att: Accepted stamped label

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. Harmful if swallowed. Do not get in eyes or on clothing. May be fatal if inhaled. Avoid breathing dust or fumes. Wear protective eyewear (goggles and face shield). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear chemically resistant coveralls (or apron) over long-sleeved shirt and long pants, socks, shoes, and chemical resistant gloves (Butyl Rubber and Nitrile Rubber). Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

SPECIAL PRECAUTIONS

PLEASE READ BEFORE OPENING CONTAINER FOR THE PREVENTION OF PHYSICAL INJURY

- 1. This product emits a powerful chlorine gas. Do not open container indoors: Hold away from face when opening to avoid breathing fumes.
- 2. This product is dangerous when not used properly. Follow label instructions exactly.

MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION RELATED COMPLICATIONS & MAY LEAD TO DEATH

Do not mix with any other chemicals. Mixing with other chemicals may cause a violent and instantaneous chemical reaction. Do not add water to this product. Do not add this product to water in a pail. Do not take advice from others. Do not experiment.

PREVENTION OF PROPERTY DAMAGE:

Contact between this product in its unrefined state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of color.

These tablets are manufactured with the most concentrated form of dry chlorine available today. They are consistent in size and slow dissolving when used as directed to allow you to reliably dose your pool once a week. These tablets allow you to easily maintain proper chlorine residuals and help you to effortlessly produce beautiful, clean sparkling water.

DIRECTIONS FOR USE

It is a Violation of Federal Law to use this product in a manner inconsistent with its labeling.

- 1. Adjust water pH to 7.2-7.6 as determined by a test kit. For pools with copper plumbing the best pH factor is 7.6-7.8.
- 2. If the pool has not been previously stabilized add Conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.

UNSTABILIZED POOLS: Follow steps 1 and 2

and then add two (2) tablets per 6,500 gallons of pool water to establish a chlorine residual of 1.0-1.5 ppm as determined by test kit. Repeat dosages as needed to maintain a residual of 1.0-1.5 ppm at all times. Thereafter, add 1 tablet per 6,500 gallons per week or as needed to maintain chlorine residual of 1.0-1.5 ppm at all times as determined by a test kit.

STABILIZED POOLS: Follow step 1 and then add 1 tablet per 6,500 gallons, per week or as needed to maintain a chlorine residual of 1.0-1.5 ppm at all times, as determined by a test kit. Maintain some flexibility in dosing your pool as chlorine demand will vary depending upon factors such as air and water temperature, bather load, frequency and intensity of thunder storms and pool exposure. Shock your pool weekly during hot weather and less frequently in cooler periods according to instructions provided with the chosen product. Do not enter pool until the chlorine residual is below 3.0 ppm.

Application must be made using one of the following methods:

POOLTEC Jumbo Tabs

ACTIVE INGREDIENT:
Trichloro-s-Triazinetrione* 99.0%
INERT INGREDIENTS: 1.0%
TOTAL: 100.0%
* Provides 90% Available Chlorine

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

HOTLINE NUMBER: For emergency information on product, use, etc., call the National Pesticides Information Center at 1-800-858-7378, 8:30 AM to 4:30 PM Pacific Time (PT), seven days a week. Other times, call the poison control center at 1-800-222-1222. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable inhaled damage may contraindicate the use of gastric lavage.

**SEE PRECAUTIONS ON BACK PANEL
BEFORE OPENING CONTAINER**
E.P.A. REG NO. 88346-2
E.P.A. EST NO. 87966-CHN-001
NET CONTENTS: 50 lb. (22.7 kg)

Batch Code/Lot No.

MAY 17 2012

Under the Federal Insecticide, Fungicide, and Rodenticide Act amended, for the pesticide registered under EPA Reg. No.

88346-2

FLOATING CHLORINATOR: Lead floating chlorinator with prescribed dosage as per instructions on that chlorinator. Allow chlorinator to float freely in pool. Increase dosage by increasing dosage or by securing chlorinator in an area of less agitation.

SKIMMER METHOD: Empty the skimmer of all chemicals and/or debris. Place prescribed dosage in a sanitary basket. Length of filtration cycle will influence the rate at which the tablets dissolve.

IN-LINE EROSION CHLORINATOR: Lead prescribed dosage into chlorinator according to instructions supplied with the chlorinator. Adjust the chlorinator control valves to always maintain the desired chlorine residual.

Please Note: The pH of these tablets is on the acid side and will tend to reduce the pH and alkalinity of pool water. Proper pH must be maintained at 7.2-7.6, through periodic additions of sodium carbonate or sodium hydrogen carbonate.

Each tablet weighs 200.0 grams (7.0 ounces)

POOL GALLON CALCULATOR

(All dimensions in feet)
Square or Rectangular:
Length x Width x Average Depth x 7.5 = Gallons
Round or Oval:
Length x Width x Average Depth x 5.9 = Gallons

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal

Pesticide Storage: Keep this product in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Retie polyethylene liner after each use and keep container tightly closed. In case of decomposition or spill isolate container in open area if possible and flood with large amounts of water to dissolve all material before discarding this container in trash.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance. The disposal methods are incineration or chemical treatment in accordance with Federal, State and Local regulations. Do not put product, spilled products, or filled or partially filled containers into trash or waste compactor. Contact with incompatible materials could cause a reaction and fire. Neutralize material to a non-oxidizing state for safe disposal.

CONTAINER HANDLING: Nonrefillable container. Do not re-use or refill this container. Triple rinse (or equivalent) promptly after emptying. Then offer for recycling, or reconditioning if available, or puncture and dispose of in a sanitary landfill, or by incineration.

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal.
