Subject: PRIA Label Amendment – To Change Signal Word
Product Name: Biosenta Antimicrobial 0.5%
EPA Registration Number: 90276-2
Application Date: January 13, 2015
Decision Number: 499257

Dear Mr. Adams:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

EPA Reg. No. 90276-2

EPA Est. 20909-CA-001

[Alternate EPA Establishments: May be jet coded or designated in the Lot# or Batch#]

Net Contents: 32 fl. oz. (946 ml) [or alternate sizes]

PHYSICAL AND CHEMICAL HAZARDS

Do not use this product with other chemicals such as ammonia, toilet bowl cleaners, rust removers, or acid, as this releases hazardous gases. APPLY CAREFULLY - This product contains bleach.

[Required for containers greater than 5 gallons]

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatics.

[All directions may be written in numbered form or in paragraph form.]

Biosenta Antimicrobial 0.5% *[or other product name]* is a ready-to-use multi-purpose spray with disinfectant activity against the following:

[For reviewer clarity, all efficacy claims have been added to the end of the label.]

It eliminates odors and effectively cleans a wide range of hard, non-porous surfaces such as sealed wood, floors, walls, countertops, sealed tile, sealed stone and sealed concrete. This product may be used in households, commercial, institutional and industrial areas such as; homes, offices, schools, cars, boats, RV's on any hard, non-porous surface.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not dilute **Biosenta Antimicrobial 0.5%** *[or other product name]*. Repeat treatment as needed.

1. Prepare area to be treated by removing any heavy soil from surface.
2. Spray **Biosenta Antimicrobial 0.5%** *[or other product name]* directly onto cleaning surface to be most effective.
3. After 10 minutes, scrub with a brush then wipe down surface to remove residue. For surfaces that come in contact with food, a potable water rinse is required.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

[For containers 5 gallons or less]

STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration.

PRODUCT DISPOSAL: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

CONTAINER HANDLING: Nonrefillable container. Only refill with this product. Do not reuse this container. Offer for recycling if available or reconditioning if appropriate or place in trash.

[For containers greater than 5 gallons]

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip back and forth several times. Follow Product Disposal instructions for rinsates disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
