

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505T)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

EPA Reg. Number:

89459-144

Date of Issuance:

9/26/25

Term of Issuance:

Conditional

Name of Pesticide Product:

RF2314 IGR Aerosol

Name and Address of Registrant (include ZIP Code):

Central Garden & Pet
1501 East Woodfield Road, Suite 200 West
Schaumburg, Illinois 60173

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Continues page 2

Signature of Approving Official:

Jacquelyn Herrick, Product Manager 03
IVB1, Registration Division (7505T)

Date:

9/26/25

EPA Form 8570-6

2. You are required to comply with the data requirements described in the generic data call-in (GDCI) identified below:

- a. Cypermethrin GDCI-109702-1208
- b. Cypermethrin GDCI-109702-1107
- c. Piperonyl Butoxide (PBO) GDCI-067501-26641

You must comply with all of the data requirements within the established deadlines. If you have questions about the GDCI listed above, you may contact the Chemical Review Manager in the Pesticide Re-Evaluation Division: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 89459-144."
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance. If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

The record for this product currently contains the following CSFs:

- Basic CSF dated 07/12/2023
- Alternate CSF 1 dated 07/12/2023
- Alternate CSF 2 dated 07/12/2023
- Alternate CSF 3 dated 07/12/2023

If you have any questions, please contact Hester Dingle at 202-566-2596 or at dingle.hester@epa.gov.

SUBLABEL A: OCCUPATIONAL USE

RF2314 IGR Aerosol

- Water Based Formula
- [No lingering chemical odor]
- [Leaves no chemical odor]
- [Won't stain or discolor]
- [Non-staining]
- [Kills by Contact]
- [Does not stain]
- [Pressurized spray (for use indoors and outdoors)]
- Contains Synergized Prallethrin
- [Kills Ants (excluding carpenter ants)]
- [Kills Cockroaches, Palmetto Bugs, Water bugs, Silverfish, Carpet Beetles, Sowbugs and Asian Lady Beetles]
- [Kills Spiders (including Black Widow [and] & Brown Recluse Spiders)]
- [Formulated to kill Spiders]
- [Kills Fleas and American Dog Ticks]
- [Kills Ants (excluding carpenter ants)]
- [Kills German Cockroaches on Non-Porous Surfaces for 12 Weeks (3 Months)]
- [Keeps killing German Cockroaches for up to 12 Weeks (3 Months) on non-porous surfaces]
- [Contact, crack and crevice and surface spray]
- [Kills listed crawling insects]
- [No oily residue]
- [Kills listed crawling insects by contact]
- [Odorless]
- Kills Fleas – Ticks – Cockroaches – Ants (excluding carpenter ants)
- Kills fleas and flea larvae
- Kills both adult and preadult fleas
- Kills adult and immature fleas & ticks
- Kills Ticks
- Kills both adult fleas and flea larvae
- Kills adult and immature fleas
- Contains PRECOR® Insect Growth Regulator Plus adulticides Contains [With][Plus] PRECOR® Insect Growth Regulator [IGR]
- Provides 210 [7 month] [30 weeks] days control of fleas
- Stops hatching flea larvae from developing into adult fleas for 210 days [30 weeks] [7 months]
- Effectively breaks the flea life cycle
- For Use in the Home/Garage/Kennel to Control Fleas, [and other listed bugs]
- For use in: [Buildings and structures including] [residential] homes, apartments, garages, kennels, nonfood/feed areas of hotels, motels, hospitals, laboratories, schools, warehouses, commercial, industrial, or office buildings and modes of transport including vessels, rail cars, buses, trucks, and trailers.
- Kills cockroaches, ants (excluding carpenter ants), spiders (including brown recluse and black widows), ticks, fleas, house flies, wasps, hornets, yellowjackets, brown marmorated stink bugs, Asian lady beetles, sow bugs, carpet beetles, silverfish,

water bugs, box elder bugs and palmetto bugs

{Front Panel}

ACTIVE INGREDIENTS:

Cypermethrin	0.100%
Piperonyl butoxide*	0.150%
Prallethrin	0.015%
S-Methoprene	0.090%

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

Personal Protective Equipment (PPE):

Applicators must wear

- Long-sleeve shirt,
- Long pants,
- Shoes and socks

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID	
IF IN EYES:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	<ul style="list-style-type: none">• Immediately call a poison control center or doctor.• Do not induce vomiting unless told to do so by a poison control center.• Do not give any liquid to the person.• Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call 1-800-xxx-xxxx for emergency medical treatment information.	
Note to Physician: Contains petroleum distillate, vomiting may cause aspiration pneumonia.	

ENVIRONMENTAL HAZARDS

This product is highly toxic to fish and aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements. This product is toxic to bees and other pollinating insects exposed to direct

treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees or other pollinating insects are actively foraging in the area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.

For both indoor and outdoor use.

USE RESTRICTIONS

Do not enter or allow others to enter until sprays have dried.

Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed and the treated area has been thoroughly ventilated.

Do not remain in treated area. Exit area immediately and remain outside the treated area until sprays have dispersed.

Do not wet articles to point of runoff or drip.

Do not use treated article until spray has dried.

Do not apply when food is present.

Prior to space spray application, remove or cover dishes, utensils, food processing equipment, and food preparation/processing surfaces, or clean after treatment and before use.

Do not allow to enter any indoor or outdoor drains unless labeled for drain treatments. (No permita la entrada a desagües internos o externos a menos que el etiquetado indique que está permitido el uso del producto para tratamiento de desagües.) Follow proper disposal procedures on this label. (Siga las indicaciones del etiquetado para el desecho apropiado del producto.)

Except when applying to sewers or drains as instructed on this label, do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.

Do not use in aircraft cabins.

Spray to wet, avoiding pooling or spray to slightly wet without soaking

Do not apply to classrooms when in use. Do not apply to patient rooms in hospitals and nursing homes while occupied. Do not use in structures (barns, stables) that house food-producing animals or animals that may be used for food or feed. For use in the non-food and non-feed areas of food and feed handling establishments. Non-food and non-feed areas of food and feed establishments are areas such as garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning and bottling). Do not use in food or feed areas of food or feed handling establishments, restaurants, or other areas where food or feed is commercially prepared or processed. Do not use in serving areas. Serving areas are areas where prepared foods are served, such as dining rooms but excluding areas where foods may be prepared or held.

Do not spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate after application to the point of runoff.

Do not water the treated area to the point of run-off.

Not for use in outdoor residential misting systems or metered release systems.

Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

Do not apply when the wind speed is greater than 15 mph.

Repeat indoor treatments to infested areas as necessary at intervals of 14 days or greater. Do not make more than six applications per site per year.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Remove pets, birds, and cover fish aquariums before spraying. Only protected handlers may be in the area during application

All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: 1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation, 2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn), 3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure, 4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch, 5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level, 6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Spot treatments must not exceed two square feet in size (for example, 2 ft by 1 ft or 4 ft by 0.5 ft).

Treat surfaces to ensure thorough coverage but avoid runoff. To treat insects harbored in voids and cracks-and-crevices, application must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

For soil applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries, and commercial fish farm ponds.

FOR INDOOR AND OUTDOOR SPOT OR CRACK AND CREVICE TREATMENT (Efficacy for pests is only achieved through direct spray.)

Residential and Commercial Buildings: Auditoriums, Basements, Bathrooms, Dumpsters, Garbage Receptacles, Garbage Handling Equipment, Homes, Apartments, Bedrooms, Utility Rooms, Jails, Prisons, Storage facilities, Production areas. **Transportation:** Buses, Cars, Shipping Containers, Animal, Produce and Dry Goods Trailers, Ship and Ship Holds, Equipment, Trains, Trucks, Aircraft Cargo Holds.

RF2314 PCP PLUS AEROSOL [Brand Name] kills adult fleas, hatching flea eggs, flea larvae, and ticks, cockroaches, and ants (excluding carpenter ants) on non-porous surfaces. Efficacy is

achieved through direct spray only. PRECOR®, the ingredient in RF2314 PCP PLUS AEROSOL [Brand Name] provides 210 days' protection by preventing eggs from developing into biting fleas.

(DIRECTIONS FOR TWO ALTERNATE SPRAY NOZZLES)

(OPTION 1) U-STRAW DFU:

INDOORS: Hold container with nozzle pointed away from you. Can be used as a spot or crack and crevice treatment on non-porous surfaces. For applications as a crack and crevice using supplied extension tube in actuator, apply product from a maximum distance of 12 inches at a rate of 1.5 seconds per linear foot. For application as a spot spray, use actuator. For application as a spot spray, treat surface until slightly wet, about 2 seconds per spot from a distance of 8-12 inches. The 360° valve allows the product to be sprayed upright or upside down to facilitate applications. Pests must be contacted directly to be efficacious.

(OPTION 2) BUTTON ACTUATOR DFU:

INDOORS: Remove protective cap. Make a test application in an inconspicuous place before use. Spray RF2314 PCP PLUS AEROSOL [Brand Name] from 1 foot away from the non-porous surface being treated. Do not use as a broadcast spray. A fine mist spray that is evenly applied will do the job properly. Do not spray wood furniture, floors, or trim as water spotting may occur. Pests must be contacted directly to be efficacious. Repeat treatment as necessary.

TO KILL: cockroaches, ants (excluding carpenter ants), spiders (including brown recluse and black widows), ticks, fleas (both adult and larvae), house flies, wasps, hornets, yellowjackets, brown marmorated stink bugs, Asian lady beetles, sow bugs, carpet beetles, silverfish, water bugs, box elder bugs, and palmetto bugs, use the following directions:

To Kill German cockroaches, spray 1.5 seconds or 1.5 g of product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill American cockroaches, spray 1.5 seconds or 2.7 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill paper wasps, bald faced hornets and yellow jackets, spray 1 second or 2.27 g, 2.46 g and 2.3 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill ticks spray 1.5 seconds or 1.47 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill house flies and lesser house flies, spray 1.5 seconds or 1.24 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill spiders (including black widow and brown recluse), spray 1.5 seconds or 1.63 g of product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill fleas, spray 1.5 seconds or 1.16 g product from a distance of 12 inches. Insects must be contacted directly to be effective.

To Kill ants (excluding carpenter ants), spray 1.5 seconds or 1.06 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

RESIDUAL GERMAN COCKROACH CONTROL: Hold can 12 inches from the surface to be sprayed. Spray a band in areas where German cockroaches generally crawl or reside in hidden

areas around sinks and storage areas, behind and along baseboards, around windows and doors, behind and under refrigerators, cabinets, sinks and stoves, and under shelves. Use an application rate of 1.0 g per 18 square inches. Apply every three months to non-porous surfaces.

TO KILL FLEA EGGS AND LARVAE. DO NOT TREAT ANIMALS WITH THIS PRODUCT.

Remove and destroy old pet bedding. Spray sleeping quarters of pets. Do not allow pets to use treated areas until spray has dried. Replace bedding with clean or new material. For best results, treat pets with a product registered for animal application to control the source of flea and tick infestation.

FOR THE CONTROL OF: brown marmorated stink bugs, Asian lady beetles, sow bugs, carpet beetles, silverfish, water bugs, and palmetto bugs.

FOR USE IN THE HOME/GARAGE/KENNEL

1. Identify non-porous treatment areas. Before treatment, make a test application in an inconspicuous place. **2. Prepare treatment areas.** Remove pets and birds, and cover and unplug fish aquariums before spraying. Remove motor vehicles before using in garages. For best results with Surface/Carpet treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. This product may also be used for infested non-porous surfaces inside motor vehicles. **3. Apply treatment.** Hold container [upside down] 1 foot from surface, point actuator towards the surface and push button. Apply as a spot treatment only to surfaces of furniture, and around all non-porous pet resting areas until “slightly damp”. Reapply in 14 days, if necessary. **IMPORTANT:** Keep people and pets out of areas during treatment. Do not apply directly to pets or animals. Vacate room after treatment and ventilate until surfaces are dry before reoccupying. For best results, treat pets with a product registered for animal application to control the source of flea and tick infestation.

For use in: Hotels, Motels, and Schools: **1. Prepare Treatment Areas.** For best results with non-porous surface treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. Test in an inconspicuous area before treating. Keep people and pets out of areas during treatment. Cover and unplug aquariums before spraying. Thoroughly ventilate until surfaces are dry before reoccupying. **2. Apply Treatment.** Hold container [upside down] 1 foot from surface, point actuator towards the surface and push button. Apply as a spot treatment only to non-porous surfaces of furniture until “slightly damp”. Reapply in 14 days, if necessary.

For use in: Hospitals, Offices, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains, Trucks), Warehouses, Utilities, Veterinary Clinics and Other Commercial and Industrial Buildings: **1. Prepare Treatment Areas.** For best results with non-porous surface treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. Test in an inconspicuous area before treating. Keep people and pets out of areas during treatment. Cover and unplug aquariums before spraying. Thoroughly ventilate until surfaces are dry before reoccupying. **2. Apply Treatment.** Hold container [upside down] 1 foot from non-porous surface, point actuator towards the surface and push button. Using a sweeping motion, apply a light, uniform spray to all non-porous surfaces of furniture and around all pet resting areas. Mist treated areas only until “slightly damp”. Reapply in 14 days, if necessary.

PESTS ON OUTSIDE SURFACES OF BUILDINGS – For treating listed pests, spray directly. RF2314 PCP PLUS AEROSOL [Brand Name] may be applied as a spot, crack and crevice, or void treatment to outside surfaces. Do not apply as a broadcast spray.. Product is efficacious

against wasps, hornets and yellow jackets within 24 hours of exposure. Insects must be contacted directly to be efficacious. Efficacy against public health pests is achieved through direct spray only. Repeat treatment as necessary, but not more than once per week.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Do not store near heat or open flame. Store in cool, dry area away from children.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for local disposal instructions.

WARRANTY: Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

SUBLABEL B: RESIDENTIAL USE

RF2314 IGR Aerosol

- Kills stink bugs Brown Marmorated Stink Bugs (BMSB), Asian Lady Beetles and Box Elder Bugs
- Kills cockroaches, ants (excluding carpenter ants), spiders (including brown recluse and black widows), ticks, fleas, house flies, wasps, hornets, yellowjackets, brown marmorated stink bugs, and Asian lady beetles
- [Kills Ants (excluding carpenter ants)]
- Spray and kill
- Indoor and outdoor spray
- Spot treatment
- [Kills German Cockroaches on Non-Porous Surfaces for 12 Weeks (3 Months)]
- [Keeps killing German Cockroaches for up to 12 Weeks (3 Months) on non-porous surfaces]
- Kills cockroaches and ants by contact
- Kills Ticks
- Kills deer ticks [which may transmit Lyme disease, anaplasmosis, babesiosis, and Powassan disease]
- Kills Lone Star Ticks [which may transmit Ehrlichia chaffeensis and Ehrlichia ewingii (which cause human ehrlichiosis), tularemia, and STARI]
- Kills American Dog Ticks [which may transmit Rocky Mountain spotted fever in the southwestern U.S. and along the U.S.-Mexico border]
- [Kills cockroaches and ants by contact]
- [A broad spectrum insecticide] effective against Ants (excluding carpenter ants), Carpet Beetles, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Ticks, Flies, Flour Beetles, Grain Beetles, Pillbugs, Silverfish, Sowbugs, Spiders (including Black widow, Brown Recluse) and other listed crawling insects
- Economical Do-It-Yourself Pest Control
- 360° coverage
- 360° valve allowing upside down spraying capability
- Kills Fleas – Ticks – Cockroaches – Ants (excluding carpenter ants)
- Kills fleas and flea larvae
- Kills [Controls] both adult and preadult fleas
- Kills adult and immature fleas & ticks
- Kills Ticks
- Kills [Controls] both adult fleas and flea larvae
- Kills adult and immature fleas
- Contains PRECOR® Insect Growth Regulator Plus adulticides Contains [With][Plus] PRECOR® Insect Growth Regulator [IGR]
- Provides 210 days control of fleas
- Stops hatching flea larvae from developing into adult fleas for 210 days [30 weeks] [7 months]
- Effectively breaks the flea life cycle
- For Use in the Home/Garage/Kennel to Control Fleas, [and other listed bugs]
- For use in and around non-food residential areas such as homes, garages, automobiles, kennels, furniture, and other inanimate objects infested with fleas and

listed insects, out buildings, barns, and apartment buildings, and the non-food/feed areas of warehouses, office buildings, utilities, commercial and industrial buildings, transportation equipment (do not use in aircraft cabins).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID	
IF IN EYES:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none">• Immediately call a poison control center or doctor.• Do not induce vomiting unless told to do so by a poison control center.• Do not give any liquid to the person.• Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call 1-800-xxx-xxxx for emergency medical treatment information.	
Note to Physician: Contains petroleum distillate, vomiting may cause aspiration pneumonia.	

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is highly toxic to fish and aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements. This product is toxic to bees and other pollinating insects exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees or other pollinating insects are actively foraging in the area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.

For both indoor and outdoor use.

USE RESTRICTIONS

Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Do not allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed and the treated area has been thoroughly ventilated.

Do not remain in treated area. Exit area immediately and remain outside the treated area until sprays have dispersed.

Do not allow to enter any indoor or outdoor drains. (No permita la entrada a desagües internos o externos.) Follow proper disposal procedures on this label. (Siga las indicaciones del etiquetado para el desecho apropiado del producto.)

Do not wet articles to point of runoff or drip.

Do not use treated article until spray has dried.

Do not apply when food is present.

Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Spray to wet, avoiding pooling or spray to slightly wet without soaking

Do not use in structures (barns, stables) that house food-producing animals or animals that may be used for food or feed.

Do not spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate after application to the point of runoff.

Do not water the treated area to the point of run-off.

Not for use in outdoor residential misting systems or metered release systems.

Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

Do not apply when the wind speed is greater than 15 mph.

Repeat indoor treatments to infested areas as necessary at intervals of 14 days or greater. Do not make more than six applications per site per year.

Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before spraying. Shake well before using. Hold container upright while spraying. Spray away from self and other persons.

All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: 1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation, 2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn), 3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering,

overhang, awning, or other structure, 4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch, 5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level, 6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Spot treatments must not exceed two square feet in size (for example, 2 ft by 1 ft or 4 ft by 0.5 ft).

Spot treat surfaces to ensure thorough coverage but avoid runoff. To treat insects harbored in voids and cracks-and-crevices, application must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

For soil applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries, and commercial fish farm ponds.

FOR INDOOR AND OUTDOOR SPOT OR CRACK AND CREVICE TREATMENT

Residential Buildings: Basements, Bathrooms, Dumpsters, Garbage Receptacles, Homes, Apartments, Bedrooms, Utility Rooms, **Transportation:** Buses, Cars

RF2314 PCP PLUS AEROSOL [Brand Name] kills adult fleas, hatching flea eggs, flea larvae, and ticks, cockroaches, and ants (excluding carpenter ants). PRECOR®, the ingredient in RF2314 PCP PLUS AEROSOL [Brand Name] provides 210 days' protection by preventing eggs from developing into biting fleas. For best results, treat pets with a product registered for animal application to control the source of flea and tick infestation.

(DIRECTIONS FOR TWO ALTERNATE SPRAY NOZZLES)

(OPTION 1) U-STRAW DFU:

INDOORS: Hold container with nozzle pointed away from you. Can be used as a non-porous surface or spot or crack and crevice treatment. For applications as a crack and crevice using supplied extension tube in actuator, apply product from a maximum distance of 12 inches at a rate of 1.5 seconds per linear foot. For application as a spot spray, use actuator. For application as a spot spray, treat non-porous surface until slightly wet about two seconds per spot from a distance of 8-12 inches. The 360° valve allows the product to be sprayed upright or upside down to facilitate applications. Pests must be contacted directly to be efficacious.

(OPTION 2) BUTTON ACTUATOR DFU:

INDOORS: Remove protective cap. Make a test application to non-porous surfaces in an inconspicuous place before use. Spray RF2314 PCP PLUS AEROSOL [Brand Name] from 12 inches away from surface being treated. Do not use as a broadcast spray. A fine mist spray that is evenly applied will do the job properly. Do not spray wood furniture, floors, or trim as water spotting may occur. Pests must be contacted directly to be efficacious. Repeat treatment as necessary to control fleas and ticks.

TO KILL: cockroaches, ants (excluding carpenter ants), spiders (including brown recluse and black widows), ticks, fleas (both adult and larvae), house flies, wasps, hornets, yellowjackets, brown marmorated stink bugs, Asian lady beetles, sow bugs, carpet beetles, silverfish, water bugs, box elder bugs, and palmetto bugs, use the following directions:.

To Kill German cockroaches, spray 1.5 seconds or 1.5 g of product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill American cockroaches, spray 1.5 seconds or 2.7 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill paper wasps, bald faced hornets and yellow jackets, spray 1 second or 2.27 g, 2.46 g and 2.3 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill ticks spray 1.5 seconds or 1.47 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill house flies and lesser house flies, spray 1.5 seconds or 1.24 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill spiders (including black widow and brown recluse), spray 1.5 seconds or 1.63 g of product from a distance of 12 inches away. Insects must be contacted directly to be effective.

To Kill fleas, spray 1.5 seconds or 1.16 g product from a distance of 12 inches. Insects must be contacted directly to be effective.

To Kill ants (excluding carpenter ants), spray 1.5 seconds or 1.06 g product from a distance of 12 inches away. Insects must be contacted directly to be effective.

RESIDUAL GERMAN COCKROACH CONTROL: Hold can 12 inches from the non-porous surface to be sprayed. Spray a band in areas where German cockroaches generally crawl or reside in hidden areas around sinks and storage areas, behind and along baseboards, around windows and doors, behind and under refrigerators, cabinets, sinks and stoves, and under shelves. Apply until non-porous surface is wet but not to the point of runoff. Use an application rate of 1 gram per 18 sq. inches. Apply every three months to non-porous surfaces.

TO KILL FLEA EGGS AND LARVAE. DO NOT TREAT ANIMALS WITH THIS PRODUCT.

Remove and destroy old pet bedding. Spray sleeping quarters of pets. Do not allow pets to use treated areas until spray has dried. Replace bedding with clean or new material. Treat pets with a product registered for animal application to control the source of flea and tick infestation.

FOR USE IN THE HOME/GARAGE/KENNEL

1. Identify treatment areas. Before treatment, make a test application to non-porous surfaces in an inconspicuous place. **2. Prepare treatment areas.** Remove pets and birds, and cover and unplug fish aquariums before spraying. Remove motor vehicles before using in garages. For best results with Surface/Carpet treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. This product may also be used for infested surfaces inside motor vehicles. **3. Apply treatment.** Hold container [upside down] 1 foot from surface, point actuator towards the non-porous surface and push button. Apply as a spot treatment only to non-porous surfaces of furniture, and around all non-porous pet resting areas until "slightly damp". Reapply in 14 days, if necessary. **IMPORTANT:** Keep people and pets out of areas during treatment. Do not apply directly to pets or animals. Vacate room after treatment and ventilate until surfaces are dry before reoccupying. For best results, treat pets with a product registered for animal application to control the source of flea and tick infestation.

PESTS ON OUTSIDE SURFACES OF BUILDINGS – For treating listed pests, spray directly. RF2314 PCP PLUS AEROSOL [Brand Name] may be applied as a spot, crack and crevice, or void treatment to outside surfaces. Do not apply as a broadcast spray. Product is efficacious against wasps, hornets and yellow jackets within 24 hours of exposure. Insects must be contacted directly to be efficacious. Efficacy against public health pests is achieved through direct spray only. Repeat treatment as necessary, but not more than once per week.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not store near heat or open flame. Store in cool, dry area away from children. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for local disposal options. Do not dispose of down-the-drain or sewer.

WARRANTY: Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
