WASHINGTON, DC 20460

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

September 18, 2017

Cinda Bell  
SciReg, Inc.  
12733 Director's Loop  
Woodbridge, VA 22192

Subject: Label Amendment – updating establishment number on label and CSFs  
Product Name: T\*A\*P  
Application Date: May 8, 2017  
EPA Registration Number: 89140-1  
Application Date: May 8, 2017  
Decision Number: 529378, 529377

Dear Ms. Bell:

The amended label and CSF(s) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF(s):

- Basic & Alternate #'s 1-6 CSFs dated 5/8/2017

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false

or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Autumn Metzger at 703-305-5314, or Metzger.autumn@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'MW', enclosed in a thin black rectangular border.

Michael Wagman, Acting Product Manager 4  
Invertebrate and Vertebrate Branch 1  
Registration Division (7505P)  
Office of Pesticide Programs

[Note to EPA: Intended for Pest Control Operator Use]

**Brand name: T•A•P™**

**Alternate brand names: OrkinTherm Pro, OrkinTherm, BugSniperR**

**ACTIVE INGREDIENT:**

Orthoboric acid..... 12.5%  
**OTHER INGREDIENTS..... 87.5%**  
**TOTAL.....100.0%**

**KEEP OUT OF THE REACH OF CHILDREN**  
**CAUTION**

See First Aid Statement [this statement optional if first aid statement not on front panel]

<b>FIRST AID</b>
<p><b>IF ON SKIN or CLOTHING:</b></p> <ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<p><b>IF IN EYES:</b></p> <ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<p>Have the product container or label with you when calling a Poison Control Center or doctor, or when going for treatment.</p>

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

**Personal Protective Equipment (PPE)**

Applicators, mixers, and other handlers must wear:

- long-sleeved shirt
- long pants
- socks, shoes
- chemical-resistant gloves
- NIOSH-approved N95 or higher disposable or reusable particulate respirator
- dust goggles

**READY-TO-USE [T•A•P™ Thermal, Acoustical, and Pest Control Insulation]** is an insect/arthropod control insulation. This product is toxic to listed insects and other arthropods and is intended to prevent their infestations in those building voids (attic, wall, between-floors, crawlspace) where the product is applied. Its toxic effect begins only after insect/arthropod contact with the product.

**KILLS:**

**Cockroaches, Termites (including Formosan Termites), Ants, Silverfish, Earwigs, Crickets, Sowbugs, Darkling Beetles, Millipedes, Centipedes, and Booklice.**

This insulation contains material toxic to these insects/arthropods and is intended to prevent new infestations in walls and attics where the product is applied. Control of insects/arthropods is limited to contact with insulation.

**DIRECTIONS FOR USE**

It is a violation of Federal law to apply this product in a manner inconsistent with its labeling. “R” means resistance to heat flow. The higher the **R-value** the greater the insulating power. To get the marked **R-value**, it is essential that this insulation be installed properly. Insulation applicators installing this material should be familiar with and carefully follow installation instructions from the manufacturer.

**NOT FOR USE AS SOLE PROTECTION AGAINST TERMITES. Use of this product does not substitute for pre- and/or post-construction mechanical alteration, soil treatment or foundation treatment. For active termite infestations, you should consult a licensed pest control operator.**

EASY AS 1 • 2 • 3

Attic Preparation:

- Maintain attic ventilation. Insulation should not cover any attic ventilation. Use baffles or vent chutes. Do not cover soffit vents.
- Insulation should not cover or touch heat producing components like light fixtures. Create barriers to maintain a 3” clearance.
- Create a barrier around your attic access to keep the insulation in place when entering or exiting the attic.

**FOLLOW INSTRUCTIONS FOR SET UP AND OPERATION OF BLOWING MACHINE**

[Graphics may accompany items 1 – 3 below]

1. Position Blowing Machine outside house. Plug in and attach 100’ hose.
2. Run hose to attic through nearest access. Avoid tight turns.
3. Blow insulation into attic or on top of existing insulation to desired thickness/R-Value.

[OPTIONAL statement]:

Watch our YouTube video to see how easy it is to use.

[OPTIONAL image]:

{QR Code Image}

**CAUTION! TO HELP AVOID FIRE:** Keep cellulose insulation at least three inches away from the sides of recessed light fixtures. Do not place insulation over such fixtures so as to entrap heat. Also keep this insulation away from exhaust flues of furnaces, water heaters, space heaters or other heat-producing devices unless the device is rated zero “0” clearance to combustibles. To be sure that insulation is kept away from light fixtures and flues, use a barrier to permanently maintain clearance around these areas. Check with local building or fire officials for guidance on installation and barrier requirements. Do not install or use cellulose insulation around heat or ignition sources or operations such as welding, metal cutting, grinding, or other potentially flammable situations. [or additional required FTC language]

**REQUEST TO INSTALLER:** Remove this label and give it to the consumer at completion of job.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store product in a dry area.

**Pesticide Disposal:** Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

**Container Handling:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer for recycling if available or dispose of empty bag in a trash can or by incineration.

## [ADDITIONAL MARKETING CLAIMS AND GRAPHICS (OPTIONAL TEXT)]

### *Thermal, Acoustical, and Pest Control Insulation*

3 - insulations - in - 1

INSULATION MADE FROM RECYCLED PAPER

- Helps protect your home environment from annoying insects and other arthropods\*
- Contains 87% *recycled paper*
- Helps keep you *warm* in winter & *cool* in summer
- Highly resistant to *air infiltration*
- Helps *deaden sound* as an acoustical barrier
- This *clean-blowing* insulation is the result of a patented process.
- helps prevent listed pests\*
- EXCLUSIVE FORMULA offers one time application for long-lasting protection against listed pests\* where applied
- EXCLUSIVE FORMULA helps prevent ants, cockroaches, termites, and other listed insects\* where applied
- EXCLUSIVE FORMULA does not require retreating for long-term control of ants, cockroaches, termites, and other listed insects\* where applied
- EXCLUSIVE FORMULA provides long-term control of ants, cockroaches, termites, and other listed insects\* where applied
- Provides long-lasting control of ants, cockroaches, termites, and other listed insects\* where applied
- For lasting pest protection against listed pests\* where applied
- For long-term pest protection against listed pests\* where applied
- Simply blow in a minimum of \_\_\_ bags per \_\_\_\_\_ sq. ft.
- Additional bags can be used to increase R value (see reverse for additional details)
- pest protection\* + energy saving insulation
- fire resistant
- Bug Protection\* Insulation
- energy saving
- simple-to-use [GreenFiber] blower machine rentable at this store
- Can be applied over *ANY* existing insulation.
- Save up to 20% in energy costs\*\*
- Reduces Noise
- Superior Sound Deadening Properties

\* effective against cockroaches, termites (including Formosan termites), ants, silverfish, earwigs, crickets, sowbugs, darkling beetles, millipedes, centipedes, and booklice [NOTE TO EPA: this footnote will appear on the same panel as asterisked statements]

\*\* Savings vary. Find out why in the seller's Fact Sheet on R-values. Higher R-values mean greater insulating power.

FOR USE IN NEW CONSTRUCTION AND RETROFIT APPLICATIONS

- ATTICS • FLOORS • WALLS • CRAWLSPACES •
- OVERLAY FIBER GLASS OR OTHER INSULATIONS •

- HOMES
- APARTMENTS & CONDOMINIUMS
- OFFICES & INDUSTRIAL BUILDINGS
- HOTELS & MOTELS
- HOSPITALS & NURSING HOMES
- RESTAURANTS
- SCHOOLS

Commercial Size

Save Energy and Money!

- Helps Keep Bugs Out\* & Comfort In!
- Easy Blow In Attic Insulation
- Resists Mold
- Itch Free Insulation – No Cutting

Follow the instructions carefully. For further information, visit our web site at [www.TAPinsulation.com][www.orkintherm.com][www.bugsniper.com]. Tested and approved to meet quality standards of the State of California Department of Consumer Affairs, Bureau of Home Furnishings and Thermal Insulation, License No. \_\_\_\_\_, Registry No. \_\_\_\_\_. The material content of T•A•P insulation consists of at least 85% recycled paper fiber. This insulation does not use asbestos, fiberglass or formaldehyde in its manufacturing process. According to T•A•P's Material Safety Data Sheet (MSDS), the application of the product requires the use of safety eyewear and a NIOSH-approved N95 or higher disposable or reusable particulate respirator if housekeeping and engineering controls do not maintain nuisance levels below regulatory limits or dust concentration is unknown. If you suffer from asthma or respiratory ailment we recommend you consult your physician prior to using this product.

This product meets the amended Consumer Product Safety Commission (CPSC) standard for flame resistance and corrosiveness of cellulose insulation.

Class 1 Building Material
