Katie Woodall  
Agent for Micro-Pak Ltd.  
c/o Wagner Regulatory Associates  
P.O. Box 640  
Hockessin, DE 19707

Subject: Label Amendment – Addition of Sub-B labeling for Micro-Pak® Enhanced Packaging Polybags and Addition of Alternate Brand Name  
Product Name: MICRO-PAK ENHANCED PACKAGING SHEETS  
EPA Registration Number: 88401-2  
Application Date: October 9, 2017  
Decision Number: 535823

Dear Ms. Woodall:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

**[Sub-Label A]****Micro-Pak® Enhanced Packaging Sheets**

[Controls] [Inhibits] [Effective Against] [Mitigates] Odor Causing Bacteria,  
Mold and Mildew

These Packaging Sheets are for commercial shipping use

**Active Ingredient:**  
**Sodium Chlorite**.....0.2%  
**Other Ingredients**.....99.8%  
**Total**.....100.0%

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**Micro-Pak® Enhanced Packaging Sheets** are intended to [control] [inhibit] [mitigate] odor causing bacteria, mold and mildew on products enclosed in packaging intended for shipment. Items that may be packaged and treated in this manner would include footwear, clothing, luggage, handbags, purses, wallets, gloves, hats, belts, leather goods, sporting goods, furniture, packing boxes, carpets, photo albums, musical instruments, toys, bracelets, jewelry, dolls, lamps, vases, baskets, footwear components, bedding, tablecloths, housewares and floral products. **Micro-Pak® Enhanced Packaging Sheets** will keep products clean and fresh.

Open the **Micro-Pak® Enhanced Packaging Sheets** foil pouch. Remove a roll of **Micro-Pak® Enhanced Packaging Sheets** and place them in the Micro-Pak® dispenser box, or use large sheets directly from foil pouch.

**Use of the Sheets**

At time of final packaging, place one or more appropriate sized Micro-Pak® Sheets as needed to cover the item to be packed and place protected item and the sheets into the normal packaging. Larger items will require larger sheets. For each square foot of product surface area, use approximately a total of 12 square inches of Micro-Pak® Sheets. The packages must be closed immediately after putting the sheets in the package and not reopened.

**Maintenance of the Registered Product**

Any unused Micro-Pak® Sheets must be packed back in the foil pouch and closed with tape for use within the next 24 hours. Close the foil pouch of **Micro-Pak® Enhanced Packaging Sheets** with tape anytime they are left unattended. Dispose of sheets that are from a registered product container that has been opened longer than 24 hours.

**STORAGE AND DISPOSAL**

Do not contaminate food or feed by storage or disposal.

**PESTICIDE STORAGE:** Keep this product dry in original sealed packs when not in use. Store sheets in a cool, dry, well-ventilated area away from heat and flame.

**PESTICIDE DISPOSAL:** Place used sheets in a plastic bag, seal bag and place in an outdoor trash receptacle (dumpster).

**CONTAINER DISPOSAL:** Do not reuse empty packaging but place in trash collection.
