U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

89698-1

Date of Issuance:

JAN 14 2014

NOTICE OF PESTICIDE:

[x] Registration

[] Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Advaseal HSM

Name and Address of Registrant (include ZIP Code):

Bayer Innovation, GmbH
c/o Toxcel, LLC
7140 Heritage Village Plaza
Gainesville, VA 20155

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The Basic Confidential Statement of Formula (CSF) dated 11/04/2013 is acceptable.

This product is registered in accordance with FIFRA section 3(c)(5) provided that you:

- 1. Submit and/or cite all data required for registration review/reregistration of your product when the Agency requires all registrants of similar products to submit data.
2. Assure that the establishment number is added to the final printed label.
3. Submit one (1) copy of the final printed label before you release the product for shipment.

A stamped copy of the label is enclosed for your records. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA §6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have any questions regarding this notice, please contact Maggie Rudick of my staff at 703-347-0257 or rudick.maggie@epa.gov.

**ADVASEAL® HSM
HERBICIDAL PLASTIC FUMIGATION FILM**

ADVASEAL® HSM is a plastic mulch film that releases a selective herbicide to control certain broadleaf weeds and nutsedge in selected crops and can be used to reduce fumigant emissions.
Only the inside layer of the product roll contains an herbicide.

THE COMPLETE LABEL FOR THIS PRODUCT CONSISTS OF THE CONTAINER LABEL AND BOOKLET ATTACHED TO SHIPPING CONTAINER. READ AND UNDERSTAND THE ENTIRE LABEL FOR DIRECTIONS FOR USE, PRECAUTIONS AND RESTRICTIONS.

WHEN USED WITH A FUMIGANT, OBSERVE THE MOST RESTRICTIVE OF THE LABELING LIMITATIONS AND PRECAUTIONS OF BOTH PRODUCTS

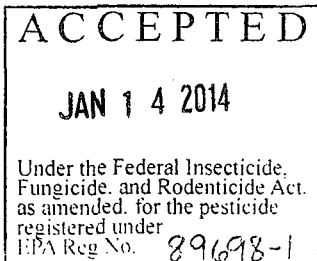

The depot layer of ADVASEAL® HSM contains:

Active Ingredient:	Halosulfuron-methyl.....	0.00705%
Other Ingredients:	99.99295%
Total:	100.00%

ROLL CONTENTS BY AREA: 0.110 oz Halosulfuron-methyl/10,000 ft² roll

ENTIRE ROLL DIMENSIONS:

Width:	60 inch
Length:	2000 feet
Thickness:	2 mil
Weight:	107 lbs

KEEP OUT OF REACH OF CHILDREN

CAUTION

Si usted no entiende la etiqueta, busque a alguien para que se las explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail).

FIRST AID

IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

YOU MAY ALSO CONTACT 919-280-9220 TOLL FREE FOR EMERGENCY MEDICAL TREATMENT INFORMATION

EPA Registration No. 89698-1
EPA Establishment No. xxxx
Batch/Lot:

Produced for:
Bayer Innovation GmbH
7140 Heritage Village Plaza
Gainesville, Virginia 20155

Net contents: One roll contains 0.110 oz of Halosulfuron-methyl

Back Panel

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENT

- Handlers must wear long sleeve shirt and long pants, socks, shoes and chemical resistant gloves.
- Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATION

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

The herbicide chemical incorporated into this plastic mulch film demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the groundwater is shallow, may result in groundwater contamination. Runoff may be hazardous to aquatic organisms in water adjacent to treated areas. The chemical in this film is toxic to non-target vascular plants.

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Do not apply this product in a way that will contact workers or other persons. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the REI of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated is:

- coveralls
- chemical-resistant gloves made of any waterproof material
- shoes plus socks.

PRODUCT INFORMATION

ADVASEAL® HSM is a plastic mulch film that releases a selective herbicide to control certain broadleaf weeds and nutsedge in selected crops and can be used to reduce fumigant emissions. ADVASEAL® HSM can be absorbed through roots, shoots and foliage and is translocated within the plant. Use ADVASEAL® HSM only in accordance with its labeling and worker protection standards for registered crops to control listed broadleaf weeds, and nutsedge.

WEED RESISTANCE STATEMENT

Weeds can develop resistance to herbicides. Some weed biotypes have inherent resistance to certain herbicides. Repeated use of herbicides with similar modes of action can result in the development of resistance in weed populations. ADVASEAL® HSM contains an herbicide that is a member of the sulfonylurea family and is an ALS enzyme inhibiting herbicide. To minimize the potential for resistance development and/or to control resistant weed biotypes, use a variety of cultural, mechanical and chemical weed control tactics. Rotate with herbicides having different modes of action (e.g., non-ALS/AHAS materials). Contact your professional crop advisor, local cooperative extension specialist, or Bayer Innovation GmbH representative for additional information.

APPLICATION INSTRUCTIONS

ADVASEAL® HSM film must be applied as a bedded mulch that it is in continuous contact with the soil. The bed must be uniform with no dish shapes to prevent the mulch from direct contact with the soil because ADVASEAL® HSM releases the active ingredient once the coating on the layer next to the soil gets wet by absorbing water from the soil. The mulch must be applied with a properly adjusted equipment to ensure that the edges of the mulch are secured with a generous amount of soil. However, do not apply more soil than is needed, as this makes the mulch more difficult to remove. Stretch wheels must be adjusted to stretch the mulch edge securely into the anchoring furrow for covering. Mulch applied properly will not blow off the row and requires minimum effort to remove.

ADVASEAL® HSM is packaged in a 2,000 foot roll. Bedded rows on 6-foot centers require 7,260 feet of row, and rows on 5-foot centers require 8,720 feet of row, to cover an acre of land. Therefore, about 3.6 rolls of ADVASEAL® HSM are needed per acre on 6-foot centers, and about 4.4 rolls are needed per acre on 5-foot centers.

Handler exposure is minimized by a 4-inch strip on both edges consisting only of the film, *i.e.*, without the coated interlayers. These strips run the entire length of the tarp on both sides. Applicators handling the tarp using the 4-inch strip would have no exposure to the halosulfuron-methyl. HSM.

USE PRECAUTIONS

- The surface of the film that is on the inside of the roll must be applied to the soil surface.
- When used with a fumigant, observe the most restrictive of the labeling limitations and precautions of both products.

USE RESTRICTIONS

Do not apply more than 43,560 ft² ADVASEAL® HSM twice per acre during a 12-month period.

THIS TABLE LISTS WEEDS CONTROLLED BY ADVASEAL® HSM.

WHEN USED IN COMBINATION WITH A FUMIGANT, CHECK THE FUMIGANT LABEL TO DETERMINE IF ADDITIONAL WEEDS ARE SUPPRESSED OR CONTROLLED.

C=Controlled; S= Suppressed

WEED SPECIES		PREEMERGENT ACTIVITY
Amaranth, spiny ¹	<i>Amaranth spinosus</i>	C ¹
Cocklebur, common	<i>Xanthium strumarium</i>	C
Corn Spurry	<i>Spergula arvensis</i>	C
Dayflower*	<i>Commelina erecta</i>	C
Eclipta*	<i>Eclipta prostrate</i>	C
Flatsedge, Rice*	<i>Cyperus iria</i>	S
Galinsoga	<i>Galinsoga</i>	C
Goosefoot		C
Groundsel	<i>Senecio vulgaris</i>	C
Horseweed/Marestall	<i>Erigeron Canadensis</i>	C
Jimsonweed	<i>Datura stramonium</i>	C
Kochia ¹	<i>Kochia scoparia</i>	C ¹
Ladysthumb	<i>Polygonum persicaria</i>	C
Lambsquarter, Common	<i>Chenoposium album</i>	C
Mustard, Wild	<i>Sinapis arevensis</i>	C
Nutsedge, Yellow	<i>Cyperus exculentus</i>	S
Nutsedge, Purple	<i>Cyperus rotundus</i>	S
Pigweed, Redroot ¹	<i>Amarunthus retroffiexus</i>	C ¹
Pigweed, Smooth ¹	<i>Amaranthus hybridus</i>	C ¹
Purslane	<i>Portulaca oleracea</i>	S
Radish, Wild	<i>Rapharius raphanistrum</i>	C
Ragweed, Common	<i>Ambrosia artemisiifolia</i>	C
Shepherdspurse	<i>Capsell bursa-pastoris (L.) medicus</i>	C
Smartweed, Pennsylvania	<i>Polyfonum pensylvanisum</i>	C
Sunflower	<i>Helianthus annuus</i>	C
Velvetleaf	<i>Abutilan theophrasti</i>	C

* Except California

¹ Certain biotypes of this weed species are known to be resistant to ALS herbicides.

CROP APPLICATIONS

ADVASEAL® HSM may be applied to listed crops as a pre-plant application for suppression of nutsedge and control of listed broadleaf weeds.

	Crop Specific Restrictions
--	-----------------------------------

Crop	
Asparagus	Must not be transplanted into treated beds any sooner than 11 days after ADVASEAL® HSM is installed. Pre-harvest interval (PHI)=18 days.
Cucumbers, including pickling cucumbers	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.
Cantaloupes	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.
Honeydew melons	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.
Watermelons	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM. Use only in AL, AR, AZ, CT, DE, FL, GA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MO, MS, NC, NH, NJ, NY, OH, OK, PA, RI, SC, TN, TX, VA, VT, WV, WI.
Summer squash for processing	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM. Use only in AR, OK and MO.
Pumpkins	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.
Winter squash	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.
Tomatoes	Must not be seeded or transplanted into the treated beds any sooner than 11 days after installation of ADVASEAL® HSM.

DIRECTIONS FOR USE:

- For injection applications, install ADVASEAL HSM immediately after the fumigant is applied to the soil. For drip applications, ADVASEAL HSM must be put in place before the application starts.
- Crop may be seeded or transplanted into this treated area no sooner than 11 days after installation of the plastic mulch film, unless local conditions demonstrate safety at an earlier interval.
- Do not apply more than twice per acre during a twelve month period. Must be applied as a bedded mulch that is in continuous contact with the soil. The bed must be uniform with no dish shapes that prevent the mulch from direct contact with the soil.
- A bedded tarp application of ADVASEAL® HSM with 5-foot row centers results in treatment of 85% of an acre (areas between beds are not treated), which is equivalent to an application of 0.0935 oz halosulfuron-methyl/acre. Bedded tarp applications of ADVASEAL® HSM with 6-foot row centers result in treatment of 72% of each acre, which is equivalent to an application of 0.0792 oz halosulfuron-methyl/acre. These applications must be taken into consideration when post-emergence applications of halosulfuron methyl are made with SANDEA herbicide (75% halosulfuron methyl) because total use of halosulfuron methyl is restricted to 0.75 oz /year for asparagus, pumpkins and winter squash, and not more than 1.5 oz halosulfuron methyl/year for cucumbers, cantaloupes, honeydews, Crenshaw melons, watermelon, summer squash and tomatoes.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, feed or seed by storage or disposal.

PESTICIDE STORAGE: Store product rolls under cool, dry conditions (below 120°F). Do not store under moist conditions.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill for pesticide disposal or in accordance with applicable Federal, state or local procedures.

CONTAINER HANDLING: Offer the plastic mulch film for recycling, if available, or dispose of in a sanitary landfill or by other procedures approved by state or local authorities.

DISPOSAL AUTHORITIES: If none of the foregoing procedures is permitted by state and local authorities, then contact your State Pesticide Environmental Control Agency, or your local Hazardous Waste Disposal office, or the Hazardous Waste Representative at the nearest EPA regional Office for guidance.

FOR 24-HOUR EMERGENCY ASSISTANCE (SPILL, LEAK OR FIRE), CALL CHEMTREC (800) 424-9300

NOTICE OF CONDITIONS OF SALE AND WARRANTY AND LIABILITY LIMITATIONS

Important: read the entire Directions for Use and Notice of Conditions of Sale and Warranty and Liability Limitations before using this product.

Our directions recommendations for use of this product are based on tests believed to be reliable. However, it is impossible to eliminate all risk associated with the use of this product. Crop injury, inadequate performance, or other unintended consequences may result due to soil or weather conditions, off target movement, presence of other materials, method of use or application, and other factors, all of which are beyond the control of Bayer Innovation GmbH. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer and User.

Bayer Innovation GmbH warrants that this product conforms to the specifications on the label when used in strict conformance with Directions for Use, subject to the above stated risk limitations. BAYER INNOVATION GMBH MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE FULLEST EXTENT PERMITTED BY LAW, BAYER INNOVATION'S EXCLUSIVE LIABILITY FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, OR ANY OTHER LEGAL THEORY IS STRICTLY LIMITED TO THE PURCHASE PRICE PAID OR REPLACEMENT OF PRODUCT, AT BAYER INNOVATION'S SOLE DISCRETION.
