**NOTICE OF PESTICIDE:**

- **Registration**
- **Reregistration**
  (under FIFRA, as amended)

**EPA Reg. Number:** 88897-2  
**Date of Issuance:** 8/20/19

**Term of Issuance:** Conditional

**Name of Pesticide Product:** Panther Disinfectant

**Name and Address of Registrant (include ZIP Code):**

Jeff Jones  
Maxill, Inc  
Delta Analytical Corporation  
12510 Prosperity Drive, Suite 160  
Silver Spring, MD 20904

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

---

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

**Signature of Approving Official:**

Zeno Bain, Product Manager 33  
Regulatory Management Branch I  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

**Date:** 8/20/19
You are required to comply with the data requirements described in the DCIs identified below:

a. ADBAC GDCI-069105-30882
b. DDAC GDCI-069149-30869

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division

2. Make the following label changes before you release the product for shipment:

   - Revise the EPA Registration Number to read, “EPA Reg. No. 88897-2.”

3. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

   - Basic CSF dated 07/18/2018

If you have any questions, please contact Terria Northern by phone at 703-347-0265, or via email at northern.terria@epa.gov.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMAN AND DOMESTIC ANIMALS.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, or clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Wear gloves, and eye glasses or eye goggles. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before use.

FIRST AID:
If in eyes:
- Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

If inhaled:
- Move person to fresh air
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center, doctor, or going for treatment. For medical emergencies, call the poison control center at 1-800-222-1222. For non-emergency information concerning this product, call the National Pesticides Information Center (NPIC) at 1-800-858-7378 (NPIC Web site: www.npic.orst.edu).

PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.
Storage: Store in a cool place. [Tightly close lid between uses to retain moisture.]

{Container Disposal, One of the following :}

{For containers that are not intended to be refilled by consumer :}

[CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer empty container for recycling. If recycling is not available, discard container in trash.]

[CONTAINER HANDLING: Do not reuse or refill except as described in the directions for use. Refill only with [this product ] [Panther DISINFECTANT] [ABN]. Offer unusable [broken] [cracked] container for recycling. If recycling is not available, discard container in trash.]
[MARKETING INFORMATION]

Select as appropriate, terms may be separated by bullets, commas, “and” or “&”:

- Cleans
- Disinfects
- Deodorizes

- Broad Spectrum
- Cleaner
- Disinfectant
- Hospital Use
- Deodorizer
- Multi-purpose Cleaner

[Panther DISINFECTANT] [ABN] is intended for use on pre-cleaned, hard non-porous inanimate surfaces in areas where the disinfection of surfaces is required.

When used as directed [Panther DISINFECTANT] [ABN] cleans and disinfects hard, non-porous, non-food contact surfaces found in

One or more of the following sites may be listed, as appropriate. The last area will be preceded with the word “and”:

- ambulances
- athletic clubs
- automobile interiors
- autopsy rooms
- barber shops
- bathrooms
- beauty salons
- blood centers
- buses
- cadaver work [processing] areas
- cardiac care labs
- cardiac catheterization labs
- cardiology units
- child care facilities
- clean rooms
- clinical areas
- daycare centers
- dental facilities
- dialysis units
- drug preparation facilities
- EMS units
- emergency rooms
- endoscopic rooms
- esthetician facilities
- extended care facilities
- food processing facilities
  - (non-food contact surfaces)
- funeral homes
- GI laboratories
- gyms
- hair salons
- health clubs
- hospitals
- healthcare facilities
- hotels
- human transport vehicles
- infant care units
- institutional facilities
- intensive care units
- isolation rooms [units]
- laboratories
- large animal care facilities
- lasik centers
- locker rooms
- long-term care facilities
- medical facilities
- medical offices
- morgues
- nail care facilities
- nail salons
- neonatal units
- newborn nurseries
- nursing homes
- operating rooms
- offices
- ophthalmic centers
- paramedic units
- pathology facilities
- patient care areas
- pheresis equipment and centers
- podiatry offices
- police vehicles
- prisoner holding areas [lockups]
- prisons
- radiology centers
- research laboratories
- respiratory care units
- schools
- skin care facilities
- spas
- surgical centers and rooms
- tanning salons
- tattoo parlors
- trailers
- train cars
- transport equipment
- workout rooms

Note: [Bracketed text] is optional/alternate text and it might not appear on the marketing label.

*Bracketed Text* is for administrative information only and will not appear on the marketing label.
When used as directed [Panther DISINFECTANT] [ABN] may be used on hard, non-porous, non-food contact surfaces of the following:

(One or more of the following areas for use may be listed, as appropriate. The last item will be preceded with the word “and” :

- athletic/training facility surfaces
- baby/infant care surfaces
- bassinets
- bathing units
- bed rails
- beds
- cabinets
- changing tables
- commodes
- computer keyboards [surfaces]
- counters
- curing lights
- diving equipment and air packs
- doorknobs
- equipment surfaces
- eye glasses
- eye protection devices
- finished surfaces
- firefighter turnout gear
- foot spa surfaces
- funeral home surfaces

- helmets
- hospitality and hotel surfaces

- incubators
- infant care equipment
- (bassinets, bed railings, cribs, infant incubator-surfaces, tables, warmers (exterior surface))
- laminated surfaces
- keyboards
- light lens covers
- loupes
- mats
- manicure/pedicure tables/chairs
- mannequins
- monitor knobs
- monitors
- optical wear (excluding contact lenses)
- painted surfaces
- pet care surfaces
- play-care equipment
- play mats
- pumps
- rails
- refrigerators (exterior surface)
- reptile care surfaces
- shampoo bowls
- ship [river, ocean, sea vessel] surfaces
- showers [floors/walls]
- sink faucets
- sinks
- small animal care surfaces
- stalls
- stair chairs
- tables
- tanks
- tanning bed surfaces
- telephones/toilets (rims, seats and exterior surfaces)
- toys
- transportation van surfaces
- transportation equipment surfaces
- turn-out gear
- walls
- warmers (exterior surface)
- wet/dry suits
- whirlpool surfaces
- work stations
- wrestling mats

* Not to be used on unfinished wood or other porous surfaces

---

Note: [Bracketed text] is optional/alternate text and it might not appear on the marketing label.

(Bracketed Text) is for administrative information only and will not appear on the marketing label.
When used as directed [Panther DISINFECTANT] [ABN] may be used on hard, non-porous, non-critical parts of the following items/surfaces*

(One or more of the following areas for use may be listed, as appropriate. The last item will be preceded with the word “and” :)

- ambulance equipment and [patient care] surfaces
- anesthesia equipment surfaces
- backboards
- blood pressure devices
- breathing masks
- external surfaces of CPAP masks and units
- CPR training devices
- CT equipment/ surfaces
- dental chairs
- dental equipment surfaces/devices
- dialysis machine surfaces
- EMS equipment/work surfaces
- ER surfaces
- examination tables
- goni lenses
- hard cervical collars/braces
- instrument stands
- Isolettes®
- kidney machines
- laboratory equipment/surfaces
- mayo stands
- medical equipment
- surfaces/devices
- medication infusion surfaces
- microkeratome surfaces
- microscopes
- morgue tables
- MRI equipment surfaces
- neonatal/nursery surfaces
- non-critical devices
- nursing station surfaces
- occupational therapy devices
- office fixtures
- OR lights
- OR surfaces
- OR tables
- ophthalmic equipment
- surfaces/devices
- oxygen hoods
- oxygen tents
- patient bed surfaces
- patient care devices
- patient care equipment surfaces
- patient examination tables
- patient stretchers
- patient transport surfaces
- pharmacy surfaces
- physical therapy equipment (such as bars, chairs, empty whirlpool tanks, etc.)
- pulmonary function equipment
- radiology equipment surfaces
- respirators
- respiratory care equipment surfaces
- respiratory therapy equipment
- skin care equipment/surfaces
- spirometers
- stretchers
- surgical microscopes
- tattooing equipment
- surfaces/devices
- ventilators
- wheel chairs
- X-ray equipment/surfaces

* Not to be used on unfinished wood or other porous surfaces

When used as directed [Panther DISINFECTANT] [ABN] may be used on the following hard, non-porous non-food contact materials

(One or more of the following areas for use may be listed, as appropriate. The last area will be preceded with the word “and” :)

- glass
- clear plastic
- baked painted surfaces
- metal
- stainless steel
- laminated surfaces and other similar surfaces
- Plexiglas®
- brass
- powder painted coated surfaces
- plastics (i.e., polycarbonate, and polypropylene, polyvinylchloride polystyrene, and non-porous vinyl)
- chrome
- Formica®
- copper
- glazed tile
- acrylic

[If you are uncertain as to the material composition of your [item][surface][device], confirm compatibility with the manufacturer before proceeding.]

[If applicable :]

[For plastic and painted surfaces, spot test on an inconspicuous area before use.]
Organisms Controlled/Contact Times†

When used as directed on pre-cleaned hard, non-porous non-food contact surfaces, [Panther DISINFECTANT] [ABN] disinfect[s] the following microorganisms with a contact time:

1-minute contact time
Human Immunodeficiency virus type 1 (HIV-1)*
Duck Hepatitis B Virus [(DHBV)] (Surrogate for Human Hepatitis B Virus)* [(HBV)]
Bovine Viral Diarrhea Virus [(BVDV)] (Surrogate for Human Hepatitis C Virus)*[(HCV)]
Rotavirus [ATCC VR-2018]
Human Coronavirus [ATCC VR-740]
Avian Influenza A (H3N2) Reassortant virus [ATCC VR-2072]
Herpes simplex virus type 1 [ATCC VR-733]
Herpes simplex virus type 2 [ATCC VR-734]

3-minute contact time
*Mycobacterium bovis* BCG (Tuberculosis),
*Pseudomonas aeruginosa* [ATCC 15442]
*Staphylococcus aureus* [ATCC 6538]
*Salmonella enterica* [ATCC 10708]
Vancomycin Resistant *Enterococcus faecalis* (VRE) [ATCC 51299]
Methicillin Resistant *Staphylococcus aureus* (MRSA) [ATCC 33591]
Adenovirus type 5 [ATCC VR-5]
Feline calicivirus [(Surrogate for Human Norovirus)] [ATCC VR-782]
*Trichophyton interdigitale* [ATCC 9533]
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

(The following paragraph will be included when the marketing label references health care use :)

This product is not to be used as a terminal sterilant/ high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean critical or semi-critical medical devices prior to sterilization/high-level disinfection.

(For product marketed in a dispensing sprayer that may be refilled only by the consumer :)

Setting up the Sprayer:
1. Remove the cap and bottle seal. Discard.
2. Insert and secure the provided sprayer to the bottle.
This container may be refilled by the consumer with [Panther DISINFECTANT] [ABN] sold in jug quantities. Refer to further instructions on the label of the jug.

(For product marketed in a non-refillable jug :)

Placing the Contents of the Refill Jug into an Empty Sprayer:
1. Remove the cap and bottle seal. Discard seal and retain the cap.
2. Pour product from the refill jug into the empty and clean sprayer bottle, being careful not to overfill the sprayer bottle.
3. Insert and secure the sprayer to its bottle.
4. Secure the retained cap snugly to the refill jug.

[CLEANING AND DISINFECTING: Hard, non-porous surfaces

Remove gross debris and pre-clean the surface prior to disinfection. [Gently] spray the surface with [Panther DISINFECTANT] [ABN] to [deodorize and] pre-clean the surface of gross debris. Using a disposable [cloth][towel], clean the surface. Discard. Spray [Panther DISINFECTANT] [ABN] 6 – 8 inches from the surface, thoroughly wetting area to be disinfected. [Treated surface must remain visibly wet for the appropriate time indicated for the purpose intended.] {or} For broad spectrum disinfection, allow the surface to remain wet for 3 minutes. Spray additional product on the surface if needed to ensure the correct wet contact time. [Wipe the surface dry.] {or} [Rinse surface and [wipe] [allow to air] dry.]

Note: [Bracketed text] is optional/alternate text and it might not appear on the marketing label.
{Bracketed Text} is for administrative information only and will not appear on the marketing label.
{As applicable, for Blood Borne Pathogens listed on the label:}

| *This product effectively kills Human Immunodeficiency virus 1 (HIV-1), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV) on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of HIV-1, HBV, and HCV. |
| Special Instructions for Cleaning and Decontamination Against HIV-1, HBV, and HCV of Surfaces or Objects Soiled With Blood or Body Fluids: |
| Personal Protection: Wear appropriate barrier protection such as disposable protective gloves, protective gown, face mask and eye covering. |
| Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfecting towelette. |
| Contact Time: Allow surface to remain wet for 1 minute to kill HIV-1, HBV and HCV. |
| Disposal of Infectious Materials: Dispose of contaminated materials in accordance with Federal, State and local regulations for infectious materials disposal. |
This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category[ies]:
- Enveloped Viruses
- Large Non-Enveloped Viruses

<table>
<thead>
<tr>
<th>For an emerging viral pathogen that is a/an...</th>
<th>...following the directions for use for the following organisms on the label:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enveloped virus</td>
<td>Adenovirus type 5 [ATCC VR-5]</td>
</tr>
<tr>
<td>Large, non-enveloped virus</td>
<td>Feline calicivirus (Surrogate for Human Norovirus), Strain: F9, (ATCC VR-782)</td>
</tr>
</tbody>
</table>

[Product Name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [Product Name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

{AND/OR}

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product Name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.
