Subject: Label Amendment – *Adding 2 floral graphics*
Product Name: Homebright Disinfectant Spray
EPA Registration Number: 90253-2
Application Date: 01/08/2018
Decision Number: 537806

Dear Ms. Davis:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at 703.305.6440, or via email at grigsby.stacey@epa.gov .

Sincerely,

A handwritten signature in cursive script that reads "Stacey Grigsby".

Disinfectant Spray

[[Select marketing claims/graphics from "Marketing Claims/Graphics" section below]]

Active Ingredients:

n-Alkyl (60% C ₁₄ , 30% C ₁₆ , 5% C ₁₂ , 5% C ₁₈) dimethyl benzyl ammonium chloride	0.1%
n-Alkyl (68% C ₁₂ , 32% C ₁₄) dimethyl ethylbenzyl ammonium chloride	0.1%
Ethanol	30.8%
Other Ingredients†	69.0%
Total	100.0%

†Contains sodium nitrite

Keep Out Of Reach of Children

[CAUTION]

See back panel for [First Aid and] additional Precautionary Statements.

Net Weight: ____ oz

EPA Reg. No. 90253-2

EPA Est. 90776-CHN-1

{Back Panel}

[First Aid

If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. **If on Skin:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For non-emergency information on product usage call {appropriate phone number}, Monday-Friday, 9am-5pm CST.] For medical emergencies call your poison control center at 1-800-222-1222.]

PRECAUTIONARY STATEMENTS

[Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.]

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not throw container into fire or incinerator. Do not spray on varnished, painted or plastic surfaces. This product is a reducer. Keep away from oxidizers.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

Shake Well Before Using

Homebright® Disinfectant Spray [This product] is a germicidal spray product that kills 2009-H1N1 Influenza A Virus (Novel H1N1), *Campylobacter jejuni*, *Escherichia coli*, Human Immunodeficiency Virus Type 1 (HIV-1), *Klebsiella pneumoniae*, Methicillin-resistant *Staphylococcus aureus* (MRSA), *Pseudomonas aeruginosa*, *Salmonella enterica*, *Staphylococcus aureus*, *Streptococcus pyogenes*, Swine Influenza A (H1N1) Virus, *Trichophyton interdigitale* and Vancomycin-resistant *Escherichia faecalis* (VRE). [Homebright® Disinfectant Spray [This product] is a germicidal spray product that kills MRSA, E. coli, Staph, Salmonella, VRE and other organisms as listed.] Use to disinfect/sanitize hard, nonfood contact, nonporous, inanimate [, environmental] surfaces such as athletic equipment, bath mats, diaper pails (metal or plastic), door knobs, garbage cans (metal or plastic), hampers (empty), light switches, locker room benches, locker room shower stalls (glazed ceramic tile or plastic), shower room floors, telephones, toilet seats (non-wood) and urinals (glazed porcelain or metal).

Pre-Cleaning

Before using Homebright® Disinfectant Spray [this product] for disinfection and/or sanitization*, thoroughly pre-clean surfaces to be treated.

Disinfection and Sanitization*

Hold can upright and spray pre-cleaned surfaces from a distance of 6 inches until surface is wet. Allow treated surfaces to remain visibly wet for 10 minutes before wiping with a clean sponge or towel, or let treated surface air dry.

Air Freshener and Deodorizer

Spray upward into rooms, such as bathrooms, churches, classrooms, kitchens, living rooms, meeting rooms, recreation rooms and sickrooms, using 3 second bursts. Direct the spray into corners and center of room, filling the room with a fine mist.

Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV): **Personal Protection:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of 10 minutes prior to wiping. **Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) storage area away from sources of heat or ignition.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed on site or at an approved waste disposal facility. **Container Handling:** Do not incinerate or puncture! **If empty:** Replace cap then offer for recycling, if available; otherwise dispose of in trash. [This container may be recycled in one of the limited number of aerosol recycling centers in the country. Before recycling, empty the can by using the product according to the label. DO NOT PUNCTURE! If recycling is not available, discard in the trash.] **If partly filled:** Call your local solid waste agency for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}
