PRECAUTIONARY STATEMENTS
DANGER
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive Causes irreversible eye damage and skin burns May be fatal if inhaled Harmful if swallowed or absorbed through skin Do not get in eyes on skin or clothing Do not breathe dust vapor or spray mist Irritating to nose and throat Wear goggles face shield or safety glasses and chemical resistant gloves Wash thoroughly with soap and water after handling and before eating drinking chewing gum using tobacco, or using the toilet Remove contaminated clothing and wash before reuse

ENVIRONMENTAL HAZARDS STATEMENT

This pesticide is toxic to fish and aquatic organisms Do not discharge effluent containing this product directly into lakes streams ponds estuaries oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority For guidance contact your State Water Board or Regional office of the EPA

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT

Strong oxidizing agent Contact with water slowly liberates irritating and hazardous chlorine containing gases Decomposes at temperatures above 437°F (225°C) with liberation of harmful gases When ignited will burn with the evolution of chlorine and equally toxic gases

Never add water to product Always add product to large quantities of water Use clean dry utensils Do not add this product to any dispensing device containing remnants of any other product Such use may cause a violent reaction leading to fire or explosion Contamination with moisture organic material or other chemicals may start a chemical reaction with generation of heat liberation of hazardous gases and possible fire and explosion

IN CASE OF FIRE OR SMOKE Call the fire department Do not attempt to extinguish the fire without a self contained breathing apparatus (SCBA) Do not let the fire burn Flood with copious amounts of water Do not use ABC or other dry chemical extinguishers since there is the potential for violent reaction

IN CASE OF CONTAMINATION OR DECOMPOSITION Do not reseal container Neutralize material to a non-oxidizing state for safe disposal

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage and disposal

STORAGE Keep material dry and in a dry area Store in original container where temperatures do not exceed 125°F (52°C) for 24 hours Retie polyethylene liner after each use and keep container tightly closed

PESTICIDE DISPOSAL Pesticide Wastes are acutely hazardous Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal Law If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance

CONTAINER HANDLING

{for use with plastic containers}

[NON-REFILLABLE CONTAINER]

Plastic Container Triple rinse (or equivalent) Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration or if allowed by State and local authorities by burning If burned stay out of smoke]

*{Optional marketing statements that may be used with **swimming pool sanitization**}*

[Concentrated]

[Stabilized]

[Algae Kill]

[For use white plaster pools only]

[Highly Concentrated]

[Concentrated stabilized chlorinating granules]

[Bleaches out organic stains]

[Algae destroyer]

[Kills black algae]

[Stain remover]

[Granules]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling Read entire label and use strictly in accordance with precautionary statements and directions

SWIMMING POOL SANITIZER

This product is for use in WHITE PLASTER POOLS ONLY When used as directed this product is effective as a swimming pool water sanitizer This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and micro-organisms in your swimming pool When used as directed this product kills algae and will rid your pool of unsightly algae spots

Ensure all swimming pool equipment is working properly then clean or backwash filter following manufacturer s directions Next adjust pH to between 7.2 and 7.6 Then add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual When using other products be sure to follow completely the directions for use on those products

With pump running broadcast 4 ounces of this product per 10 000 gallons directly into the water in the deep end of the pool as an initial treatment Repeat additions until a residual of 1-4 ppm of available chlorine is established as determined by the use of a test kit or test strip

Regular use of a test kit or test strip is necessary to determine when it is necessary to add another dose of this product to maintain residual of 1-4 ppm available chlorine in swimming pool water An average daily dose requirement is 2-3 oz of this product per 10 000 gallons of water

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine residual due to risk of body injury
