

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

89459-4

Date of Issuance:

9/13/22

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

RF2186 CCSO Plus

Name and Address of Registrant (include ZIP Code):

James McFadden, Ph.D.
 Director, Regulatory Affairs
 Central Garden & Pet Company
 1501 E. Woodfield Road, Suite 200W
 Schaumburg, IL 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Elizabeth Fertich, Product Manager 04
 Invertebrate & Vertebrate Branch 1
 Registration Division (7505P)
 Office of Pesticide Programs

Date:

9/13/22

2. Consistent with the guidance on [Pet Spot-On Enhanced Reporting Implementation \(updated Aug. 2019\)](#), the Agency has reviewed your request to remove the two-year registration expiration date and has found your company to be in compliance with the terms and conditions for the subject product. The accepted label dated 09/13/22 contains appropriate mitigation measures. Further, the Agency has reviewed a sample of enhanced reporting using EPA's standardized templates, as described in Condition 3. hereafter, and concluded that the use of the standardized templates for enhanced reporting for this product will considerably improve pharmacovigilance and thus the continued safety of this product. Therefore, the Agency is removing the two-year registration expiration date for this product. The product remains subject to all other previously required conditions of registration, including the submission of enhanced incident reports and sales information as stated in the amendment letter dated 10/23/14 and amended below to require continued use of the standardized templates.
3. The Agency has reviewed your request to change the terms of your registration from quarterly to annual submission of enhanced incident and sales reports using EPA's standardized templates. Based on an initial screening of sample enhanced reports, the sample submission was determined to be adequate and the templates were successfully used. Therefore, the condition of quarterly submission of enhanced incident and sales reports is hereby amended to annual submission with continued use of these standardized templates. You must submit enhanced incident and sales reports for this product to the Agency every 12 months from the date the product is first released for shipment, or from the end date in the last quarterly enhanced reporting submission. The initial released-for-shipment date must be provided to the Product Manager, once known. The enhanced reporting submission should be addressed to the Product Manager's attention and must use the standardized, electronic templates available on the EPA website through the following links: [Enhanced Incident Reporting Template](#), [Sales Reporting Template](#). Submissions must be received by the Agency no later than 60 days following the completion of the 12-month period. If the product is not marketed or sold, you must submit to the Product Manager a letter to this effect every 12 months in lieu of the enhanced incident and sales reports. Please follow appropriate procedures and flag any Confidential Business Information as such.
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 3 of 3
EPA Reg. No. 89459-4
Decision No. 571340

If you fail to satisfy these terms and conditions, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). A stamped copy of the label is enclosed for your records.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 09/06/2018

If you have any questions, you may contact Robert Mitchell at 202-566-2842 or via email at mitchell.robert@epa.gov.

1. DIRECTIONS FOR USE WITH APPLICATOR

READ ENTIRE LABEL [AND INSERT(S)] BEFORE USE.

USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER].

[formulated for cats [& kittens]][For use on cats only][Do not use on animals other than cats]

INTRODUCTION:

A unique, convenient applicator for you.

The [brand] Applicator is specially designed to make applying flea and tick control easier, more precise -- and neater - than ever before. You simply insert the appropriate [brand] [tube] [vial][cartridge] for your cat/kitten into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape [design] makes it easy to grip and a built-in fin [tip] [comb] helps to spread [part] the [your] cat's/kitten's hair to allow the liquid to more readily [better] reach [apply] the [to] [your cat's/kitten's] skin. The [tube] [vial] [cartridge] is sealed inside, so you can be confident that the liquid goes onto your cat/kitten - and not your hand.

[RF2186 CCSO Plus] is a topically applied [long-lasting] [flea and tick treatment] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][*InfestStop™] [to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox], which kills biting adult fleas, deer ticks, and mosquitoes your cat/kitten may acquire from its surroundings. A single application of [RF2186 CCSO Plus] will provide flea egg hatch inhibition for up to [30 days] [1 month][4 weeks]. Each package contains enough product for 3 monthly applications [90 days of protection [control]]. [RF2186 CCSO Plus] provides relief from flea infestations for up to [30 days] [1 month] [4 weeks] by killing adult fleas and flea eggs on your cat or kitten. Adult fleas can live on your cat while producing vast numbers of eggs, which drop off your cat and develop in the surrounding environment. [RF2186 CCSO Plus] [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat/kitten relief from flea bites at the same time.

*(S)-Methoprene

After application, your cat's/kitten's [ordinary] [innate] skin oils [disperse] carry [RF2186 CCSO Plus] over your cat's/kitten's body for protection against biting adult fleas and the development of flea eggs. [This product] may stain leather and suede fabrics for [24][24 to 48] hours after application.] Once adult fleas are evident on your cat/kitten, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat's bedding [home sprays, foggers], as well as your yard [yard spray/outdoor fogger] with traditional flea products approved for use on cats, around the home, or in your yard. [RF2186 CCSO Plus] can be used in conjunction with other [Brand Name] premise products. As with all flea products, they are [RF2186 CCSO Plus is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's/kitten's environment. [Brand Name] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand Name] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label. [If you choose to apply treatment directly to cat without using the applicator device, read and follow the Directions For Use for Direct Application to Cat on this package.]

USE RESTRICTIONS:

Do not apply more than once every month. Do not allow children to apply product. Do not use more than one [tube][vial][cartridge] per cat. Do not use on kittens less than 12 weeks old. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. Do not apply to cats weighing less than [2.5 lbs.][5 lbs.]

Do not spread [RF2186 CCSO Plus] by hand over the cat/kitten. Do not bathe the cat/kitten within the first 24 hours after Spot On® [squeeze on] has been applied. Households with more than one cat/kitten should prevent cats/kittens from grooming each other until solution has dried.

Do not reapply product for 30 days. Do not treat more than once per month.

This product contains [3] monthly dosages , each [0.88 mL] [0.030 fl oz]] [1.58 mL] [0.053 fl oz]].

[RF2186 CCSO Plus] works by application directly to the cat's/kitten's skin, not to the hair. When applying, use applicator device tip to push aside cat's/kitten's hair to allow direct application to the skin. {(Note: Application assumes one [tube][vial] [cartridge] per cat per application)}

The [RF2186 CCSO Plus] provides a unique applicator device that allows cat/kitten owners to treat their cats/kittens more securely, and dispose of liquid [cartridges] [tubes][vials]with less mess. {Note: Each package contains sufficient cartridges/tubes/vials for [3] applications}

USE ONLY ON CATS AND KITTENS 12 WEEKS OF AGE AND OLDER

[0.88 mL [0.030 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs only .

1.58 mL [0.053 fl oz] dose for use on cats and kittens 5 lbs. and over only {Same size applicators with different fill amounts}

[APPLICATION METHOD]/[TO APPLY]

To apply the [RF2186 CCSO Plus] treatment, use one disposable liquid [cartridge] [tube][vial] [for each application] with the applicator device. Do not apply more than one [cartridge][tube][vial] per treatment regardless of the cat's weight.

1. OPEN [icon]

Use finger scoop to lift open [color] door [of applicator device].

2. LOAD [icon]

[To Load, place [tube] [cartridge] [vial] white side up [under the [color] tabs] into the applicator] [with [tip end][front] of [tube][cartridge][vial] placed under tab on door] [Tip end of [tube] [cartridge][vial] must fit under the [U-shaped] [notch][tab] in the [color] [lid] [door]]. [Ensure that [tube][cartridge][vial] fits securely in the applicator.]

3. CLOSE [icon]

[Gently] close the [color, e.g. green] door [and] the [tube][cartridge][vial] will snap open.

4. APPLY [icon]

The cat/kitten should be standing for easy application.

[To apply, use tip to part hair and get next to cat's/kitten's skin at the base of the skull. Press [shape e.g. square] [thumb pad][button] on [color] door and squeeze out the entire contents of the applicator [tube] [cartridge] [vial] onto the cat's/kitten's skin.]

-OR-

[To **APPLY** Use front edge of applicator to part fur and get next to cat's/kitten's skin at one spot at the base of the skull. Press [shape e.g. square] [button] on door. Repeat until [tube][cartridge][vial] is empty.]

[Although the cat's/kitten's skin and hair oils will [over time] distribute the application over the entire cat/kitten, brushing the cat/kitten 12-24 hours after treatment will help to distribute the material over the skin.]

5. DISPOSE [icon]

To dispose of empty [tube][vial][cartridge], open [color, e.g. green] door and drop [empty] [tube][cartridge][vial] into trash or offer for recycling if available. Close applicator device door and [return applicator to package until next use][store in original package.]

6. RETREAT AFTER 30 DAYS

{Note: Each package contains sufficient [cartridges/tubes/vials] for [3] applications}

[RF2186 CCSO Plus] is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for control and prevention of fleas.

[The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with [RF2186 CCSO Plus] kills fleas that may cause this condition.]

STORAGE AND DISPOSAL: **Storage:** Store in a cool, dry (preferably locked) area away from children and animals. Do not store unused applicators [tubes] separately from their packaging. **If empty:** Do not reuse empty [cartridge] [vial] [tube]. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

HAZARDS TO HUMANS: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash your hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS: For External Use on Cats Only. **Do not use on kittens weighing less than [2.5] [5] pounds. Do not use on kittens less than 12 weeks old.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If the salivation continues or other clinical signs are noted, please call 1-800-brand phone number. This product is not a substitute for a prescribed heartworm preventative.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product, (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-234-2269, 24 hours /day, seven (7) days/week.	

SIDE EFFECTS: Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or Central Garden & Pet at 1-800-brand phone number. {This box will appear in lower right hand corner of back panel}

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

In case of emergency or for product information, call 1-800-234-2269 or contact your veterinarian if your cat/kitten is experiencing an adverse event.

To learn more about treating current infestations on your cat and preventing future outbreaks, please call [phone number] or visit our website: www.adamspetcare.com
[For more information, call our experts at 1-800-234-2269 (weekdays, 9am – 5 pm EST)]

To **DISPOSE** of empty tube open door and drop tube into trash

{OPTIONAL TEXT FOR PACKAGE INSERTS

OPTIONAL INSERT 1}

Dear Valued [Channel Customer],

Thank you for your purchase of [Product Name]. We are delighted to share with you some great tips on using the product for the best results.

- A. For best results, apply the full product in a single spot on the cat's back between the shoulder blades. Applying the material in a single spot is intended to reduce the potential for oral exposure via self-grooming activity. For complete instructions on application, please read the package label.
- B. [Product Name] contains sesame oil as a coat conditioner. The sesame oil helps the product to spread over the cat's fur and acts as a coat conditioner as well. After the product has dried, you may brush through your cat's fur with a cat brush or comb for distribution of the product and coat conditioning sesame oil.
- C. Sensitivities may occur after the use of any topically applied product. A pet's skin is a complex organ, and your pet's skin may be generally sensitive to topical products. If you have questions about best results or if your pet experiences a reaction after application, please call 1-800-brand phone number to talk to a product specialist.
- D. Cats are inclined to self-groom, especially after an application of any dermal product. This is a normal activity. For multiple cat households, prevent the cats from grooming each other until the product has dried.
- E. Although self-grooming is a normal activity, it is possible for cats to have oral exposure to [Product Name] as a result of self-grooming. Due to the taste, oral exposure could result in salivation, which can be a cat's normal response to a bad taste. If you are concerned about salivation or other responses by your cat, please call 1-800-brand phone number to talk to a product specialist.
- F. Treatment of fleas on your pet does not address the 95-99% of the flea population that live in your house and yard. So even after your cat is treated with [Product Name] and adult fleas are killed, flea eggs may continue to hatch in your home for up to two months. For best results, treat your yard and home for fleas with treatments that contain an Insect Growth Regulator, which kills flea eggs. Over time, treatment of your pet and its environment will eliminate fleas from your home.

{OPTIONAL INSERT/CARD 2}

STOP. Please read this insert/card and the entire instructions before using this product.

[Brand Name] wants the best for your cat, and we are pleased to share with you some great tips for using the product.

- Use [Product Name] only as directed.
- Brush your cat's coat 24 hours after application.
- Apply away from furniture and carpeting.
- Consult a veterinarian before using if your cat is aged, pregnant, nursing, or taking other medication.

2. DIRECTIONS FOR USE FOR DIRECT APPLICATION TO CAT

READ ENTIRE LABEL [AND INSERT(S)] BEFORE USE.

USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]. DO NOT APPLY TO CATS WEIGHING LESS THAN [5 LBS]/[2.5 LBS]. DO NOT ALLOW CHILDREN TO APPLY PRODUCT.

[formulated for cats [& kittens]][For use on cats only][Do not use on animals other than cats]

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

USE RESTRICTIONS:

Do not apply more than once every month. Do not allow children to apply product. Do not use more than one tube/vial/cartridge per cat. Do not use on kittens less than 12 weeks old. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. Do not apply to cats weighing less than [2.5 lbs.][5 lbs.]

Do not spread [RF2186 CCSO Plus] by hand over the cat/kitten. Do not bathe the cat/kitten within the first 24 hours after Spot On® [squeeze on] has been applied. Households with more than one cat/kitten should prevent cats/kittens from grooming each other until solution has dried.

Do not reapply product for 30 days. Do not treat more than once per month.

This product contains [3] monthly dosages , each [(0.88 mL [0.030 fl oz]) [1.58 mL [0.053 fl oz]].

[RF2186 CCSO Plus] works by application directly to the cat's/kitten's skin, not to the hair. {Note: Application assumes one [tube] [vial] [cartridge] per cat per application}

[APPLICATION METHOD]

1. **OPEN** [icon]: [Remove one [tube][cartridge][vial] from the package and hold in an upright position (pointed away from your face).] [Bend at perforation and tear off 1st month's applicator.] [Hold applicator upright] and snap tip back, away from face and body.
2. **APPLY** [icon]: The cat/kitten should be standing for easy application. Use tip of [vial][tube] [cartridge] prior to application of the product, to gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [vial] [tube] [cartridge] on the cat's exposed skin and squeeze out the [entire] contents of the [vial] [tube] [cartridge] onto the cat's skin.

[Although the cat's/kitten's skin and hair oils will [over time] distribute the application over the entire cat/kitten, brushing the cat/kitten 12-24 hours after treatment will help to distribute the material over the skin.]

3. **DISPOSE** [icon]: To dispose of empty [tube][vial][cartridge], drop [empty] [tube] [vial][cartridge] into trash or offer for recycling if available.
4. **RETREAT:** Reapply product after 30 days.

{Note: Each package contains sufficient [cartridges/tubes/vials] for 3 applications}

[0.88 mL [0.030 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs only .
 1.58 mL [0.053 fl oz] dose for use on cats and kittens 5 lbs. and over only {Same size
 [tube][vial][cartridge] with different fill amounts}

[RF2186 CCSO Plus] is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas. [The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with [RF2186 CCSO Plus] kills fleas that may cause this condition.]

[RF2186 CCSO Plus] is a topically applied [long-lasting] [flea and tick treatment] product specifically formulated for cats and kittens with [containing] [it also contains] an insect growth regulator (IGR)[S-Methoprene][*InfestStop™][to prevent and control flea infestations][to kill fleas before they hatch][which prevents flea eggs from maturing into biting adults]. It [This product] also contains the highly effective flea, deer tick, and mosquito killing agent [Etofenprox], which kills biting adult fleas, deer ticks, and mosquitoes your cat/kitten may acquire from its surroundings. A single application of [RF2186 CCSO Plus] will provide flea egg hatch inhibition for up to [30 days] [1 month][4 weeks]. Each package contains enough product for 3 monthly applications [90 days of protection [control]]. [RF2186 CCSO Plus] provides relief from flea infestations for up to [1 month] [4 weeks][30 days] by killing adult fleas and flea eggs on your cat or kitten. Adult fleas can live on your cat while producing vast numbers of eggs, which drop off your cat and develop in the surrounding environment. [RF2186 CCSO Plus] [is designed to] kill(s) adult fleas and flea eggs, breaking the flea life cycle and providing your cat/kitten relief from flea bites at the same time.
*(S)-Methoprene

After application, your cat's/kitten's [ordinary] [innate] skin oils [disperse] carry [RF2186 CCSO Plus] over your cat's/kitten's body for protection against biting adult fleas and the development of flea eggs. [[This product] may stain leather and suede fabrics for [24][24 to 48] hours after application.] Once adult fleas are evident on your cat/kitten, there is likely an infestation of flea eggs and flea larvae in your home. To completely kill the existing flea population, you may need to treat your home and your cat's bedding [home sprays, foggers], as well as your yard [yard spray/outdoor fogger] with traditional flea products approved for use on cats, around the home, or in your yard. [RF2186 CCSO Plus] can be used in conjunction with other [Brand Name] premise products. As with all flea products, they are [RF2186 CCSO Plus is] most effective when used as part of a total program aimed at reducing all stages of fleas in the cat's/kitten's environment. [Brand Name] products [They] are designed to complement each other in an integrated program for flea, deer tick, and mosquito management. To assure proper treatment, we recommend use of [Brand Name] products as directed to treat all pets in the household, as well as the indoor and outdoor home environments.]

{Note: full Directions for Use to be used if space allows}

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

USE RESTRICTIONS:

Do not apply more than once every month. Do not allow children to apply product. Do not use more than one tube/vial/cartridge per cat. Do not use on kittens less than 12 weeks old. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. Do not apply to cats weighing less than [2.5 lbs.][5 lbs.]

Do not spread [RF2186 CCSO Plus] by hand over the cat/kitten. Do not bathe the cat/kitten within the first 24 hours after Spot On® [squeeze on] has been applied. Households with more than one cat/kitten should prevent cats/kittens from grooming each other until solution has dried.

Do not reapply product for 30 days. Do not treat more than once per month.

1. DIRECTIONS FOR USE WITH APPLICATOR

[To apply the [RF2186 CCSO Plus] treatment with the [Brand Name] applicator, use one disposable liquid [cartridge][tube][vial][for each application] with the applicator device.]

[Remove one refill [cartridge][tube][vial] from the package and insert into opened [Brand Name] applicator device. Make application according to label directions supplied with the [Brand Name] applicator device.] If you need directions for application, please call 1-800-(brand phone number).

[If you choose to apply directly to cat without using the applicator device, read and follow the Directions For Use for Direct Application to Cat on this package.]

2. DIRECTIONS FOR USE FOR DIRECT APPLICATION TO CAT

READ ENTIRE LABEL BEFORE USE.

USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND [OVER 2.5 LBS AND UNDER 5 LBS][5 LBS AND OVER]. [formulated for cats [& kittens]][For use on cats only][Do not use on other animals]

This product contains 3 monthly dosages, each [0.88 mL] [0.030 fl oz] and [1.58 mL [0.053 fl oz]].

[RF2186 CCSO Plus] works by application directly to the cat's/kitten's skin, not to the hair. {Note: Application assumes one [tube][vial] [cartridge] per cat per application}

[APPLICATION METHOD]

1. **OPEN** [icon]: [Remove one [tube][cartridge][vial] from the package and hold in an upright position (pointed away from your face).] [Bend at perforation and tear off 1st month's applicator.] [Hold applicator upright] and snap tip back, away from face and body.
2. **APPLY** [icon]: The cat/kitten should be standing for easy application. Use tip of [vial][tube] [cartridge] prior to application of the product, to gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the [vial] [tube] [cartridge] on the cat's exposed skin and squeeze out the [entire] contents of the [vial] [tube] [cartridge] onto the cat's skin.

[Although the cat's/kitten's skin and hair oils will [over time] distribute the application over the entire cat/kitten, brushing the cat/kitten 12-24 hours after treatment will help to distribute the material over the skin.]

3. **DISPOSE** [icon]: To dispose of empty [tube][vial][cartridge], drop [empty] [tube] [vial][cartridge] into trash or offer for recycling if available.
4. **RETREAT**: Reapply product after 30 days.

{Note: Each package contains sufficient [cartridges/tubes/vials] for[3] applications}
 [0.88 mL [0.030 fl oz] dose for use on cats and kittens over 2.5 lbs and under 5 lbs only .
 1.58 mL [0.053 fl oz] dose for use on cats and kittens 5 lbs. and over only {Same size applicators with different fill amounts}

[RF2186 CCSO Plus] is most effective when used as part of a total flea and tick management program. Use other [Brand Name] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.[The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with [RF2186 CCSO Plus] kills fleas that may cause this condition.
