Subject: PRIA Label Amendment – To add additional organisms to the product labeling
Product Name: Gertrude II
EPA Registration Number: 89900-3
Received Date: May 7, 2021
Action Case Number: 00300752

Dear Ms. Amadio:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Action Case No. 00300752

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Karen M. Leavy by phone at (703)-308-6237, or via email at Leavy.Karen@epa.gov.

[SECTION 3: DIRECTIONS FOR USE]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Can be used on all types of hard, non-porous (bathroom) (restroom) (kitchen*) surfaces: [[insert LOCATIONS from Table 3] [insert SURFACE TYPES – Table 4]]. Spot test all (other) surfaces in an inconspicuous area. Unplug electrical appliances before using.

[Directions for use for products not containing kitchen or other food contact surface uses]

TO CLEAN: (Bathroom)(Restroom)

Spray 6-8 inches (15 - 20 cm) from surface until thoroughly covered. For tough jobs, let stand several minutes before wiping. Rinse.

TO DISINFECT: (Bathroom)(Restroom)

Pre-clean visibly soiled areas. Spray hard, non-porous surfaces 6-8 inches (15 - 20 cm) from surface until visiby wet. Let surface stand for 5 minutes and wipe.

[Directions for use for products containing kitchen or other food contact surface uses]

TO CLEAN: (Kitchen) (Bathroom) (Restroom)

Spray 6-8 inches (15 - 20 cm) from surface until thoroughly covered. For kitchen countertops and similar, food contact surfaces must be rinsed with clean potable water following application. (For tough jobs, let stand several minutes before wiping. Rinse.)

TO DISINFECT: (Kitchen) (Bathroom) (Restroom)

Pre-clean visibly soiled areas. Spray hard, non-porous surfaces 6-8 inches (15 - 20 cm) from surface until visiby wet. Let surface stand for 5 minutes and wipe. For kitchen countertops and similar, food contact surfaces must be rinsed with clean potable water following application.

[Refill instructions for (refill) (refillable) bottle only:]

TO REFILL: (Trigger Spray Bottle): Remove trigger sprayer from empty bottle. Unscrew cap on refill and pour contents directly into empty bottle. Replace trigger sprayer and use as you normally would.

STORAGE & DISPOSAL

[Residential – nonrefillable container/final disposal]

Pesticide Storage: Store in original container out of reach of children and pets.

Pesticide Disposal: Never place unused product down any indoor or outdoor drain.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Securely wrap original container in several layers of newspaper and discard in trash or offer for recycling if available.

EMERGING VIRAL PATHOGENS

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category.

- Enveloped virus

For an emerging viral pathogen that is a/an...	...follow the direction for use for the following organism on the label
Enveloped virus	Norovirus (using Feline Calicivirus as a surrogate virus) (ATCC VR-782)
Large, non-enveloped virus	Norovirus (using Feline Calicivirus as a surrogate virus) (ATCC VR-782)

[Product name] has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **[Product name]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against Norovirus (using Feline Calicivirus as a surrogate virus) (ATCC VR-782) on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

OR

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the direction for use against Norovirus (using Feline Calicivirus as a surrogate virus) (ATCC VR-782) on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

[SECTION 5: MARKETING CLAIMS]

[Note to Reviewer: “And” or “&” can be used interchangeable in the marketing sentences. Sentences may be joined using the word “and” or “or” or comma’s. Exclamation marks may be used for emphasis. All claims containing the word “new” or “improved” will only be used for 6 months after the first retail production.]
