Product: Wedge Disinfectant, EPA Reg. No. 44894-2
Company: North American Infection Control Ltd.

Dear Sir or Madam,

Enclosed is a Label Notification to revise the label for Wedge Disinfectant, EPA Reg. No. 44894-2, per PR Notice 98-10. These changes, described below, are reflected in the accompanying revised label document.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40CFR152.46, and no other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. Section 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40CFR152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Proposed Label Changes

Changes are being proposed in order to comply with observations noted by the California Department of Pesticide Regulation (CDPR), to add an ATCC number that had been omitted for one pathogen, and to remove language not supported by submitted data, as follows:

1. On page 2, in the optional label language, remove "such as", so the statement now reads
[Kills Antibiotic Resistant Bacteria MRSA and VRE]
2. On page 2, in the "*VIRUCIDAL" section, add "ATCC VR-544" to the description of Influenza, so the statement now reads
and Influenza Virus type A2 [ATCC VR-544],
