Technology Science Group, Inc.
712 Fifth Street, Suite A
Davis, CA 95616

AUG 23 2012

SUBJECT: Clear Bath® Algae Inhibitor
EPA Registration Number: 88691-1
Application Date: June 27, 2012
Receipt Date: June 28, 2012

Dear Ms. Garcia:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with comments.

- To update the label format to support container and booklet labeling.
- To update Environmental Hazards statement

Conditions

- Delete the Environmental Hazards statement (from the Master Label and from the Booklet) for the following reason: your product is indoor use product, so it does not need it. For reference see Label Review Manual
<http://www.epa.gov/oppfead1/labeling/lrm/chap-08.pdf>

General Comments

The stamped copy of your label is attached. Should you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347-0199 or Velma Noble at (703) 308-6233.

Sincerely,

Velma Noble

Clear Bath® Algae Inhibitor

[ABN: Clear Bath®]

Helps to effectively control algae and fungi in
laboratory water baths, laboratory incubators, laboratory humidifiers,
and on stainless steel surfaces

ACTIVE INGREDIENTS:

Alkyl (50% C14, 40% C12, 10% C16) dimethyl, benzyl ammonium chloride.....	50.00%
OTHER INGREDIENTS.....	50.00%
TOTAL.....	100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> ◦ Hold eye open and rinse slowly and gently with water for 15-20 minutes. ◦ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. ◦ Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> ◦ Take off contaminated clothing. ◦ Rinse skin immediately with plenty of water for 15-20 minutes. ◦ Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> ◦ Have person sip a glass of water if able to swallow. ◦ Do not induce vomiting unless told to do so by a poison control center or doctor. ◦ Do not give anything by mouth to an unconscious person. ◦ Call a poison control center or doctor immediately for treatment advice.
<p>Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory Shock, respiratory depression, and convulsion may be needed. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.</p>	

See booklet for additional precautionary statements and use directions.

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 88691-1

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if inhaled, swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe spray. Wear a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C). Wear protective eyewear (goggles or face shield), protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or flame.

AUG 23 2012

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 88691-R

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Dilution Instructions: Add 1ml of this product per gallon of water. Helps to effectively control algae, bacteria, and fungi in laboratory water baths, laboratory incubators, humidifiers, and cleans stainless steel surfaces.

CIRCULATING LABORATORY WATER BATHS: Formulated for use in circulating water baths. Thoroughly clean the hard non-porous surfaces of the water tank and filters. Add 1ml of this product per gallon of water. Product may be fed continuously until organisms are under control and on an intermittent basis to control organism growth as needed. Replace solution every 3 months or when solution becomes visibly dirty or discolored.

LABORATORY INCUBATORS: Remove contents of incubator and clean walls and shelves with 70% ethanol and 10% bleach, remove racks and autoclave them. Treat water tray by replacing water with a solution of 1 ml of this product per 1 gallon of water. Replace solution every 3 months or when solution becomes visibly dirty or discolored

LABORATORY HUMIDIFIER DIRECTIONS: Formulated for use in portable humidifiers. Thoroughly clean the hard non-porous surfaces of the water tank and filters (before each heating season, or sooner if necessary). Add 1ml of this product to per gallon of water. Product may be fed continuously until organisms are under control and on an intermittent basis to control organism growth as needed. Replace solution every 3 months or when solution becomes visibly dirty or discolored.

STAINLESS STEEL SURFACES CLEANER DIRECTIONS: Formulated for use on stainless steel surfaces, including laboratory bench-tops and laboratory table-tops. Add 1ml of this product to per gallon of water and use to wipe surfaces clean with cloth, paper towel, or sponge.

NOTE: This product should not be used or compounded with any reducing or oxidizing agents (such as calcium hypochlorite, solid perchlorate, or nitric acid) since such mixtures may be explosive. Do not use in conjunction with soap or any anionic wetting agent.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original container and place in locked storage area. Keep away from freezing.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container: Do not refill or reuse container. Triple rinse as follows: Fill container ¼ full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose of in a sanitary landfill.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

{Optional Marketing Statements, shown in []}

[Clear Bath® Algae Inhibitor] (or) [This product] is the efficient and economical way to improve the appearance and cleanliness of your laboratory water baths. It requires no special equipment for treating water and may be added directly to the laboratory water bath or to the laboratory water circulating equipment.

[Clear Bath® Algae Inhibitor keeps laboratory water baths and other equipment clean.]

[Water treated with Clear Bath® Algae Inhibitor remains clear for weeks.]

[Humidifier Bacteria-Algae treatment is a bacteriostat which can control the build-up of bacteria and algae in water tanks of portable, (evaporative) humidifiers that are located in laboratories.]

[For Laboratory Use Only Not For Clinical Use]
