

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

89459-124

Date of Issuance:

05/07/2020

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

RF2306 SGD EP

Name and Address of Registrant (include ZIP Code):

Ms. Heather Friedli
Regulatory Affairs Specialist
Central Garden & Pet Company
1501 East Woodfield Road, Suite 200W
Schaumburg, IL 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above-named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(B). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Sincerely,

Shanta Adeeb, Product Manager 10
Invertebrate-Vertebrate Branch 2
Registration Division (7505P)
Office of Pesticide Programs

Date:

05/07/2020

EPA Form 8570-6

2. You are required to comply with the data requirements described in the Generic DCI identified below:
 - a. Diflubenzuron GDCI-108201-1286

You must comply with all the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:

<http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. Be aware that proposed data requirements have been identified in a Work Plan. For more information on these proposed data requirements, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: http://www.epa.gov/oppsrrd1/contacts_prd.htm
4. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSF:

- Basic CSF dated 03/19/2020

If you have any questions, please contact Mr. Carmen J. Rodia, Jr. by phone at (703) 306-0327, or via email at Rodia.Carmen@epa.gov.

DIFLUBENZURON	GROUP	15	INSECTICIDE
---------------	-------	----	-------------

RF2306 SGD EP

A [[nutritional] [protein] [supplement]] [[complete] [feed]] containing [[Diflubenzuron] [an insect growth regulator] [a larvicide]] for continuous feeding to [sheep] [and/or] [goats] through [throughout] the [entire] [house fly] [and/or] [stable fly] season

A [[nutritional] [protein] [supplement]] [[complete] [feed]] containing [[Diflubenzuron] [an insect growth regulator] [a larvicide]] [to] [that] prevent(s) the emergence of [house flies] [and/or] [stable flies] from [manure][waste] of treated [sheep] [and/or] [goats]

[Can be used as] part of [[an integrated][a total][a complete]] [house fly control][stable fly control][pest management] program

ACTIVE INGREDIENT:

Diflubenzuron* (CAS #35367-38-5).....0.0016%

OTHER INGREDIENTS:.....99.9984%

TOTAL.....100.0000%

*Contains [7.26 mg] [0.000256 oz.] diflubenzuron per pound or [16 mg diflubenzuron per kilogram]

FEED INGREDIENTS**

Molasses products; Forage products; Grain products; Plant Protein products; Processed Grain by-products; Roughage products; Mineral products; Vitamins; Food Additives Permitted in Animal Feed/Drinking Water; GRAS ingredients; Non-Protein Nitrogen (Urea); Fats/Oils; Animal products; Animal Protein products***; Chemical preservatives; Amino Acids and related products; Brewers products; Fermentation products; Distillers products; Enzymes; Citrus products; Marine products; Milk products; Oilseed products; Special Purpose products

** AAFCO approved feed ingredients may vary depending on nutritional requirements in different geographical areas of the country

[Contains no prohibited animal by-products in accordance with FDA regulation 21 CFR 589.2000]

[Free from restricted ruminant protein product per Title 21 CFR 589.2000]

[Does not contain any animal protein prohibited in ruminant feed.]

[This product was manufactured in a facility that does not handle or store animal protein products prohibited in nutrient feed as described in 21 CFR 589.2000]

[This supplement must be used only in accordance with the directions on the label] [Use only as directed]

[Follow label directions] [Feeding added selenium levels in excess of 0.3 ppm in the total diet is prohibited]. [This product contains copper and should not be fed to sheep.]

GUARANTEED ANALYSIS

(Will vary depending on geographic area and regional feeding)

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See additional Precautionary Statements

EPA Reg. No. 89459-124

EPA Est. No.

Lot Number:

NET WEIGHT: 1 – 50 lbs

ACCEPTED

05/07/2020

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under

EPA Reg. No. 89459-124

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID	
If in Eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product, including health concerns, medical emergencies, or pesticide incidents, you may call 1-800-222-1222, 24 hours per day, 7 days per week.	

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FEEDING AND MANAGEMENT INSTRUCTIONS

When used as directed, [[RF2306 SGD EP] [Brand Name] [this product]] provides sufficient diflubenzuron insect growth regulator to prevent the emergence of [adult] [House flies] [*Musca domestica*] [and/or] [Stable flies] [*Stomoxys calcitrans*] from manure of treated [sheep] [and] [goats]. Existing adult house flies and stable flies will not be affected. Start feeding before house flies and stable flies appear and continue use until cold weather marks the end of the fly season. Use [[RF2306 SGD EP] [Brand Name] [this product]] as part of a(n) [integrated][pest][fly] [control] [management] program aimed at reducing house fly and stable fly populations. House flies and stable flies can [[breed][and][develop]] in decaying vegetable matter or spilled silage on premises in the [sheep's] [and] [goat's] environment. Good sanitation practices, such as cleaning up spilled feed and preventing manure build-up around barns and fences or under feed bunks, will eliminate additional breeding sites for house flies and stable flies.

Feeding Directions for Sheep and Goats

Feed [RF2306 SGD EP] [brand name] [this product] daily to provide [0.4 mg Diflubenzuron/kg][0.0000064 oz Diflubenzuron/lb] of body weight. Use the following table to determine the exact amount of this product needed based on the weight of each sheep and/or goat to be treated.

Sheep/Goats Weight Range (lbs)		Sheep/Goats Weight Range (kgs)		Range of Feed/Head/Day (lbs)	
Lightest	Heaviest	Lightest	Heaviest	Least	Most
25	50	11.36	22.73	0.75	1.5
51	75	23.18	34.09	1.5	3
76	100	34.55	45.45	2	4
101	150	45.91	68.18	3	5
151	200	68.64	90.91	4	6.5
201	250	91.36	113.64	5	7

For larger sheep and/or goats, over 250 lbs of body weight, feed an additional 1 pound [16 oz] for each additional 50 lbs of body weight.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Keep this product in its tightly closed original container. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

Pesticide Disposal: Wastes resulting from the use of this pesticide may be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into mixing equipment, then offer for recycling, if available or dispose of empty bag in a sanitary landfill or by other procedures approved by state and local authorities.

CONDITIONS OF WARRANTY AND LIMITATION OF LIABILITY

Read the entire Directions for Use, Conditions of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

CONDITIONS: The Directions for Use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Central Garden & Pet Company. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: To the extent consistent with applicable law, Central Garden & Pet Company makes no other warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of Central Garden & Pet Company is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Central Garden & Pet Company disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at Central Garden & Pet Company's election, the replacement of product.

[OPTIONAL LANGUAGE]

IMPLEMENT THE OPTIMUM IPM

House flies and stable flies are pervasive and resilient pests. Make the most of your control efforts by incorporating an integrated pest management program [IPM] with [Brand name][this product]. The ideal program will hit house flies and stable flies where they breed.

IPM PROGRAM OVERVIEW

PLANNING

- Assess your operation and find the house fly and stable fly hot spots.
- Establish a plan to minimize pest damage by the most economical means, utilizing various control measures.
- Set an action threshold, a point at which pest populations or environmental conditions indicate that pest control action must be taken.
- Train other employees on the plan.

IMPLEMENTATION

Sanitation Control

- Keep buildings in good repair and your grounds free of debris where house flies and stable flies can breed.
- Keep animal areas as clean and dry as possible. House flies and stable flies lay their eggs in manure, decaying silage, spilled feed, and soiled bedding.
- Keep feed storage areas, bunks, and water troughs in good repair, clean, and as dry as possible.
- Keep grass and weeds around barns, feeders, hutches, and manure piles cut low. Overgrown areas provide an ideal resting and breeding ground for house flies and stable flies.

Non-Insecticidal Controls

- The Starbar® line of sticky/jug traps can be used for controlling adult house flies and stable flies and are ideal for keeping track of control efforts.
- Traps are good for areas where conventional chemical control is out of the question, such as, feeding areas.

Traditional Chemical Controls

- Scatter baits from Starbar® such as QuikStrike®, Golden Malrin® and Cyanarox scatter baits are a form of chemical control that can be used in rotation to fight house fly and stable fly resistance. Scatter baits can be used in a variety of locations [consult labels] around the operation. However, keep away from animals and children.

IGR Larvicide Controls

- Incorporate an IGR larvicide into all [sheep][and/or][goat] feed.

EVALUATION

- Keep track of house fly and stable fly populations with speck cards as well as non-insecticidal jug and sticky traps.
- Document your progress with a concise record of locations, conditions, and action taken.
- Rotate traditional chemical control products to fight house fly and stable fly resistance.

No one aspect of an IPM will eliminate house flies and stable flies. Incorporation of all these steps into one program is key. [Brand name][this product] is an important component to help control house fly and stable fly populations in a successful IPM program on your operation. For more information about [brand name][this product], call 1-800-XXX-XXXX or visit [URL]. For more information about Starbar® products, visit starbarproducts.com
